Vision
AOK Networks are community-based collaborations that promote healthy pregnancies and the positive growth and development of all children birth to five and their parents/caregivers by assuring a high-quality, well-coordinated, easily-accessible system of services and supports. Adams County Community collaboration promoting and strengthening the health and well-being of families and caregivers with children prenatal to 5.

Governance, Staffing, and Funding
The AOK Network is staffed by one full-time coordinator and volunteer co-chairs for Network work groups. All Network partners have an equal voice in decision-making. The All Our Kids Early Childhood Networks initiative is funded through the Illinois Department of Human Services’ Office of Early Childhood and the Adams County Health Department.

Collaboration Accomplishments
The Adams County AOK Network has cross sector representation, including early learning, family support, healthcare, faith-based and human services. Network members have increased their awareness and understanding of community services and resources to better support families needs. Partners have identified transportation issues related to our healthy weight initiative and have provided our data to the Department of Transportation. Bi-monthly Lunch and Learns are provided by and offered to Network partners and community stakeholders increasing their knowledge on identified priority issues.

Primary Activities & Strategies
- Increase enrollment of children in early learning programs
- Implement collaborative screenings
- Health and well-being

Vision
The Addison Early Childhood Collaborative's vision is to ensure all children from birth in the Addison community are safe, healthy, and equipped to learn.

Mission
The Addison Early Childhood Collaborative’s mission is to partner with Addison families so that children and families learn, grow and succeed.

Governance, Staffing, and Funding
• Part-time Project Director
• Steering Committee
• Work groups: Parent & Family Engagement Committee, Professional Development Committee, and Data Committee
• Funding is provided by the DuPage Foundation, Addison School District 4, and the Grand Victoria Foundation. Metropolitan Family Services is our fiscal sponsor.

Collaboration Accomplishments
1. Kindergarten Camp - parent relationship-building and education; providing Kindergarten Transition materials for 175 children
2. Integrating data tracking, analysis and decision making for Preschool for All, Preschool for All Expansion, Special Ed, and Head Start programs
3. Coordinating partners to conduct developmental screenings for children ages birth to 5; involving partners at screenings to provide information to families about childhood development, and social services.

Primary Activities & Strategies
• Increasing quality of early learning programs
• Increase enrollment of children in early learning programs
• Serve priority populations

Mission
The Alliance for Early Childhood is a collaborative, community organization that supports and guides families and educators to nurture the healthy, well-rounded development of children from birth to eight years old.

Vision
As a community, we can “put the child back in childhood” and build a strong developmental foundation for our children's lifelong learning, accomplishment, and joy.

Governance, Staffing, and Funding
Board of Directors, made up of approximately 45–55 At Large and School Representatives from our Member Schools and Organizations. Funding comes from a variety of sources, including the Annual Appeal in the spring, private foundations, grants, sponsorship, educator program revenue, and Member School Dues

Collaboration Accomplishments
Launched Let’s Play! Ongoing Community Program for 2019–2020

Primary Activities & Strategies
• Increasing quality of early learning programs
• Experiential learning with families
Mission
The mission of the Altgeld-Riverdale Early Coalition is to assure that all children are healthy and on track to succeed (academically, cognitively, social-emotionally) by third grade. By working collaboratively to establish a comprehensive support system for children (prenatally to age 8) and their parents, the Coalition builds partnerships among residents, parents, community organizations, and key institutions, which maximize their collective resources and position it to develop new initiatives for/with families, including the Altgeld-Riverdale Parenting Program (a doula/home visiting program); Pre-K to Kindergarten Transitions Project; Early Language Development Program; supporting Pre-K enrollment efforts; trauma support programming; out-of-school science enrichment programming and a community website (www.thecommunitybeat.org).

Governance, Staffing, and Funding
BPI serves as the administrative home for the Altgeld-Riverdale Early Learning Coalition and provides a portion of their annual budget to help support the work. The Education and Early Learning team at BPI manages the coalition and BPI helps coordinate meeting topics and speakers. Funding is provided through foundations and individual fundraising. The Coalition’s membership meets monthly as a whole and makes decisions based on consensus.

Collaboration Accomplishments
1. A continuum of evidenced-based programming for ages PB-8 free to the community. (Doula/home visiting, early language development programming, Pre-K to K Transitions Program, trauma support programming, after-school STEM programming)
2. A new trauma counseling program helping teachers and students address issues related to stress and trauma
3. A robust coalition that has been meeting monthly for seven years, providing a place for stakeholders to connect, collaborate, and problem-solve together

Primary Activities & Strategies
- Increase enrollment of children in early learning programs
- Serve priority populations
Areas Served
CCSD93 Communities of Carol Stream, Bloomingdale and Hanover Park

Families/Community Members

Mission
Community Consolidated School District 93 partners with many local organizations that specialize in providing care and services for our community’s families with children age birth to 5. Together we are the Birth to 5 Community Coalition.

Vision
Building a foundation of success for all children through community and family partnerships.

Governance, Staffing, and Funding
The CCSD93 Birth to 5 Community Coalition, originally a vision of the CCSD93 Board of Education, is fully supported by the district’s senior leadership, including the Board of Education, Superintendent, Senior Leadership Team, and school administrative teams. This is evident in the resources provided by CCSD93, including in-kind services of the Early Childhood Center (ECC) Principal and Birth to 3 Coordinator who serve as the facilitators of the Coalition, as well as the materials, equipment, and staff without which the events and resources available to children, families, and partners would not be possible. In addition to the support of CCSD93, the Coalition benefits from the continued financial support of the DuPage Foundation’s Bright and Early DuPage Grant.

The CCSD93 ECC serves as the home for the CCSD93 Birth to 5 Community Coalition. Monthly meetings of the Coalition’s Leadership Team, which includes representation of CCSD93, community agencies and parents, drive the content of the quarterly meetings to which all Coalition partners are invited. Furthermore, the Coalition’s strategic plan sets the direction for all Coalition work.

Collaboration Accomplishments
1. Connecting families to community resources
2. Increasing services and access to underserved populations
3. Increasing coalition partnerships, including partners from the medical field and local businesses

Primary Activities & Strategies
- Increase quality of early learning programs
- Serve priority populations
- Coordinated intake

**Mission**
AOK Networks are community-based collaborations that promote healthy pregnancies and the positive growth and development of all children birth to five and their parents/caregivers by assuring a high-quality, well-coordinated, easily-accessible system of services and supports.

**Vision**
Committed to a community system that assures positive growth and development of children 0–8 and their families by providing a framework to support initiatives embracing this goal.

**Governance, Staffing, and Funding**
The AOK Network’s administrative home is within the Stephenson County Health Department. A full-time coordinator staffs the AOK grant. Network partners convene monthly with activities conducted at work group level. Decisions are made by consensus. Funding for the initiative is provided through the Illinois Department of Human Services. The AOK Network is a collaboration of service providers serving children pre-birth up to age 8 who participate as a Network to develop a community data driven strategic plan.

**Collaboration Accomplishments**
1. Implemented the use of online referral and follow-up system called IRIS.
2. Developed a pre-k system of all child care providers to use the same curriculum and assessment tools to track kindergarten readiness.
3. In 2016 the AOK Network worked with United Way of NW Illinois to fund and implement the Dolly Parton Imagination Library. This program direct mails monthly books to ALL enrolled children from birth up to age 5. We currently have approximately 50% of the child population enrolled in this program.

**Primary Activities & Strategies**
- Increase quality of early learning programs
- Increase enrollment of children in early learning programs
- Increase children’s attendance in early learning programs
Mission
The Champaign County Local Interagency Council for Early Intervention (CCLIC) is a community collaboration that recognizes the role of the family as the primary influence in promoting a child’s development, and strives to coordinate a comprehensive, family-centered system of support for families with young children. The Council works to identify children birth to age 6 with or at risk of physical, social/emotional, and/or developmental needs. The mission of the Council is to coordinate a comprehensive family-centered system of support for these families.

