

SERS is pleased to announce the upcoming release of a new on-line feature which allows agencies the ability to **electronically** report and monitor the “75-Day Return to Work” processing on our Employer Website. Retirees will also be able to view and monitor their days worked on the Member Website by logging into their own account. This new feature replaces the paper reporting process requiring agencies to complete and submit a 3904 form for each pay period for each 75-Day Worker.

Prior to the release, SERS will provide training sessions/webinars for Retirement Coordinators and Payroll Coordinators. Invitations will be forthcoming during the next few weeks.

We look forward to the release of this new feature and are quite sure agencies will be very excited and receptive to what it has to offer.
