

**Schedule E – PERMIT MODIFICATION SCHEDULE**

Facility Name \_\_\_\_\_ Permit Number \_\_\_\_\_

Project Location \_\_\_\_\_  
City \_\_\_\_\_ Street Address \_\_\_\_\_ County \_\_\_\_\_

Section 255.50 requires that a Permit be amended prior to any facility modification. By definition “Modification” means changes in structures, processes, or activities at an agrichemical facility which alters the efficiency of containment structures or systems.

This includes any change that modifies the approved Permit design capability of secondary or operational area containment structures. An obvious example is a change or addition to storage tanks within the containment area resulting in increased tank base displacement volume or increased volume for the largest tank. Always check with the Department relative to the need for Permit Modification when considering changes in facility structures or activities covered by the rules in Part 255.

1. **APPLICATION FOR PERMIT MODIFICATION:** Complete the Application for Permit & Construction Approval form with appropriate approval signatures and submit along with this schedule. Configuration changes in containment structures may require amendment to previous drawings and/or the related schedule. In many cases the facility modification can be adequately covered on this schedule.

2. **REFERENCE TO EXISTING PERMIT:** Schedule \_\_\_\_\_ Drawing Number \_\_\_\_\_
