This bulletin is written to inform you of recent changes; it does not replace statutes, rules and regulations, or court decisions.

Effective **July 1, 2006**, certain units of local government have either imposed a tax or changed their tax rate on sales of general merchandise for home rule sales tax, non-home rule sales tax, county public safety sales tax, or business district sales tax.

The new state and local combined rate will be preprinted on Line 4a of Form ST-1, Sales and Use Tax Return, or Form ST-2, Multiple Site Form, as a total general merchandise rate. The combined rate is also shown in the table on the back of this bulletin.

You may need to adjust your cash registers and any computer programs you use so that, beginning on July 1, you will collect and pay the correct amount of tax.

If you use software to create the forms you file, that software must also be adjusted. You may need to contact your software vendor.

What is taxed?

You must collect home rule sales tax, non-home rule sales tax, county public safety sales tax, and business district sales tax on sales of **general merchandise** (reported on Line 4a of Form ST-1 and Form ST-2). The same items of general merchandise reported on Form ST-1 and Form ST-2 that are subject to state sales tax are also subject to home

rule sales tax, non-home rule sales tax, county public safety sales tax, and business district sales tax.

Home rule sales tax, non-home rule sales tax, county public safety sales tax, and business district sales tax **do not** apply to

- sales of qualifying food, drugs, and medical appliances¹ (reported on Line 5a of Form ST-1 and Form ST-2), or
- items that must be titled or registered by an agency of Illinois state government (reported on Form ST-556, Sales Tax Transaction Return).

Note: Units of local government may impose and administer other taxes that are **not** collected by the Illinois Department of Revenue. Please contact your municipal or county clerk's office for more information.

How do I report a sale that was delivered earlier and taxed at a different rate?

If the original sale was subject to a tax rate that is different from the rate due for Line 4a of Form ST-1 or Form ST-2, you must report these receipts on Line 8a.

Note: Line 8a is to be used only to report receivables subject to a previous tax rate. No other use of this line is permitted.

Where can I find the amount of the tax rate changes and the new combined rate?

The table below outlines the sales tax rates for general merchandise effective July 1, 2006, for each of the units of local government in Illinois that have imposed a change in local sales tax rates.

For a complete listing of statewide sales tax rates, see the July 1, 2006, version of our Publication ST-25, Illinois Sales Tax Rate Reference Manual. This publication is available on our web site at tax.illinois.gov.

³ Wayne County	N/A	N/A	+0.75%	N/A	7.00%

¹ 86 Ill. Adm. Code 130.310

² This municipality has imposed a business district tax. See the July 1, 2006, version of our Publication ST-25, Illinois Sales Tax Rate Reference Manual, for the addresses that are within this district.

³ This county has imposed or increased the countywide county public safety sales tax. For units of local government within this county that impose home rule sales taxes or non-home rule sales taxes, the ST-1/ST-2 combined rate varies. For all unincorporated areas and units of local government in this county that do not impose home rule sales taxes or non-home rule sales taxes, the ST-1/ST-2 combined rates are the rates listed above which become effective July 1, 2006.
