

SRS NewsFlash

The State Employees' Retirement System (SERS) is authorized by statute to formulate policy for the property administration of the System, see 40 ILCS 5/14-135.03. SERS provides in-person workshops that are available to members. Given the nature of these workshops, the limitations of conducting such workshops, and the significant demand from the membership to attend such workshops, SERS has implemented a policy that a member may not attend multiple in-person workshops within a 12-month period. This policy enables the System to offer this valuable service to the membership in an equitable manner. A reservation made in violation of this policy will be cancelled.
