The 2019 Tax Year

- The Illinois Department of Revenue (IDOR) continues to advance efforts in identifying fraud and identity theft. This includes developing new electronic options for identity verification which will improve security and response time. In some cases, manual review is necessary to ensure the security and confidentiality of taxpayer information. We continue to make every effort to issue tax refunds as quickly as possible. Visit [Where's my Refund?](#) for the most current information. This is the same information Call Center personnel utilize.
- All updates for the tax filing season will be posted to our website at tax.illinois.gov. We encourage taxpayers to check back for the most current information.
- [MyTax Illinois](#), our **free** online account management program, provides a centralized location on our website where taxpayers may electronically file tax returns and supporting schedules, make payments, register a new business, manage their tax accounts, and view correspondence from IDOR. Taxpayers are not required to create a MyTax Illinois account to file their Form IL-1040. First-time Illinois filers must have an Illinois-issued driver's license or identification card and use the non-login filing process to file their Individual Income Tax return (Form IL-1040).
- MyTax Illinois will begin accepting 2019 Individual Income Tax returns on January 27, 2020.
- Filing electronically through MyTax Illinois or the modernized e-file system (MeF) is the best filing option. Electronic filing allows for faster processing of your return and a quicker refund.

Important information for tax preparers and software vendors regarding 2019 tax forms

- Substitute paper forms must be submitted and approved through our Forms Approval Program. For more information, see the [Substitute Forms Guidelines](#) under the Tax Professionals Section on our website.
- Certain paper returns will be processed using new imaging software. All specifications for producing substitute forms, including the updated 1-D barcode, are available in the password protected "Draft Forms" webpage for [Substitute Forms Developers](#).
- All payment vouchers (and some forms) require a scan line at the bottom that is specific to the taxpayer and filing period. Documents with a scan line **should not be duplicated** for other taxpayers or filing periods. This could delay processing for the taxpayer.
- All Forms W-2 are due by January 31, 2020, and must be submitted electronically. Electronically filing Forms W-2 helps combat tax return fraud and identity theft. Submitting Forms W-2 to IDOR is a separate transaction from submitting Forms W-2 to the Social Security Administration. For more information, see [Publication 110, Forms W-2, W-2c, W-2G, and 1099 Filing and Storage Requirements for Employers and Payers, including New 1099-K Electronic Filing Requirements](#).
- If you are a tax professional, see the [Tax Professionals](#) page on our website for current news and resources.
- If you are a tax preparer, make sure your tax preparation software is up-to-date. Using the most recently updated version of your tax preparation software helps reduce the time it takes us to process your clients' returns and helps ensure the security of your clients' tax information.
