Illinois Tax Matrix - Introduction

Illinois has several types of taxes which are collectively referred to as “sales tax.” The Retailers’ Occupation Tax Act imposes a tax upon persons engaged in this State in the business of selling tangible personal property at retail to purchasers for use or consumption (see [35 ILCS 120/1, et seq.](#)). Use Tax is imposed on the privilege of using, in this State, any kind of tangible personal property purchased anywhere at retail from a retailer (see [35 ILCS 105/1, et seq.](#) and [86 Ill. Adm. Code 150.101](#)). In addition, local retailers’ occupation taxes are authorized by statute and administered by the Illinois Department of Revenue (IDOR). There are, however, no local use taxes on general merchandise administered by IDOR.

A “retailer maintaining a place of business in this State,” that is located outside of this State and that has nexus, is required to register with IDOR to collect and remit Use Tax on purchases made by Illinois purchasers. Until October 1, 2018, an out of state retailer established nexus through a physical presence in Illinois (see [35 ILCS 105/2](#)). Effective October 1, 2018, and through December 31, 2020, out of state retailers without a physical presence meeting certain economic or transactional thresholds fall within the definition of a “retailer maintaining a place of business in this State” and must register with IDOR to collect and remit Illinois Use Tax on sales to Illinois purchasers (see [Public Act 100-0587](#) and [86 Ill. Adm. Code 150.803](#)). Effective January 1, 2020, through December 31, 2020, marketplace facilitators meeting certain economic or transactional thresholds fall within the definition of a “retailer maintaining a place of business in the State” and must register as a marketplace facilitator with IDOR to collect and remit Illinois Use Tax on sales to Illinois purchasers made through the marketplace on behalf of marketplace sellers and on its own sales (see Public Acts [101-0009](#) and [101-0604](#) and [86 Ill. Adm. Code 150.804](#)). If a marketplace facilitator, marketplace seller, or out of state retailer makes sales to Illinois purchasers from inventory in Illinois or otherwise engages in the occupation of selling tangible personal property in Illinois, then they will be required to remit Illinois Retailers’ Occupation Tax (ROT) and applicable local retailers’ occupation taxes on those sales. Beginning January 1, 2021, Public Acts [101-0031](#) and [101-604](#) (Leveling the Playing Field for Illinois Retail Act) implement a series of structural changes to the Illinois sales tax laws that change the liabilities of many types of retailers, as follows:

- a) remote retailers – *i.e.*, retailers with no physical presence in Illinois who meet certain economic or transactional thresholds – are required to remit Illinois ROT and applicable local retailers’ occupation taxes based on the Illinois location to which the tangible personal property is shipped or delivered or at which possession is taken by the purchaser (destination rate);
- b) marketplace facilitators meeting certain economic or transactional thresholds are required to remit Illinois ROT and applicable local retailers’ occupation taxes on all sales made through the marketplace on behalf of marketplace sellers, including Illinois brick and mortar retailers, selling through the marketplace, based on the destination rate;
- c) marketplace facilitators meeting certain economic or transactional thresholds making sales on their own behalf incur Illinois ROT and applicable local retailers’ occupation taxes in effect at the location of either the Illinois inventory from which an order is fulfilled or the Illinois location where their selling activities otherwise occur (origin rate). If their sales are filled from inventory located outside Illinois and their selling activities do not otherwise occur in Illinois, marketplace facilitators incur Illinois ROT and applicable local retailers’ occupation taxes based on the destination rate;
- d) out-of-state retailers with a physical presence in Illinois will continue to handle their tax liability as they did prior to January 1, 2021; and
- e) Illinois retailers, including brick and mortar retailers, making sales from an Illinois location will continue to handle their liability as they did prior to January 1, 2021. However, for sales made through a marketplace, see section b) above.

In using this matrix, the presumption is that tangible personal property is taxable unless there is an exemption. Most of the exemptions from tax are use-based (e.g., conditioned on the purchaser using the tangible personal property in a specific manner). A few items are exempt based on the nature of product (e.g., feminine hygiene products). Other exemptions are based on the status of the purchaser (e.g., charitable, religious and educational organizations). Purchasers claiming a use-based exemption must provide the retailer with required documentation. Status-based exemptions must be documented by providing the retailer with an exemption identification number (“E-number”) issued by IDOR to the exempt entity.