Governance, Staffing, and Funding
The CCLIC is overseen by Child and Family Connections #16 (CFC) which is the State of Illinois entry point for Early Intervention (EI) services. Easterseals of Central Illinois manages the grant for CFC #16. Grants are funded through the Illinois Department of Human Services (DHS), Division of Family and Community Services (FCS) contracts Child and Family Connections (CFC) for its Early Intervention (EI) program. CFC #16 is comprised of a Program Manager who oversees approximately 15 Service Coordinators, 2 office staff, 2 LIC Coordinators, and a Parent Liaison.

Collaboration Accomplishments
The Council has developed collaborative practices among various agencies across the board through Cradle2Career. The Council is currently collaborating with the Maternal and Infant, and Early Childhood Home Visiting group to move towards coordinated intake and hosting community screenings once a month.

Primary Activities & Strategies
- Serve priority populations
- Coordinated intake
- Implement collaborative screenings
Mission
The mission statement of the Champaign County Home Visitor Task Force is to build a system of care that will support at risk children and their families through collaboration and coordination of services.

The Champaign County Home Visitor Task force will work together to create seamless, unduplicated home visiting services in Champaign county that support the delivery of early care, developmental, and educational services for pregnant women and children from birth to age 5 through home visitation services.

Governance, Staffing, and Funding
The Champaign County Home Visiting Consortium is made up of representatives from the 8 home visiting programs in Champaign County.

The consortium meets monthly to discuss openings, updates from programs, referrals, professional development. etc.

The Consortium is in the process of implementing a non funded, non staffed coordinated intake referral system.

Collaboration Accomplishments
1. The Consortium conducts monthly screening events to assist with referrals into the Home Visiting programs as well as supporting Child find for Early Intervention.
2. The Consortium has implemented a coordinated referral system.
3. The Consortium has instituted a “no wrong door” policy to ensure families are placed into which ever home visiting program fits their needs best.

Primary Activities & Strategies
- Increase enrollment of children in early learning programs
- Serve priority populations
- Implement collaborative screenings

Families/Community Members

Mission
AOK Networks are community-based collaborations that promote healthy pregnancies and the positive growth and development of all children birth to five and their parents/caregivers by assuring a high-quality, well-coordinated, easily-accessible system of services and supports.

Governance, Staffing, and Funding
The Southeast Chicago AOK Network’s backbone organization is SGA Youth and Family Services. A full-time coordinator facilitates monthly Network meetings. Funding for the initiative is provided through the Illinois Department of Human Services.

Collaboration Accomplishments
1. Initiated new AOK Network convening over 40 community partners serving families in Roseland, Pullman and the Riverdale neighborhood of Chicago.
2. Providing awareness and increasing knowledge of how to support families experiencing trauma and children with delays in social emotional development through service provider trainings and an annual EC Mental Health Conference.
3. Increasing service providers knowledge of services and resources in the community to promote comprehensive referrals so families’ needs are met through provider resource presentations and resource fairs.

Primary Activities & Strategies
- Serve priority populations
- EC Mental Health Awareness
- Information and Referral Initiative
Mission
AOK Networks are community-based collaborations that promote healthy pregnancies and the positive growth and development of all children birth to five and their parents / caregivers by assuring a high-quality, well-coordinated, easily-accessible system of services and supports.

The overall goal of this AOK/ECC Collaboration is to respond to the needs of Cicero children and their families to support the vision of every child entering kindergarten safe, healthy, ready to succeed and eager to learn.

Governance, Staffing, and Funding
The Cicero AOK/ECC Network’s backbone organization is the Children’s Center of Cicero and Berwyn. A full-time coordinator and a volunteer co-chair host monthly Network meetings. Initiative approaches and strategies are developed within work groups and presented to AOK Network partners during Network meetings. Decisions are made by consensus. Implementation of efforts are promoted and supported by community stakeholders. Funding for the initiative is provided through the Illinois Department of Human Services.

Collaboration Accomplishments
1. Network partners collaborate to provide monthly community-wide developmental screenings for children birth to age three, serving families not currently enrolled in an early learning program.
2. Launched and implementing a web-based information and referral system engaging early childhood system providers and family support services to provide a clear referral path for families to receive services, streamline communications among referring partners and track all referral activity to completion in one place, promoting data-informed decision making.
3. Increased community awareness on the importance of early education through an awareness campaign that included parent awareness and involvement opportunities such as: Parent Cafe’s, Trainings/Workshops, Events and Door to Door Canvassing.

Primary Activities & Strategies
- Increase enrollment of children in early learning programs
- Implement collaborative screenings
- Comprehensive referrals
Mission
We champion high-quality early childhood care and learning experiences and support for families so all children develop their full potential.

Vision
A community where every child thrives.

Governance, Staffing, and Funding
The Collaboration for Early Childhood is a nonprofit organization managed by a Board of Directors in conjunction with a Collaboration Council. The Board has sole authority for all decisions of the Collaboration, provided that the Board seeks consent from the Collaboration Council on a) election of Board members and officers, b) adoption of the annual budget, c) changes to the mission and vision, d) changes to strategic direction, e) frameworks for public policy advocacy, and f) approval of changes to the Bylaws. An individual becomes a Council member by supporting the mission of the Collaboration and either a) serving as a member of the Board, b) regularly participating in Council meetings, c) being the designative representative of an organization that makes significant monetary or non-monetary contributions to the Collaboration. Funding comes from financial contributions by all of Oak Park’s governing agencies, plus foundations, individuals, corporations and volunteer time.

Collaboration Accomplishments
1. With community input, we re-designed our program services model and sharpened our vision.
2. We continued to provide screening and referrals and to deliver robust family supports to a large number of families.
3. Our professional development offerings included training in the areas of early childhood mental health and equity in the early childhood classroom.

Primary Activities & Strategies
- Increase quality of early learning programs
- Serve priority populations
- Coordinated intake
Areas Served
DeKalb County Illinois

Target Population
DeKalb county families with children 0-5

630.808.9066
ekloppma@childrenshomeandaid.org

Partners & Participants
ECE providers
Health providers
Social service providers
Education (ROE, LEA, school districts)
Child Care Resource and Referral (CCR&R)

Mission
The mission of the DeKalb Coordinated Intake collaborative is to engage families of young children 0-5 in intensive, long-term home visiting services and to do this through a single point entry to avoid duplication of services and to encourage quick enrollment in services.

Governance, Staffing, and Funding
DeKalb Coordinated Intake currently employs one CI worker on a part-time basis, but as of February 2020 will have a full time coordinator in the position. Funding for DeKalb Coordinated Intake is through MIECHV – Illinois’s Maternal Infant and Early Childhood Home Visiting Program. Governance is shared among collaborative partners.

Collaboration Accomplishments
1. DeKalb Coordinated Intake has established a community collaborative that meets monthly. The collaborative is currently composed of individuals from the Doula program (CH&A), HFI HV program, (CH&A), Baby Talk HV program (4-C), DeKalb County Health Department, DCFS, and 4C’s--Community Coordinated Childcare’s Child Care Assistance Program.
2. DeKalb Coordinated Intake was accepted into the second Partner Plan Act Cohort, and formed a leadership team with representatives from each of the three home visiting programs serving the county, plus the DeKalb County Regional Office of Education. DeKalb Coordinated Intake has completed a decision tree, group norms have been established and the referral process has been clarified and established.

Primary Activities & Strategies
- Serve priority populations
- Coordinated intake
- Implement collaborative screenings

Education (ROE, LEA, school districts)
Child Care Resource and Referral (CCR&R)
Other public services (housing, police, libraries)
Community organizations
Foundations
Families/Community Members

Vision
All DeKalb County children have equitable opportunities to be prepared for school and life success.

