Change in the Motor Fuel Use Tax Rate, Effective January 1, 2020, through June 30, 2020

To: All Licensed Interstate Motor Carriers

Motor Fuel Use Tax is comprised of two parts, “Part A” and “Part B.” The rates listed here are effective January 1, 2020, through June 30, 2020.

What is the Illinois “Part A” rate?
The “Part A” rate is established by Section 2 of the Motor Fuel Tax Law, which imposes the tax per gallon on all motor fuel used in motor vehicles operating on Illinois public highways and in recreational type watercraft operating on Illinois waters. As amended by Public Act 101-32, the Motor Fuel Tax Law provides that the rate will be increased annually, beginning July 1, 2020, and on July 1 of each subsequent year by an amount equal to the percentage increase, if any, in the Consumer Price Index for All Urban Consumers for all items published by the United States Department of Labor for the 12 months ending in March of each year. 35 ILCS 505/2.

What is the Illinois “Part B” rate?
The Illinois Department of Revenue is required to establish the “Part B” rate of the Motor Fuel Use Tax for diesel fuel, gasoline, gasohol, liquefied petroleum gas (LPG), compressed natural gas (CNG), and liquefied natural gas (LNG). The rates listed here are effective January 1, 2020, through June 30, 2020.

Note that LPG is commonly known as propane.

1  “DGE” means diesel gallon equivalent.
2  “GGE” means gasoline gallon equivalent.
3  Diesel fuel is defined as any product intended for use or offered for sale as a fuel for engines in which the fuel is injected into the combustion chamber and ignited by pressure without electric spark (includes biodiesel).
4  Gasoline includes gasohol.
5  A DGE of LPG = 6.41 pounds of LPG. The conversion ratio used to calculate the LPG rate is one gallon = 0.651 DGEs of LPG.
6  A DGE of LNG = 6.06 pounds of LNG. The conversion ratio used to calculate the LNG rate is one gallon = 0.5776 DGEs of LNG.
7  A GGE of CNG = 5.66 pounds of CNG.