Illinois has two tax rates. The rate for general merchandise is 6.25% (high rate). The preferential rate for qualifying food, drugs, and medical appliances is 1% (low rate). There are numerous locally imposed retailers’ occupation taxes on general merchandise administered by IDOR. The only locally imposed retailers’ occupation taxes on qualifying food, drugs, and medical appliances administered by IDOR are in transportation districts. There are no local use taxes on general merchandise administered by IDOR. Tax rates are subject to change twice a year on January 1 and July 1. To determine the effective rate of tax for a specific location, use the [Tax Rate Finder](#).

1006	Tangible personal property sold for resale	Non-Taxable		The sale of tangible personal property to a purchaser for the purpose of resale in any form as tangible personal property, to the extent not first subjected to a use for which it was purchased, is not subject to tax. Such sales for resale cannot be made tax-free unless the purchaser (except in the case of an out-of-State purchaser who will always resell and deliver the property to purchasers outside Illinois) has an active registration number or active resale number from IDOR and gives such number to suppliers in connection with certifying to any supplier that any sale to such purchaser is nontaxable because of being a sale for resale. This applies even if they may be required to make a considerable number of sales to dispose of the tangible personal property because persons making such sales are not considered to be in the business of selling tangible personal property at retail. Beginning January 1, 2021, all sales made through a marketplace constitute retail sales by the marketplace facilitator and do not qualify as occasional sales.	86 Ill. Adm. Code 130.110

1030	Auctioneers and agents ON and AFTER January 1, 2021			Auctioneers meeting either of the Wayfair nexus thresholds are marketplace facilitators operating a marketplace and, therefore, all their sales are subject to Retailers' Occupation Tax. Auction sales of tangible personal property that is required to be titled or registered with an agency of this state, including motor vehicles, watercraft, aircraft, and trailers are taxed at registration. If an auctioneer makes a sale on behalf of a marketplace seller that is identified to the purchaser (e.g., a marketplace seller that is disclosed), the auctioneer will incur Retailers' Occupation Tax at the rate in effect at the location where the tangible personal property is shipped or delivered or at which possession is taken by the purchaser (destination rate). If an auctioneer makes a sale on behalf of a marketplace seller that is not identified to the purchaser on the marketplace (e.g., a marketplace seller that is not disclosed), then, for tax remittance purposes, the auctioneer is considered the seller and is required to file its own return, separate from the returns for sales made by identified marketplace sellers, and pay taxes to IDOR on that sale. In the latter case, if the item sold is located in Illinois, or if the selling otherwise occurs in Illinois for that sale (see, e.g., 86 Ill. Adm. Code 270.115), the auctioneer will incur Retailers' Occupation Tax at the rate in effect at the Illinois location of the item, or the location in Illinois where the selling otherwise occurs (origin rate). If the item is not located in Illinois or the selling does not otherwise occur in Illinois, the auctioneer will incur Retailers' Occupation Tax at the rate in effect at the location where the tangible personal property is shipped or delivered or at which possession is taken by the purchaser. Rules at 86 Ill. Adm. Code 130.1915 provide specific guidance on when a marketplace seller is disclosed or undisclosed. Also, see the Auctioneer Registration Flowchart for more information.	86 Ill. Adm. Code 130.1915
1031	Computer software - canned software	Taxable	High Rate	Canned software (pre-written software) which is intended for general or repeated use, regardless of the form in which it is transmitted, including electronic means (e.g., downloaded), is subject to tax. This includes the purchase of mobile apps and games where the purchaser receives software by download. Computer software provided through a cloud-based delivery system – a system in which computer software is never downloaded onto a client's computer and is only accessed remotely – is not subject to tax. Purchases made within software or while playing a game (such as in-app add-ons) are subject to tax and are taxable at the time of purchase.	86 Ill. Adm. Code 130.1935

The selection of pre-written or canned programs or program modules assembled by the vendor into a software package does not constitute custom software unless real and substantial changes are made to the programs or creation of program interfacing logic. See regulation.	86 Ill. Adm. Code 130.1935

