

Illinois Forage and Grassland Council

www.illinoisforage.org

The mission of the Illinois Forage and Grassland Council is to provide the framework that unites industry, producers, and educational/government institutions for the production, marketing, and wise use of forages and grasslands. Membership is uniquely made up of producers, industry suppliers, educators, and governmental professionals all working together to make forages a viable industry for Illinois farmers.

IFGC was incorporated in 1977 and is a state affiliate of the American Forage and Grassland Council.

Illinois Forage Expo and Illinois Forage Institute are annual trademark forage events sponsored by IFGC and cooperating agencies. IFGC is proud to sponsor the IFGC/D. A. Miller Scholarship awarded to a student at the University of Illinois majoring in crop sciences with an interest in forages.

President

Jared Godfrey
