### To:

### All Retailers of Motor Fuel in Kane County

Effective **May 1, 2007**, the Kane County motor fuel tax rate increases from 2 cents per gallon to **4 cents per gallon**.

It will be necessary to adjust your cash registers, pumps, and any computer programs you use so that, beginning May 1, you will collect and pay the correct amount of tax.

### Will I receive new forms with this bulletin?

If our records show we normally send your tax returns to this address, we have enclosed tax forms with this bulletin.

If we do not normally send your tax returns to this address, we are sending you this bulletin as a courtesy and no forms will be included.

### I am a monthly filer. Will my forms beginning with May's liability show the correct tax rate?

The forms we have preprinted for you and enclosed with this bulletin show the correct tax rate of 4 cents per gallon. Please use the enclosed forms for May and June to file your monthly tax returns.

You may already have received, or will shortly receive, your regular mailing of April, May, and June forms under separate cover. The May and June forms in that packet were printed with the incorrect rate of 2 cents per gallon. You should immediately destroy the May and June forms in that packet.

### I am an annual filer. Since I will make sales at two different rates during this year, how will I report?

We will send you two separate forms that you must file. One form will cover the period of January 1, 2007 through April 30, 2007. That form will show the tax rate of 2 cents per gallon. The other form will cover the period of May 1, 2007 through December 31, 2007. That form will show the tax rate of 4 cents per gallon.

Both returns will be due on the same date, which will be printed on the forms.