This provision is deemed to be met, in the case of a perpetual license, without being set forth in the license agreement.	86 Ill. Adm. Code 130.1935
1034	Construction contractors and real estate developers - when selling tangible property with or without installation	Taxable	High Rate	Construction contractors must remit tax when they engage in selling tangible personal property with or without installation, so long as it remains tangible personal property and is not permanently affixed to real estate (e.g., gas or electric ranges, stoves, washing machines, dryers, refrigerators, furniture, furnishings, drapes, or non-permanent flooring).	86 Ill. 1049	Leases of tangible personal property (excluding vehicles) – True Lease	Taxable		Generally, a true lease has no buyout provision. If a buyout provision does exist, it must be a buyout option based on fair market value to remain a true lease. For a true lease, the lessor is considered the end user and must pay Use Tax at the time of purchase based on the cost price of the tangible personal property purchased for lease to an Illinois lessee. The tax rate due will vary based on the type of tangible personal property being leased.	86 Ill. Adm. Code 130.2013 and 130.220
1050	Leases of tangible personal property (excluding vehicles) – Conditional Sales Agreement	Taxable		A lease is considered a conditional sales agreement if, at the initiation of the lease, the lessor is guaranteed that the tangible personal property will be sold. A conditional sale usually has a nominal or “one dollar” purchase option at the close of the lease term. The tax is due from a conditional sale when each periodic payment is made. The lessor remits Retailers’ Occupation Tax on all receipts of a conditional sale when the tangible personal property is leased to an Illinois lessee. The tax rate due will vary based on the type of tangible personal property being leased.	86 Ill. Adm. Code 130.2013 and 130.220

Special Situations and Exemptions					
ID*	Description	Taxable	Rate	Explanation	References
3012.1	State and Local taxes - when included in the selling price and basis for tax			Generally, when a tax is imposed on the retailer, importer, manufacturer, and not the consumer directly, the tax is included in the selling price when calculating Retailers' Occupation Tax or Use Tax. In computing Retailers' Occupation Tax liability, no amount may be deducted from gross receipts from retail sales of alcoholic beverages to cover the taxes which have been paid by manufacturers or importing distributors of alcoholic beverages under the Liquor Control Act of 1934. In the case of cigarettes, the amount represented by the State Cigarette Tax or Cigarette Use Tax should be included in arriving at the net taxable selling price. If a home rule jurisdiction, such as Chicago, imposes a cigarette tax, the amount of such local cigarette tax is included the selling price when computing tax.	86 Ill. Adm. Code 130.2060
3012.2	State and Local taxes - when not included in the selling price and basis for tax			When a tax is imposed on a consumer, the tax is not includable in gross receipts subject to State tax. In addition gross receipts does not include any charges that are added to prices on account of the seller's tax liability under any local occupation tax administered by the Department. Persons who sell motor fuel for use or consumption may deduct, from their gross receipts from such sales, the Illinois Motor Fuel Tax collected with respect to such sales, because the Illinois Motor Fuel Tax is on the consumer and is not considered to be a part of the "selling price" of the motor fuel. County Motor Fuel Taxes imposed under the County Motor Fuel Tax Law are not includable in gross receipts subject to Retailers' Occupation Tax. In addition, Cook County Motor Fuel Tax is imposed upon the consumer and is therefore also deductible from gross receipts.	86 Ill. Adm. Code 130.2060
3013	Transportation and delivery charges – when taxable	Taxable		If the transportation/delivery charge is not separately stated to the purchaser, or if the charge is separately stated and the purchaser does not have the option to obtain the property in any manner except by payment of the transportation and delivery charge to the retailer (e.g., no option to pick up or no offer for free or qualified free transportation or delivery), then the transportation/delivery charge is considered part of the taxable purchase price. Costs incurred by the retailer in moving property to some point from which the property will be delivered or shipped to the purchaser, or picked up by the purchaser, are not outgoing transportation and delivery charges; they are part of the retailer's costs of doing business. Any amounts the retailer charges a purchaser for moving the property cannot be deducted from the gross receipts of that sale. For applicable rate, see regulations.	86 Ill. Adm. Code 130.415
3014	Transportation and delivery charges – when not taxable	Non-Taxable		If the transportation/delivery charge is separately stated to the purchaser, and the purchaser has the option to obtain the property in any manner except by payment of the transportation and delivery charge to the retailer (e.g., has the option to pick up or has an offer for free or qualified free transportation or delivery), then the transportation/delivery charge is not taxable.	86 Ill. Adm. Code 130.415

