Attention All Retirement Coordinators!

We are pleased to announce that in the next few weeks we will activate the member website. Retirement Coordinators, Payroll Officers and other authorized individuals will have access to a defined amount of their employee’s information, with prepopulated forms and other online publications.

In order to properly control this online presence, we need to ensure that only authorized individuals have access to their employee’s account. Attached with this NewsFlash is documentation which must be completed and returned it to our office as soon as possible. This information is vital for our online security processes. Therefore, failure to complete the enclosed form may prevent access to our member website.

We will be holding website training sessions in the near-future on the use of the new member website. More information will also be sent out as we get closer to the rollout date.

We’re excited about the future and look forward to bringing you the tools needed to assist our office. If you have questions about this new feature, contact Amy (217-785-6979) or Dave (217-785-6975).
