Phone Number: _____

C. Perimeter Drainage Tubing Requirements:

Pursuant to 35 Ill. Adm. Code 900.511, facilities required to install a perimeter drainage tubing are required to sample liquid from the monitoring port prior to the livestock waste handling facility being placed into service and at least quarterly thereafter, if any liquid is available. **The samples must be analyzed for the following items: nitrate-nitrogen, phosphate-phosphorus, chloride, sulfate and ammonia-nitrogen.**

Results of the analysis must be submitted to the Department within 30 days after sample collection.

Date of Initial Sample Collection(s): ___/___/___