3015	Traded-in property	Non-Taxable		Selling price means the consideration for a sale valued in money whether received in money or otherwise, including cash, credits, or traded in property. Only if the traded in property is of like kind and character as the property being sold may it be used as a deduction from the selling price of the property sold.	86 Ill. Adm. Code 130.425
3016	Deposit or prepayment on purchase price	Taxable	High Rate	If a buyer in a sale at retail makes a binding commitment to purchase (the tangible personal property identified in the contract is subject to binding commitment) any payment on the purchase price is subject to tax. The giving of the binding purchase order by the purchaser, identification of the tangible personal property, and the making of a payment on the price are sufficient to establish that a sale is intended for the purpose of determining that the seller has received taxable "gross receipts".	86 Ill. Adm. Code 130.430
3017	Installation, alteration, and special service charges – when taxable	Taxable	High Rate	When installation, alteration, and service charges are not separately agreed upon and separately stated (see regulation), they are considered part of the selling price and subject to tax.	86 Ill. Adm. Code 130.450
3018	Installation, alteration, and special service charges – when non-taxable	Non-taxable		When installation, alteration, and service charges are separately agreed upon and separately stated (see regulation), they are considered services and are not subject to tax.	86 Ill. Adm. Code 130.450
3019	Sales to nonprofit arts or cultural organizations	Exempt		If an organization qualifies, IDOR will issue an E-number that the organization must provide to vendors. Sales to such organizations are not taxable provided the organization supplies the valid E-number to the vendor at the time of purchase. Nonprofit arts and cultural organizations are required to obtain this number before they can make tax-free purchases.	86 Ill. Adm. Code 130.2004
3020	Sales by exclusively charitable, religious, or educational organizations	Taxable		There are very limited circumstances when these types of organizations are not subject to tax.	86 Ill. Adm. Code 130.2005(a)(3)
3021	Sales of tangible items by schools - soft drinks, candy, popcorn, vending machine sales, and bookstore sales	Taxable	High Rate	Schools must collect tax on sales of tangible property.	86 Ill. Adm. Code 130.2006

3022	Sales to lodges, nonprofit associations, nonprofit corporations, labor unions, civic clubs, and patriotic organizations	Taxable		Purchasers must qualify as a government entity or an exclusively religious, charitable, or educational organization to qualify to receive a Sales Tax Exemption Number from IDOR. Non-profit status with the IRS is not sufficient to qualify for a Sales Tax Exemption without other consideration.	86 Ill. Adm. Code 130.2005
3023	Sales by governmental bodies other than the federal government	Taxable	High Rate	State and local governments, or any agency or instrumentality of any such governmental body, must remit tax when engaging in the selling of tangible personal property at retail to the public other than in the performance of a governmental function.	86 Ill. Adm. Code 130.2055
3024	Sales to purchasers performing contracts with governmental bodies	Exempt		Generally, a government contractor who purchases items to fulfill his obligations under a contract with a governmental unit purchases those items for use and must remit tax. However, if the contract with the governmental unit explicitly requires the contractor to sell those items to the governmental unit, the purchase of those items by the contractor can be structured as purchases for the purpose of resale to the governmental unit if certain conditions are met. To be exempt, there must be a contract between the purchaser and the governmental body that requires the purchaser to transfer the tangible personal property to the governmental body immediately upon or subsequent to the completion of the contract.	86 Ill. Adm. Code 130.2076
3025	Sales to governmental bodies	Exempt		Sales of tangible personal property made to a governmental body (federal, state, local or foreign) are exempt from the tax only if the governmental body has a valid E-number issued by IDOR and it provides this valid E-number to the retailer at the time of purchase, who records the number instead of collecting the tax.	86 Ill. Adm. Code 130.2080 and 150.332
