Section 2-22 of the Retailers' Occupation Tax Act (35 ILCS 120/2-22) requires units of local government to certify to the Illinois Department of Transportation by April 1 each year whether they have an "airport-related purpose" that would allow any retailers' occupation tax and service occupation tax imposed by the unit of local government and administered by the Illinois Department of Revenue to include tax on aviation fuel. This informational bulletin lists the changes in local sales tax rates on aviation fuel that take effect in certain taxing jurisdictions on July 1, 2021, as a result of this certification requirement.