Goal
To increase the number of DeKalb County children ready for Kindergarten in the following impact areas:
A. Access to early learning opportunities
B. Parent and community partner education, support, and resources
C. Health and wellness of children

Governance, Staffing, and Funding
The KRC Steering Committee consists of cross-sector county-wide representation with liaisons to partner committees. Members include the Health Department, the Mental Health Board, the Community Foundation, Community Coordinated Child Care, and community members. These partner committees focus on trauma-informed practices, home-visiting, Basics DeKalb County ambassadors, professional development and networking for PreK and K, alignment of services for transition of children from Birth into K, and a new Family Council. The KRC itself is volunteer from organizations. The DeKalb County Community Foundation funds some of the objectives through the DeKalb ROE. Basics DeKalb County is primarily funded by the McCormick Foundation, the DeKalb County Community Foundation, and the DeKalb ROE. In the collective impact model, the DeKalb ROE serves as the backbone organization.

Collaboration Accomplishments
1. An aligned system between PreK and K-5 worlds is a work in progress.
2. Basics DeKalb County community saturation in progress and gathering momentum.
3. Drafted a strategic plan and worked on committee structure, communication lines, and adding stakeholders.

Primary Activities & Strategies
- Serve priority populations
- Align birth to third grade (B-3 framework)
- Increase public awareness of importance of early learning
Mission
In DuPage County all children have a strong foundation, ready for a bright future.

Governance, Staffing, and Funding
Governance: DECC Steering Committee (11 members from multiple sectors)
Staff: 1 FT Director
Funding: DuPage Foundation

Collaboration Accomplishments
1. The number of children enrolled in publicly funded Early Childhood programs increased by 24%. That is an increase of 396 seats to a total of 2,031 seats.
2. Our partners through coordinated community planning received an increase of 479 grant-awarded seats. That is an increase up from 1,080 seats to 1,559 seats.
3. Outreach efforts this year reached a total of 1,632 children screened for special needs and early intervention. And of those screened, 580 were referred to the early intervention program.

Primary Activities & Strategies
- Increase quality of early learning programs
- Increase enrollment of children in early learning programs
- Serve priority populations
Areas Served
Niles Township and surrounding areas

Target Population
0-5

Support Whole Child Development

Governance, Staffing, and Funding
Although the Governance is still in the initial stages of development, the charter of the ECA identifies a Steering Committee, Parent Council, and General Membership. Currently, there are no full-time staff members or funding sources.

Collaboration Accomplishments
1. Completion of the EDI
2. Charter outlining governance structure
3. Endorsed by nearly 30 organizations/individuals from various sectors

Primary Activities & Strategies
• Increase enrollment of children in early learning programs
• Serve priority populations
• Coordinated intake
Early Childhood Community Coalition of Lake County
Established in 1978

Mission
We are a united voice of community partners and leaders who advocate, collaborate and strategize to support healthy early childhood growth, development and school readiness. Our work is a community-wide effort. Our vision and passion is a community where children develop to their highest potential in a healthy and stimulating environment.

Governance, Staffing, and Funding
We are a 501c3 funded by donations and dues. We meet monthly and have an elected board of directors as well as committee chairs. Board of Directors consists of President, Secretary, Treasurer, Vice- Presidents of Advocacy, Communication, Education, ECEC, and Membership committees. Our Board of Directors includes professionals from Child Care Centers and Homes; Regional Office of Education, Kohl’s Children’s Museum, Early Intervention - Health Department, Head Start, State’s Attorney’s Office, Child Care Network of Illinois, United Way and Mental Health Consultant.

Collaboration Accomplishments
1. Re-designed survey and sent to 662 Lake County providers to gain information to better serve early childhood providers and systems in Lake County.
2. Provided Tips-For-Teachers workshops throughout the year - What it Your Legacy; Gardening with Children; Identifying and Assisting Children of Homeless Families
3. Legislative Tour - Promoting Quality Care and Education at three diverse programs.

Primary Activities & Strategies
• Increase quality of early learning programs
Mission
The Early Childhood Coalition is a dynamic collaboration that identifies needs and cultivates resources to enhance services and supports to young children and families.

Vision
In our community every young child and family has the support they need to be successful.

Governance, Staffing, and Funding
The Early Childhood Coalition (ECC) is an independent 501(c)3. Leadership and decision-making are provided by the ECC board of directors. Board positions include: Past President, President, President-Elect, Secretary, and Treasurer. Members are invited to serve on committees: Program, Community Outreach, Communications/Membership, and Innovation.

Collaboration Accomplishments
The collaboration is proud of developing a diverse membership of early childhood service organizations to work together for the benefit of young children and families in their communities. We were successful to bring the AOK Network into our community.

Primary Activities & Strategies
- Increase quality of early learning programs
- Implement collaborative screenings
- Increase children’s attendance in early learning programs

Vision
Our children are happy, healthy and ready for Kindergarten.

Mission
Elgin Partnership for Early Learning is building a connected community dedicated to helping young children thrive.

Purpose
- Ensure a shared vision for young children in the Elgin, Illinois community is clearly held, broadly disseminated, and acted upon.
- Support awareness and access for families to high-quality child development and early learning experiences.
- Coordinate efforts across all birth to five programs to increase impact and efficiency.
- Support quality improvement and capacity building of birth to five professionals and organizations.
- Respond to community data about strengths, needs, and gaps.
- Through a collaboration of community partners (childcare centers, library, healthcare, etc...) our work brings together the pieces of the early learning puzzle with the aim of improving Kindergarten success.

Governance, Staffing, and Funding
Executive Director only employee and a working board of 11 that meet monthly. We meet as a full collaboration with all partners three times a year. EPEL has four committees that meet monthly. The YWCA Elgin is our fiscal sponsor. We are funded by Grand Victoria Foundation, United Way, School District and a few other small grants and donations.

Collaboration Accomplishments
1. Received one of three OMG First book grants in Illinois and the only fully funded at $70,000 to add 20,000 books into Elgin children’s hands.
2. 2 Language in the Laundromat programs to offer resources and pop up preschool where partners go in each week to read and play with children for school readiness.
3. Served over 1500 children, parents and grandparents in 2 park sites with Talk, Play, Read, Do and Write activities for school readiness with bilingual teachers

Primary Activities & Strategies
- Increase quality of early learning programs
- Serve priority populations
- Meeting Families Where They Are by finding Non-traditional locations to offer early learning opportunities
Mission

We are a cradle to career collective impact initiative of over 40 partner organizations, including the City, school districts, and a wide range of nonprofits, that has placed a high priority on early childhood. Evanston Cradle to Career (EC2C) partners commit to acknowledge, confront, and eradicate the racial, social, and other systemic inequities, within their organizations and in the community, that undermine access and opportunity for Evanston’s youth, particularly youth of color, to achieve their potential.

Governance, Staffing, and Funding

All EC2C partners financially contribute to the collaborative on a sliding fee scale to ensure a strong investment in the collaboration. As such, partners are the final arbiters of EC2C decision-making. An Operations Team of 12 representatives of our partner organizations guides routine operations. An HR Team of 4 representatives of partner organizations supervises the Executive Director. A 12 member team of community members, Advocates for Action, serves as the arm of the organization into the community, provides guidance around EC2C activities, and manages a Community Building Grants Program. Staff includes an Executive Director, Direct of Research and Evaluation, Community Engagement Manager, and part-time Communications and Office Managers.

Collaboration Accomplishments

- Trained staff at 10 partner early childhood centers in identifying and responding to trauma in students, initiated Sunshine Circles in many of those centers, and jointly offered emergency trauma counseling for children, families, and staff of partner organizations.
- Reached consensus on standards for kindergarten readiness and developed teacher and parent guides to ensure a common understanding of “readiness,” reinforced through an annual Pre-K and K Teacher Summit.
- Developed process for sharing individual child level information from early childhood providers in the community to principals and kindergarten teachers to achieve a smooth transition to kindergarten.

