

■ Home Rule Sales Tax Summary

TO: All Retailers and Servicepersons Conducting Business in Units of Local Government That Impose Home Rule Sales Tax

Effective January 1, 1996, some home rule municipalities have imposed home rule sales tax, and some have increased their home rule sales tax rates (see the table accompanying this bulletin).

It may be necessary to adjust your cash registers and any computer programs you use so that, beginning on January 1, you will be collecting and paying the correct amounts.

The home rule sales tax rate is part of the combined rate which is preprinted on your Form ST-1, Sales and Use Tax Return, and, for multiple-site filers, your Form ST-2, Multiple Site Form.

What's being taxed?

The home rule sales tax has the same base for **general merchandise** as the state sales tax you are already familiar with. (The base refers to those items that are taxed. Any item that is exempt from state sales tax will also be exempt from this home rule sales tax.)

You will report receipts from this general merchandise tax on Line 4a on Form ST-1. Your preprinted return will show the correct combined rate.

Food, drugs, and medical appliances are exempt from home rule sales tax. (The term "food" here refers to food not prepared for immediate consumption, such as most food purchased at a grocery store, excluding hot foods, alcoholic beverages, and soft drinks.)

What do I do when a customer pays me after January 1 for a purchase delivered earlier at a different rate?

If the original purchase was subject to a different tax rate from the rate in Line 4a of Form ST-1, you must report these receipts on Line 8a.

Does home rule sales tax apply to sales on Form ST-556, Sales Tax Transaction Return?

No. If you sell cars or other items that are required to be titled or registered by an agency of Illinois government, you should pay special attention. The home rule sales tax **does not** apply to these sales, and receipts from these sales will continue to be taxed at the current rate preprinted on your Form ST-556.

However, receipts from sales of general merchandise, such as the parts you sell over the counter and the parts you use during service of motor vehicles, watercraft, aircraft, trailers, and mobile homes, are subject to home rule sales tax rates, which are reflected in the rates preprinted on Forms ST-1 and ST-2.

**What if I conduct
business in East Peoria?**

East Peoria's non-home rule sales tax is **1 percent** on general merchandise.

This rate, when combined with the 6.25 percent state rate, results in a total general merchandise rate of **7.25 percent**.

Beginning with sales made on or after August 20, 1995, East Peoria's non-home rule sales tax no longer applies to food, drugs, and medical appliances. Therefore, East Peoria's total food, drug, and medical appliances rate is **1 percent**.

For further information, see our Informational Bulletin FY 96-4, Changes in the East Peoria Non-Home Rule Sales Tax Rate.

Sales Tax Rates in Home Rule Units of Local Government

The following table outlines the sales tax rates for general merchandise effective January 1, 1996, for each of the home rule units in Illinois that impose home rule sales tax. You will find the combined rate preprinted on your Forms ST-1 and ST-2 for each reporting period. Municipalities that have newly imposed home rule sales tax (effective January 1, 1996) are identified as "New."
