This bulletin is written to inform you of recent changes; it does not replace statutes, rules and regulations, or court decisions.

Effective **January 1, 2007**, certain taxing jurisdictions have either imposed a tax or changed their tax rate on sales of general merchandise for home rule sales tax, non-home rule sales tax, county public safety sales tax, or business district sales tax.

The new state and local combined rate will be preprinted on Line 4a of Form ST-1, Sales and Use Tax Return, or Form ST-2, Multiple Site Form, as a total general merchandise rate. The combined rate is also shown in the table on the back of this bulletin.

You may need to adjust your cash registers and any computer programs you use so that, beginning on January 1, you will collect and pay the correct amount of tax.

If you use software to create the forms you file, that software must also be adjusted. You may need to contact your software vendor.

What is taxed?

You must collect home rule sales tax, non-home rule sales tax, county public safety sales tax, and business district sales tax on sales of **general merchandise** (reported on Line 4a of Form ST-1 and Form ST-2). The same items of general merchandise reported on Form ST-1 and Form ST-2 that are subject to

state sales tax are also subject to home rule sales tax, non-home rule sales tax, county public safety sales tax, and business district sales tax.

Home rule sales tax, non-home rule sales tax, county public safety sales tax, and business district sales tax **do not** apply to

- sales of qualifying food, drugs, and medical appliances¹ (reported on Line 5a of Form ST-1 and Form ST-2), or
- items that must be titled or registered by an agency of Illinois state government (reported on Form ST-556, Sales Tax Transaction Return).

Note: Some taxing jurisdictions may impose and administer other taxes that are **not** collected by the Illinois Department of Revenue. Please contact your municipal or county clerk's office for more information.

How do I report a sale that was delivered earlier and therefore taxed at a different rate?

If the original sale was subject to a tax rate that is different from the rate due for Line 4a of Form ST-1 or Form ST-2, you must report these receipts on Line 8a.²

Note: Line 8a is to be used only to report receivables subject to a previous tax rate. No other use of this line is permitted.

Where can I find the amount of the tax rate changes and the new combined rate?

The table below outlines the sales tax rates for general merchandise effective January 1, 2007, for each of the taxing jurisdictions in Illinois that have imposed a change in local sales tax rates.

For a complete listing of statewide sales tax rates, see the January 1, 2007, version of our Publication ST-25, Illinois Sales Tax Rate Reference Manual. This publication is available on our web site at tax.illinois.gov.

How do I know if my business is located within a business district or subject to this tax?

Your business address determines whether business district tax applies to your sales. Refer to our Publication ST-25, Illinois Sales Tax Rate Reference Manual for a complete list of business district addresses.

Taxing Jurisdiction	Sales Tax Rate Changes for Sales of General Merchandise				General Merchandise Combined Rate	
	Home Rule	Non Home Rule	County Public Safety District	Business District	Inside business district	Not Inside business district
	³ Belleville (St.Clair County) Carlyle/Green Mount Bus. Dist.	N/A	N/A	N/A	+1.00%	8.60%