Primary Activities & Strategies

- Increase quality of early learning programs
- Serve priority populations
- Align birth to third grade (B-3 framework)
Glenbard Early Childhood Collaborative
Established in 2017

Areas Served
Marquardt D15, Queen Bee 16, Glen Ellyn D41, CCSD 89, Lombard SD 44

Target Population
Families with children prenatal through 5 years

Collaboration Address
22W600 Butterfield Rd
Glen Ellyn, IL 60137

Collaboration Contact
Jeanine Woltman
224.588.4012

Partners & Participants
ECE providers
Social service providers
Education (ROE, LEA, school districts)
Child Care Resource and Referral (CCR&R)
Other public services (housing, police, libraries)
Community organizations
Foundations
Faith-based

Mission
The Glenbard Early Childhood Collaborative in partnership with the community, works to increase access and awareness to quality learning experiences for all children birth to five and their families.

Vision
Empowering Glenbard Children and Families to reach their greatest potential.

Governance, Staffing, and Funding
Governance: CASE, and CASE Board of Directors
Staffing: 1 Coordinator
Funding: Private - Bright and Early Grant (DuPage Foundation)
State- ISBE PI Grant

Collaboration Accomplishments
1. This year, every district in our collaborative offers preschool to children in their communities. Some through PFA, some through Head Start Partnerships. In addition, many have increased spots available and added resources such as parent and family support.

2. We hoped for a 30% increase, but actually have a 60% increase. Specifically in the ISBE Prevention Initiative model, slots available in GlenbardPAT (program out of the GlenbardECC) alone has increased to 144 children served. In addition, families are served in their home languages, have transportation to more programs, and are connecting with needed resources.

3. Due to the added funding of GPAT and maximizing resources parent ed groups now:
   • Vary in group times
   • More group locations
   • Transportation available
   • Interpreters for home language
   • Increase number and expertise of presenters
   • Increase in number of families participating

Primary Activities & Strategies
• Increase enrollment of children in early learning programs
• Serve priority populations
• Implement collaborative screenings
Mission
To strengthen and sustain a high-quality prenatal to five early childhood system of programs, services, and supports.

Vision
Every child has the knowledge, skills, and disposition for kindergarten success.

Greater East St. Louis Early Learning Partnership
Established in 2009

Areas Served
ELP is the anchoring early learning collaborative of the emerging cradle-to-career collective impact effort known as East Side Aligned. ELP includes the footprint of East St. Louis School District which includes the communities of East St. Louis, Washington Park and parts of Alorton, Centreville and Fairmont City. These communities encompass zip codes: 62201, 62203, 62204, 62205 and 62207, all within St. Clair County.

Target Population
Families with Children Ages Prenatal to Five

Affiliation
East Side Aligned

Foundations

Mission
The Grundy Partnership for Children (GPC) collaborates with organizations, stakeholders and community members to prepare young children in Grundy County for lifelong learning, by identifying and addressing early childhood care and education issues.

Governance, Staffing, and Funding
GPC falls under the Community Foundation of Grundy County’s (CFG) Programs, GPC does not have its own staff or funding for this reason.

Collaboration Accomplishments
1. GPC has created a county wide screening calendar.
2. GPC has increased our membership to include diverse partners.

Primary Activities & Strategies
- Increase quality of early learning programs
- Implement collaborative screenings
**Mission**

AOK Networks are community-based collaborations that promote healthy pregnancies and the positive growth and development of all children birth to five and their parents / caregivers by assuring a high-quality, well-coordinated, easily-accessible system of services and supports.

Local Kane County AOK Network Purpose Statement: The AOK Network is a county-wide network where partners collaborate together to ensure all children enter kindergarten safe, healthy, ready to succeed and eager to learn.

**Governance, Staffing, and Funding**

Collaboration housed at the Kane County Health Department. Coordinator: Kim Peterson
Supervisor: Michael Isaacson
The Kane County AOK Network is supported by 1 full time coordinator and volunteer co-chairs that lead work groups and committees. All AOK Network partners have an equal vote in decision making and development of approaches toward identified outcomes.
Funding for the initiative is provided through the Illinois Department of Human Services.

**Collaboration Accomplishments**

1. Kane County AOK Networks hosts a monthly multi-sector collaboration meeting of individuals agencies to address current issues and work on policies that will improve the lives of young children and their families. Membership is continuing to rapidly grow and many connections have been made in joint effort to help community members.
2. The Kane County AOK Network is initiating the Kane County Trauma-Informed Community movement and collaborating with partners to spread awareness of Adverse Childhood Experiences (ACEs) Science, hosts workforce development activities, and implement/support trauma-informed practices throughout Kane County.
3. Now that the Kane County AOK Network has successfully increased developmental screenings, we are working toward implementing a robust information and referral system that will make family services much more accessible and close the feedback loop between referring and receiving agency.

**Primary Activities & Strategies**

- Increase enrollment of children in early learning programs
- Serve priority populations
- Early childhood trauma and support
Mission
Success By 6 works to ensure all Kankakee County children ages 0–6 have the positive and enriching experiences and positive parent–child relationships necessary to begin school ready to succeed. Success by 6 envisions a community where all children and families are happy, healthy and well-adjusted. We are dedicated to supporting our community through family and parent engagement, early mental health services, and raising awareness about resources available to parents, caregivers and early childhood providers.

Governance, Staffing, and Funding
Success By 6 is a community collaborative, funded by the United Way of Kankakee & Iroquois Counties and the Community Foundation of Kankakee River Valley. United Way of Kankakee & Iroquois Counties’ Community Impact Coordinator serves as the collaborative liaison for members of the coalition.

Collaboration Accomplishments
1. Success by 6 partners with the Erikson Institute to use their Early Development Instrument to prioritize impacted communities based on neighborhood-level data from their Early Development Instrument.
2. Kankakee County is gaining national intention for grassroots efforts towards health equity and cultivating a trauma-informed community.
3. Success by 6 is helping with the realignment of Kankakee County’s system of care to better serve the impacted population and cross-systems collaboration.

Primary Activities & Strategies
- Increase quality of early learning programs
- Increase enrollment of children in early learning programs
- Serve priority populations
Mission
The Little Village Education Collaborative (LVEC) was established in 2014 to focus on implementation of the educational strategies of the 2013 Little Village Quality of Life Plan. LVEC works to connect the key players impacting the education system in the community in order to evaluate the current state of this system, plan strategic improvements for the future, and support legislative changes that expand educational access and opportunity from birth to old age. Central to LVEC’s approach is a community “cultural wealth” framework that is based on the recognition of parents’ and students’ cultural wealth, and that challenges the current “cultural deficit” framework that our educational system has adopted to explain and respond to issues related to educational attainment in low-income communities of color like Little Village.

Governance, Staffing, and Funding
Funding – supported by different private foundations
Governance/Staffing:
ORGANIZED: LVEC is intentionally structured to empower its members and move its mission forward. Its subcommittees implement and revise strategies that are outlined in the 2013 Little Village Quality of Life Plan. All members convene quarterly in order to align the work of subcommittees and reinforce broader goals.

INNOVATIVE: LVEC convenes a diverse range of stakeholders and promotes unique methods of collaboration. This encourages the development of innovative and comprehensive ways to address educational issues in Little Village.

PARTICIPATORY: LVEC seeks to be inclusive of all stakeholders. It uses a participatory approach that embodies respect, trust, transparency, “human goodness” and social justice.

Collaboration Accomplishments
1. Responsive to the LV QLP ECE strategies and priorities
2. Strong participation of diverse ECE stakeholders
3. Increased the number of children enrolled using ECE services in LVC

Primary Activities & Strategies
- Increase quality of early learning programs
- Increase enrollment of children in early learning programs
- Align birth to third grade (B-3 framework)
Mission
To work collaboratively to maximize the impact of Early Childhood Home Visiting in our community.

Governance, Staffing, and Funding
We are not funded and have no formal governance however we are currently working toward a charter agreement to establish governance. Staff from partnering home visiting agencies attend monthly as well as multiple community agencies on a quarterly level. The meetings are facilitated in large part by the MIECHV CI person.

