**CERTIFIED LIVESTOCK  
MANAGERS TRAINING**

**2022 Season**  
Workshop Information

## What is Required?

The Illinois General Assembly passed the Livestock Management Facilities Act (LMFA) on May 21, 1996. Since that law was enacted, livestock facilities in Illinois that house over 300 animal units (for example, 750 finishing hogs, 214 dairy cows, or 300 beef cattle) are required to have at least one person certified in the environmental protection aspects of manure management. The "Certified Livestock Manager" is expected to be a full-time employee who is familiar with the manure management system of the farm, accessible by phone, and located within one-hour driving distance to the farm. Young family members (<18 years old) are welcome to take the training, but they cannot be the only certified manager at their facilities.

### To become a certified livestock manager:

- 300-999 animal units: attend a workshop or complete online training
- ≥1,000 animal units: attend a workshop and pass IDoA's paper-based test offered immediately following each workshop OR complete online training and pass online test (in lieu of the IDoA's paper-based test).

Upon successful completion of these requirements, producers are **certified for three years**.

## Workshop Information

Workshop sign-in starts at 8:30. The training will begin promptly at 9:00 am. Please allow 3.5 hours for the workshop and additional time to complete the IDOA test if needed.

*Snacks will be provided.* UI Extension's training fee is \$40 and IDoA's certification fee is \$30.

## CLM Training Manual

The training manual used for the training is the Livestock and Poultry Environmental Stewardship Curriculum, which is available at [go.illinois.edu/manual](http://go.illinois.edu/manual)

## Workshop cancellation

In case we need to cancel a workshop due to COVID restrictions or other unforeseen circumstances, we will inform you via email and refund your registration fee. Please check your email or our website for updates.

## CLM Test

CLM test has been updated. In the 2022 season, there will be 50 questions on both paper-based and online tests. The pass rate is the same, 70% (35 questions). A Spanish version of the test will be available soon.

*University of Illinois Extension provides equal opportunities in programs and employment. If you need a reasonable accommodation to participate CLMT program, please call Nesli Akdeniz at 217 300 2644.*

## Registration is required!

To register for a workshop, visit [go.illinois.edu/CLMT](http://go.illinois.edu/CLMT).

Registrations will open one month prior to the workshop date. Please help us by registering online.

If you have questions about CLMT program, you can contact Nesli Akdeniz at [neslihan@illinois.edu](mailto:neslihan@illinois.edu) or 217 300 2644.

## Can't attend a workshop?

Our updated online training is available at [go.illinois.edu/CLMT](http://go.illinois.edu/CLMT). This new version of online training follows the same format as in-person workshops. There are nine modules (10-20 min videos), and you can work through these modules at your own pace. If you have more than 1,000 animal units, you can take the test online at the end of the training. You are allowed multiple attempts on the test. Each time you take the test, 50 questions will be randomly selected from our question bank. The online training fee is \$40 (plus \$30 certification fee).
