INFORMATIONAL BULLETIN FY84-29

TO: All Retailers and Users Qualifying for Farm Manufacturing
Machinery and Equipment Schedule

SUBJECT: Farm Machinery and Equipment Exemption Schedules RR-594 and
RR-594A

To accommodate the increased sales tax rate (4% to 5%), the Farm Machinery and Equipment Exemption Schedule (RR-594) has been revised. For any delivery of qualifying manufacturing machinery or equipment made on or after January 1, 1984 you should use the revised form. The total of Column 8 on the RR-594 is to be entered in Item 2(i), Column 3 of the sales tax return (Form RR-1-A).

If you are still receiving monies (accounts receivable) on farm machinery and/or equipment delivered prior to January 1, 1984, you must report those sales on a new schedule, Form RR-594-A. The total of Column 8 on the RR-594-A is to be entered in Item 2(i), Column 2 of the RR-1-A.

Please note that the totals on the RR-594 and RR-594-A must be reported separately.

Enclosed are your Farm Machinery and Equipment Exemption Schedules RR-594 and RR-594-A. Additional forms are available by addressing your request to Illinois Department of Revenue, P.O. Box 3545, Springfield, Illinois 62708.

Should you need assistance in completing your return and/or schedule, you may call us at (217) 782-7897 or, in Cook County, at (312) 641-2150.

J. Thomas Johnson
Director of Revenue

Issued: February, 1984