Collaboration Accomplishments
1. Governance Structures and Accountability
2. Member Roles/Responsibility, especially trust and transparency
3. Leadership – worked on meeting structures and processes

Primary Activities & Strategies
- Increase enrollment of children in early learning programs
- Serve priority populations
- Coordinated intake

Areas Served
Macon County and surrendering counties

Target Population
Prenatal and at risk parenting families of children 0-5 years of age.

Education (ROE, LEA, school districts)
McHenry County All Our Kids Network  
Established in 2013

Mission
McHenry County All Our Kids Networks (AOK) is a community-based collaboration committed to enhancing a high-quality, well-coordinated, easily-accessible system of services and supports that promote the positive growth and development of expecting parents and families with children from birth to age five.

Governance, Staffing, and Funding
AOK works with local families and local community leaders to address local needs in our community. Our Network is a comprehensive group that works collaboratively to make the most of existing resources in our communities to promote the mental and physical well-being of families and young children. The Network is led by one part-time, Department of Human Services funded, Local Interagency Council (LIC) Coordinator that is working within the AOK framework and principles. The LIC Coordinator works at Child and Family Connections 25 at Options and Advocacy for McHenry County.

Collaboration Accomplishments
1. McHenry County Developmental Screening Program utilizing the Ages and Stages Questionnaire (ASQ & ASQ-SE) – provided comprehensive training and public awareness activities, increased early identification of developmental delays, and ensured greater access for children to receive regular “learning checkups,” as well as referrals for follow-up, if needed. This screening is occurring in approximately 20+ daycares and preschools in the county. We continue to provide technical support and encourage other providers to participate in early screening and referral.
2. Shared Referral Form – addresses families unable to access services in the community and that community partners often unaware of services and how to refer families. The Shared Referral Form developed to streamline the referral process and make it easier for families to access services. There is continued addition of community organizations to the form with 10 organizations currently listed. Families have benefited from accessing the services in our community.
3. Continued public awareness activities through annual People In Need Forum in McHenry County - presentations to local providers and families on topics such as the importance of early screening and creating an Early Childhood Resource section in their annual resource booklet.

**In reference to above “Primary Activities & Strategies”....
1. Increase quality of early learning programs
   a. Provide support to local daycare and preschool providers regarding increasing knowledge of and identifying possible gaps/lack of social-emotional-behavioral resources for parents, children and providers of young (0-5 yrs) children
   b. Ongoing technical assistance for developmental screening program as noted above

Primary Activities & Strategies
• Increase quality of early learning programs
• Increase awareness of current community resources
Purpose Statement
We bring together community organizations to facilitate collaborative solutions that support families with young children. The McLean County All Our Kids Early Childhood Network envisions a community that provides the best health care and support for pregnant women from conception through the healthy, full-term birth of their infant. We must work with parents and caregivers of young children to raise successful learners, confident adults, and responsible citizens. To help ensure that all our children have the same opportunities: pregnant women need appropriate health care and supports; and children need to be safe, nurtured, healthy (physically and mentally), active, included, and respected. We further picture a mental health system that is abundant, affordable, and easy to access and navigate; that supports pregnant women, their partners, and families with very young children; and recognizes that mentally-healthy families are the key to life-long wellness for a

Governance, Staffing, and Funding
The McLean County Health Department is the administrative home of this AOK Network. The Network is led by one full-time Coordinator; responsibilities include: establishing and maintaining a community collaboration representing health & human service providers; building strategies on coordination of care, workforce staffing, information and referral, and developing and updating the Network’s local webpage, to name a few. We have work groups meeting bi-monthly to move the work forward. The AOK Network strives for consensus through decision and cooperation. The McLean County AOK Early Childhood Network is a grant funded program through the Illinois Department of Human Services and local tax dollars.

Collaboration Accomplishments
1. Sent 11 health and human service providers (both for-profit and non-profit) to 2-day PSI Perinatal Mood Disorders professional development, increasing the number of providers in our community who know more about supporting and treating perinatal mood disorders (PMD). Held a community forum on perinatal mood disorders, attended by a physician, medical office managers, nurses, human service providers, home visitors, parents, mothers experiencing PMD, mental health providers, etc.
2. Trained 2,000+ community members, health and human service providers, business professionals, educators, etc., in Mental Health First Aid and Youth Mental Health First Aid.
3. Recruited and supported two AmeriCorps Members who have worked with the AOK Network on mental health issues.

Primary Activities & Strategies
- Coordinated intake
- Implement collaborative screenings
- Align birth to third grade (B-3 framework)
Mission
North Lawndale Early Learning Collaborative ambition is to ensure that priority families with children 0–8 years old have the resources needed to engage, enroll and sustain in quality early learning programs.

Governance, Staffing, and Funding
Illinois Action for Children serves as the administrative home for the collaborative. The collaborative has a team dedicated to this work and leaders range from various agencies. Decision making is done through a consensus and made as a collective.

There is currently no funding for this initiative.

Collaboration Accomplishments
1. Partnered with community health center to message early learning programs and enrollment process on patients visit summary
2. Collaborative shared consensus with getting outdoor playful learning installed across the community
3. Collaboration has evolved into a resource pipeline for diverse stakeholders that provide direct services in which ultimately supports the community residents and parents that attend

Primary Activities & Strategies
- Provide early learning resources and referrals for families with children 0–8 to increase enrollment of children in early learning programs
- Serve priority populations
- Support retention of families connected to early learning programs within the NL community—primarily done across 4 CPS elementary schools to increase children’s attendance in early learning programs
Mission
PAASSS (Plano Area Alliance Supporting Student Success) will strengthen the community by ensuring that all families in the Plano area are aware of and have equitable access to services and supports that empower them to raise children that are safe, healthy, eager to learn, and ready to succeed.

Vision
A community where all children and families are empowered to succeed in learning and in life.
Partnering for Awareness and Access to Services Supporting Success

Values
Partnering for Awareness and Access to Services Supporting Success

Governance, Staffing, and Funding
P.H. Miller Elementary School serves as the administrative home for PAASSS and provides a portion of their budget to support the work. The preschool support team, volunteer members from the Fox Valley YMCA, Mutual Ground, Family Focus, DayOne PACT, Kendall County Health Department, and United Way plan and facilitate meetings and guide the collaborative regarding strategic planning. The collaboration’s membership meets quarterly as a whole and makes decisions based on consensus.

Collaboration Accomplishments
1. Opened the Plano Family Resource Center where we offer FREE services and supports to family members with children ages birth-5.
2. Partnered with Fox Valley YMCA to provide before/after school care for preschool students.
3. Partnered with Family Focus to provide home visiting services for families with children ages birth-3 years old.

Primary Activities & Strategies
- Increased enrollment of children in early learning programs
- Serve priority populations
- Implement collaborative screenings
Mission
AOK Networks are community-based collaborations that promote healthy pregnancies and the positive growth and development of all children birth to five and their caregiver by assuring a high-quality, well-coordinated, easily-accessible system of services and supports.

Rock Island County’s AOK Early Childhood Network promotes and strengthens the health and well-being of families in our community.

Governance, Staffing, and Funding
Funded by the Illinois Department of Human Services, the Rock Island County AOK Network is staffed by one full-time coordinator. All network Partners have an equal voice in decision making.

Collaboration Accomplishments
The Rock Island County AOK Network has cross sector representation, including early learning, family support, health care, faith-based and human services. Network members have increased their awareness and understanding of community services and resources to better support families’ needs. Partners have identified food access issues related to our healthy childhood initiative and are working on creating a food-mapping resource for our community showing available food pantries’ locations and stock as well as farmer’s markets and community garden locations. The Rock Island County AOK Network has also implemented the Learning through Play initiative throughout our community in partnership with area agencies.

Primary Activities & Strategies
- Serve priority populations
- Learning Through Play Initiative
- Food Access Mapping
Mission

Bringing a community of people together to evaluate and design programs and services for young children and their families.

Governance, Staffing, and Funding

Regional Office of Education #33 has hired a full-time employee to facilitate the creation of this collaboration and build community relations.

Collaboration Accomplishments

1. The ROE#33 has various collaborations and MOU’s within the service delivery area. We are building on this

Primary Activities & Strategies

- Increase quality of early learning programs
- Serve priority populations
- Align birth to third grade (B-3 framework)
Sauk Valley STARS
Early Childhood Education Coalition
Established in 2004

Mission
Sauk Valley STARS Early Childhood Coalition is a collaboration of early childhood providers in Lee, Ogle, and Whiteside Counties who partner with families as they access and use community resources.

Vision
Sauk Valley STARS Early Childhood Coalition works to help all families know about and utilize needed services for Kindergarten readiness.

Governance, Staffing, and Funding
The coalition’s leadership structure is lead by co-chairs. Decision making is done by consensus. There is no dedicated funding for the collaboration. The coalition has developed a comprehensive MOU designed to promote coordination and collaboration in the provision of services to all children and their families, and to strengthen and build relationships among the agencies and programs serving young children and their families.

The Coalition’s membership meets bi-monthly to plan and coordinate activities, share information and resources, plan joint professional development activities, prevent a duplication of services, and provide continuity of care for children and families.

Collaboration Accomplishments
1. Developing a system to share resources between partners, including ideas and materials for family engagement
2. Coordination and development of shared professional development opportunities
3. Increasing messaging about the importance of developmental screenings and early childhood programs through public education and community outreach activities; and improved coordination and collaboration between agencies and programs for recruitment and enrollment of eligible children and families

Primary Activities & Strategies
- Increase enrollment of children in early learning programs, particularly from priority populations
- Increase community awareness of and enrollment in early childhood and family support programs
- Increase family engagement in early learning programs

Areas Served
Lee, Ogle, and Whiteside Counties

Target Population
Expectant parents and families with children birth to age 5 in Lee, Ogle, and Whiteside Counties

Governance, Staffing, and Funding
Oversight and guidance of the Coalition’s activities is the responsibility of a Governance Council whose members include no less than 5 and no more than 14 representatives from agencies whose mission is aligned with the Coalition and who willingly dedicate in-kind resources to assist in meeting Coalition goals. Lead Agencies are also identified as those who oversee multiple programs and/or those with the capacity serve as a fiscal agent for any of the Coalition’s special projects. Lead agencies act as guides for the Coalition through its member’s knowledge of the community and are actively engaged in Coalition committees and projects. Program coordination and implementation is carried out by various committees, task forces and advisory panels. We appreciate the time and effort all the Coalition members invest into building stronger, brighter futures for the children and families in Southern Illinois.

Collaboration Accomplishments
1. Over 8500 children ages birth through five years of age documented as screened for developmental delays
2. Kindergarten transition initiatives now in 5 school districts
3. New partnership with IEA/Partnership for Resiliency adding early childhood component to Resilient SI initiative

Mission
The Southern Illinois Coalition for Children and Families is dedicated to providing leadership and support that builds strong communities, strengthens families, and promotes children’s success in school and life. The Coalition’s primary goal is to develop a strong & effective infrastructure that promotes positive outcomes for children and families in southern Illinois. This is accomplished by: Communicating, Coordinating, and Connecting
Working together in a coordinated manner and with a unified voice and mission, community coalitions play a critical role in improving the lives of young children and their families. Coalitions help fill gaps and provide the resources and support needed to keep families strong, children healthy and learning as they travel down the path to success.

Southside Early Learning Network
Established in 2013

Mission
The Southside Early Learning Network (SELN) is a collaborative that supports and improves outcomes for expectant moms and children birth to five in the Englewood, West Englewood, and Greater Grand Crossing communities.

Governance, Staffing, and Funding
The Southside Early Learning Network (SELN) is 100% MIECHV funded. There is one full time SELN Coordinator and a part time SELN Coordinator assistant. There is a Supervisor where a percentage of the salary is supported with MIECHV dollars.

Collaboration Accomplishments
1. Increase in participation for Collaboration Meetings.
2. Increased community awareness of Home Visiting Programs.
3. Developed relationships across the state with Home Visiting programs and have increased referrals sent to partners.

Primary Activities & Strategies
- Increase enrollment of children in early learning programs
- Serve priority populations
- Coordinated intake

Areas Served
Englewood, West Englewood, Greater Grand Crossing Communities.

Target Population
Low income

Mission
The mission of SPARK Aurora Early Childhood Collaboration is to empower our diverse families and children to attain full success in learning and life by ensuring all Aurora’s young children have equal access to exemplary Early Childhood Care and Education.

Purpose
SPARK is a collaborative approach in which Aurora Early Childhood Stakeholders will work jointly to improve and strengthen the early childhood system in Aurora by ensuring that:

1. Parents and the community are educated and informed about the importance and value of an early childhood education for all of our young children and the impact it has on children's success in school and life
2. The on-going improvement of the early childhood programs in the Aurora community are sustained through continued professional development of its teachers
3. Early childhood coordinated system are created in which the school districts, community-based early childhood programs, and community agencies serving families and children

Governance, Staffing, and Funding
Governed by an Executive Committee
Staff – FT Director, 2 FT Family Engagement Specialist, 1PT Consultant
Philanthropic, School District, City of Aurora Funding
Fox Valley United Way Corporate Sponsorship

Collaboration Accomplishments
1. Increase capacity through Preschool Expansion
2. Gateway to Early Childhood - single point of entry for families to connect to EC services

Primary Activities & Strategies
• Increase enrollment of children in early learning programs
• Serve priority populations
• Coordinated intake
Mission
Our primary goal is to reach more families of children aged 0 - 8 within the School District 303 boundaries, using existing services through a “home-grown” partnership. The Partnership plans to build on the existing positive relationships among programs, organizations, and community partners to promote coordination of services that mutually support each other to maximize services. Next steps for the Partnership include a listening and learning campaign, meeting with diverse stakeholders in one-on-one meetings.

Governance, Staffing, and Funding
To be determined. Currently, Library and School District staff members on leadership team and completing work through those established positions at this time. Parent on leadership team volunteers time. No funding for collaboration specific activities.

Collaboration Accomplishments
1. Established the Partnership leadership team
2. Embarked on listening and learning campaign with diverse stakeholders to learn about perspectives on early learning, the community, and share about the Partnership.
3. Held introductory meetings regarding the Partnership with a few key stakeholders in the community including the Mayor of St. Charles, Superintendent of St. Charles CUSD 303, and Director of the St. Charles Library

Governance, Staffing, and Funding
Advisory Board--All Our Kids Network Stephenson County Board of Directors--Stephenson County Board of Health
Funding streams include: IDHS, MIECHV
Staffing is part-time team leader and full time outreach worker

Collaboration Accomplishments
Assist in linking families to Family Connects Illinois Program, that offers nurse home visits to every newborn resident/family; Coordinated Intake program serving Stephenson County--completing referrals HFI, Family Ties, and Parent Enrichment Program

Primary Activities & Strategies
- Serve priority populations
- Coordinated intake
- Nurse visit to every newborn’s home
Mission
AOK Networks are community-based collaborations that promote healthy pregnancies and the positive growth and development of all children birth to five and their parents / caregivers by assuring a high-quality, well-coordinated, easily-accessible system of services and supports.

Vision
The Tazewell County All Our Kids: Early Childhood Network works collaboratively with a comprehensive network of community resources to promote the overall well-being of children birth to five and their families.

Governance, Staffing, and Funding
The Network's administrative home is within the Tazewell County Health Department. A full-time coordinator staffs the AOK grant. The large group meets bi-monthly as a network with activities conducted at work group level. Decisions are made by consensus. Funding for the initiative is provided through the Illinois Department of Human Services.

Collaboration Accomplishments
1. The Tazewell County AOK Network is proud to be the leading implementation of the Integrated Referral and Intake System (IRIS) AOK pilot in Tazewell, Peoria & Woodford (TPW) Counties. IRIS is a web-based community referral system that helps organizations connect the families they serve to the right resources in their community. The TPW IRIS community engaged partners to understand the current referral practices, how’s and why’s of IRIS, configured IRIS to meet the specific needs of the community, and established community standards for using the integrated referral system. IRIS helps families thrive through connected communication. The TPW 1st cohort launched January 2020 consisting of Coordinated Intake, home visiting, early intervention, and supportive early childhood services.

2. The Tazewell County AOK Network conducted a multi-year (2017 - 2018) community assessment. A root cause analysis was conducted and several root causes emerged: (1) not all pregnant women receiving WIC/FCM in Tazewell County stop using smoking during pregnancy, (2) more members of the household smoke, (3) some pregnant women do not understand the negative impact of smoking on their child, (4) not all smoking intervention services and supports in Tazewell County are accessible to pregnant women., and (5) not all providers talk to pregnant women about the dangers of smoking or encourage them to seek help. To address these root causes, Tazewell AOK began a partnership with the Home Visitor Network (HVN). HVN is a group of home visitors and/or parent educators working directly with pregnant women and/or children birth – five years in Peoria, Tazewell, and Woodford Counties. A workshop series was developed. The four workshops focus on the following topics: tobacco / vaping trends, effects of smoking on mom & baby, how to talk to pregnant women / parents about sensitive subjects, and local smoking cessation resources / referrals to cessation programs.

3. The Tazewell County AOK Network and Child & Family Connections #14 is co-sponsoring a monthly support group for parents of young children with special needs. Parents are invited to attend who have a child with a disability, diagnosis or suspected diagnosis. The objective is to co-sponsor monthly support groups to (1) develop leadership pathways that support families of young children with special needs (2) build relationships to consistently support families and (3) continually reflect on progress and adopt efforts as needed. The group consistently has 6-10 parents in attendance monthly. Group is driven by parent need and feasibility. AOK Coordinator, CFC Parent Liaison. and CFC Social Emotional Consultant participate as staff support. Group is open to parents with young children with special needs.

Primary Activities & Strategies
- Increase enrollment of children in early learning programs
- Streamline intake, referral, and service acceptance among partners
Wabash/Edwards Counties: All Our Kids Early Childhood Network
Established in 1999

Mission
AOK Networks are community-based collaborations that promote healthy pregnancies and the positive growth and development of all children birth to five and their parents/caregivers by assuring a high-quality, well-coordinated, easily-accessible system of services and supports.

Governance, Staffing, and Funding
The AOK Network is staffed by one full time coordinator and volunteer co-chairs for Network work groups. All Network partners have an equal voice in decision-making. The All Our Kids Early Childhood Networks initiative is funded through the Illinois Department of Human Services’ Office of Early Childhood and the Wabash County Health Department.

Collaboration Accomplishments
• Through Network partner collaboration we have increased access to dental health services for children in our communities, especially those with IL Medicaid.
• Network members have increased their knowledge of early childhood issues and community resources to better support families needs through quarterly Lunch and Learn workshops.
• The Community has an increased awareness of local event information and understanding of how to access community services and resources through the development and implementation of the Wabash/Edward AOK Network Resource App. that may be downloaded through Apple Store and/or Google Play.

Primary Activities & Strategies
• Increase enrollment of children in early learning programs
• Serve priority populations
• Oral Health

Mission
The mission of WeGo Together for Kids is to address the health, safety, and well-being of students and families through a collaborative, coordinated and comprehensive approach for West Chicago schools and community. WeGo Together focuses on six result areas to work towards the mission statement, which includes, stable families, academic achievement, youth and family health, community engagement, emergency preparedness, and early childhood.

The result statement that the early childhood workgroup is focused on is West Chicago community partnerships help families and children, 0-8 years old, build strong relationships through access to play and learning opportunities.

Governance, Staffing, and Funding
WeGo Together for Kids is a community collaborative in West Chicago that has a focus on six result areas with the recent addition of early childhood in September 2019. WeGo Together has a steering committee that provides oversight and guidance to WeGo Together while the community partners of the early childhood group do the direct planning and decision making of the group. There is no staff whose sole responsibility is the early childhood workgroup; rather, the Birth to Five Community School Coordinator dedicates time to the work and facilitate the meetings. With that, there is no direct funding for the early childhood workgroup, but there is funding that may be utilized through WeGo Together’s braided funding stream.

Collaboration Accomplishments
Currently, the early childhood work group is focused on drafting a community needs assessment to better understand West Chicago’s perceptions of early childhood and opportunities for families with children 0-8 years old.

Primary Activities & Strategies
• Align birth to third grade (B-3 framework)
Mission
The Wheaton/Warrenville Early Childhood Collaborative (WWECC) is a group of community agencies, early childhood providers and supporters of early childhood in DuPage County working together to improve kindergarten and school readiness for children in Community Unit School District 200 with a focus on increasing access to services for those in under-resourced areas of the community.

Mission: The mission of the Wheaton/Warrenville Early Childhood Collaborative is to effectively coordinate services focused on providing opportunities for learning success and improved Kindergarten readiness for all Community Unit School District 200 children birth to five, especially those most vulnerable.

Goals:
1. Improve communication among early childhood service providers.
2. Increase parent education about childhood development needs.
3. Increase professional development for early childhood service providers.
4. Increase children’s Kindergarten/school readiness.

Governance, Staffing, and Funding
Metropolitan Family Services DuPage acts as the lead agent and the administrative “home” for the Collaborative. The Director for the WWECC oversees the overall operational day-to-day responsibilities of the Wheaton/Warrenville Early Childhood Collaborative. The WWECC Executive Committee adopts a consensus decision making process that is guided by the following principles: Inclusive and Participatory, Agreement Seeking, Process Oriented, Collaborative, Relationship Building, and Whole Group Thinking. The Executive Committee will have the ultimate decision making power over the Collaboration Program Director and collaboration.

Current funding for the WWECC was made possible by a grant from the DuPage Foundation (DF), through the Bright and Early DuPage Initiative.

Collaboration Accomplishments
The WWECC provides Play to Learn events that focus on the importance of play in the health of the developing brain. We also have a large scale provider training that focuses on increasing quality and providing professional development among early childhood service providers called the Early Childhood Symposium. We also increased enrollment of high need priority populations through our PEG and PI grants. Lastly, the WWECC increased the local messaging of the importance of universal developmental screenings through the developmental screening marketing campaign. This campaign promoted the importance of screening and asked families in the CUSD 200 area with children birth to give to complete the ASQ-3 online at http://asq.cusd200.org or call 630–682–2109 to set up a time to take the screening in person. The flyers and posters were printed and placed in 10 locations across the Wheaton and Warrenville areas.

Primary Activities & Strategies
- Increase enrollment of children in early learning programs
- Implement collaborative screenings
- Increase children’s attendance in early learning programs

Mission
AOK Networks are community-based collaborations that promote healthy pregnancies and the positive growth and development of all children birth to five and their parents / caregivers by assuring a high-quality, well-coordinated, easily-accessible system of services and supports.

Vision
The Will County All Our Kids Early Childhood Network is a community based collaboration which works to create and support long lasting partnerships which empower families with knowledge and community resources promoting healthy development and lifelong success.

Governance, Staffing, and Funding
The Will County AOK Networks’ lead agency is the Will County Health Department. A full-time coordinator hosts monthly Network meetings. Decisions are made by consensus. Funding for the initiative is provided through the Illinois Department of Human Services.

Collaboration Accomplishments
1. Piloting and launching IRIS in January 2020, a web-based information and referral system engaging early childhood system providers and family support services to provide a clear referral path for families to receive services, streamline communications among referring partners and track all referral activity to completion in one place, promoting data-informed decision making.
2. An annual Early Childhood Mental Health Conference is hosted in May for service providers, families and community stakeholders, averaging 100 participants annually which has led to community awareness, increased knowledge and practice changes that support families with young children.
3. Increasing awareness of the importance of developmental screenings through the development and dissemination of a Community Screenings Video created in August of 2019. This video will be promoted by AOK Network partners and primary care providers in Will County on their websites and viewed in waiting rooms.

Primary Activities & Strategies
- Implement collaborative screenings
- Increase children’s attendance in early learning programs
- Information and Referral Initiative
Mission
Coordinated Intake (CI) is a collaborative process that provides families with a single point of entry for home visiting programs within a community.

Trained Coordinated Intake workers serve as a hub for home visiting, assessing families’ needs, referring them to an appropriate home visiting program, and tracking what happens to the referrals.

Governance, Staffing, and Funding
In terms of governance, collaboration is key in creating a consensus between MIECHV, ISBE, AOK, CFC, Ounce of Prevention and Coordinated Intake.

Primary Activities & Strategies
- Increase enrollment of children in early learning programs
- Serve priority populations
- Coordinated intake
Mission
To become the single point of entry for the community and its partners in the St. Clair Region.

Governance, Staffing, and Funding
MIECHV, Gia Moore, Coordinator, Rachel Linzy, Coordinated Intake Worker, and funded by MIECHV.

Collaboration Accomplishments
1. Partnership with the local DCFS
2. Partnership with the Local TANF Office

Primary Activities & Strategies
- Serve priority populations
- Coordinated intake
- Increase children’s attendance in early learning programs
Kane County
Home Visit Collaborative (KCHVC)
Established in 2000

Purpose
To assure effective system of referral and linkage for families with young children in partnership with home visit and referring agencies in Kane County.

Governance, Staffing, and Funding
Governance KCHVC; Collaborative members meet at least three times a year to oversee operations, capacity, and communications. Decisions are made by consensus of agency partners of the KCHVC collaborative. The Kane County Health Department provides backbone support. Since 2012 MIECHV has funded the health department to provide the coordinated intake portion of the KCHVC collaborative.

Collaboration Accomplishments
1. Successfully engaged primary care providers to refer families to home visitation in a sustained manner
2. Engaged the collaborative members in reviewing, reporting, and improving caseload capacity count wide
3. Engage the community and community partners through outreach, training, social media, and website

Primary Activities & Strategies
- Increase enrollment of children in early learning programs
- Serve priority populations
- Coordinated intake

Areas Served
Kane County

Target Population
At risk families with children prenatal to three years old

Child Care Resource and Referral (CCR&R)
Other public services (housing, police, libraries)
Government
Families/Community Members

Mission
Coordinated Intake helps establish home visiting as a proven strategy for strengthening families by promoting family self-sufficiency. Home visiting has a positive effect on parenting by helping parents watch for developmental milestones and communicating effectively with healthcare providers. Home visiting facilitates activities that increase parent-child attachment by understanding and responding to their child’s needs, while reducing child maltreatment, increases kindergarten readiness, and helps families connect with community services.

Governance, Staffing, and Funding
The Coordinated Intake position is funded through MIECHV with Aunt Martha’s as an employer. The position requires a supervisor via Aunt Martha’s. Only one person is required for the position.

Collaboration Accomplishments
1. Built a working relationship with Department of Human Services for Home Visiting programs to have a constant presence within office to build a referral system.
2. Planning a celebration in February with referral partners, enrolled families, and all home visiting agencies for the community to understand the successes and basis of home visiting.

Primary Activities & Strategies
- Coordinated intake
- Implement collaborative screenings
Mission
The mission of Coordinated Intake is to conduct outreach to families who will most benefit from home visitation services, in an effort to promote family well-being and positive child outcomes. Additionally, Coordinated Intake’s role is to reduce duplication of resources so that more families can be served.

Governance, Staffing, and Funding
Coordinated Intake home visiting collaboration receives grant funding to support the work and the administrative home is within Children’s Home Association of Illinois. Staffing includes a CI Specialist and a supervisor. The Coordinated Intake Home visiting collaboration includes the accredited home visiting agencies in the area as well as the referring agencies. Decision making is done collaboratively at monthly meetings.

Collaboration Accomplishments
1. The CI-collaboration is proud of their continuing partnership and work done by the Home visiting agencies in the collaborative which has increased public awareness of home visiting in the community as well increasing referrals to these programs.
2. The collaborative is also proud of the current participation of collaborative partners being cohort #1 in the launch of database IRIS in the counties of Tazewell, Peoria, and Woodford and that referrals would follow same understanding/community standards as in the coordinated intake collaborative.

Primary Activities & Strategies
- Increase enrollment of children in early learning programs
- Serve priority populations
- Coordinated intake
Winnebago County Health Department

Mission
Achieving a Healthier Rockford and Winnebago County
The Winnebago County Health Department provides services designed to protect, promote and maintain the health of Winnebago County residents. Services address three primary goals: improving the length of useful life, reducing health disparities, and assuring access to preventive health services for every person in Winnebago County.

WCHD MISSION STATEMENT:
Prevent disease, promote health and enlist community efforts to improve the health of all Winnebago County residents

WCHD VISION STATEMENT:
Healthy people in a healthy community without health disparities

WCHD VALUE STATEMENT:
Responsiveness, resource for the community, expertise, collaboration.

Governance, Staffing, and Funding
Winnebago County Health Department the state certified, nationally accredited local health department is governed by the Winnebago County Board of Health. WCHD employs an average of 90 employees representing public health practice including physicians, nurses, environmental health practitioners, nutritionists, epidemiologists, communication specialists, disease intervention specialists, and case managers. WCHD is funded through local public health tax referendum, fees, third party insurance, and federal/state/local grants.

Collaboration Accomplishments
1. Established partnerships with DHS, local FQHC, United Way and DCFS.
2. Instituted quarterly home visitor meetings and trainings to encourage connections, promote knowledge sharing and encourage professional development.
3. Attended many community collaborative meetings to encourage systems development and create connections.
4. The current partners include: Rockford Public School District #205, Easter Seals, YWCA La Voz Latina, City of Rockford Early Head Start, Children’s Home + Aid, and Harlem School District #122.

Primary Activities & Strategies
- Increase enrollment of children in early learning programs
- Serve priority populations
- Coordinated intake
Mission
The purpose of iGrow is to provide an opportunity for collaboration and partnership at the federal, state, and community levels to respond to the diverse needs of Vermilion County children and families and to improve their health and developmental outcomes through evidence-based home visiting programs.

Governance, Staffing, and Funding
Two coordinated intake staff
Five supervisors
3.5 doula’s
13 Parent Educators (Home Visitors)

Collaboration Accomplishments
1. Successful Coordinated Intake process since 2012, working dual coordinated team, and program expansions.

Primary Activities & Strategies
- Increase enrollment of children in early learning programs
- Serve priority populations
- Coordinated intake
Mission
To ensure that coordinated and high quality services are accessible and meet the needs of Willowbrook Corner families, so all children from birth to five are safe, healthy, and ready to learn when they start school.

Vision
Ensure that each and every child enters kindergarten safe, healthy, ready to succeed, and eager to learn.

Governance, Staffing, and Funding
The YWCA Metropolitan Chicago serves as the lead agency and administrative home of the collaboration. The collaboration is staffed by a Community Outreach Specialist who is responsible for engaging key stakeholders with an emphasis on community leadership under the supervision of the YWCA’s Senior Manager of Strategic Engagement.

The Collaborative is been funded through generosity of the DuPage Foundation's Bright & Early Initiative.

Collaboration Accomplishments
1. Based on the work of the Community Outreach Specialist CCSD 180 has decided to support financially and expand the role to full time and that includes much needed children’s mental health services.
2. Collaboration worked to expand the Community Action Team, which promotes wellness among families and an improved environment for all children living in the Willowbrook corner. This work has fostered community leadership.
3. Through the work of the collaboration and community data the collaboration was able to secure Prevention Initiative for Birth to Three home visiting from ISBE.

Primary Activities & Strategies
- Increase quality of early learning programs
- Increase enrollment of children in early learning programs
- Serve priority populations
