

Avoid the CYBER NIGHTMARE

Treat yourself to these security best practices...

HANDLE ATTACHMENTS WITH CAUTION

Turn off the option to automatically download attachments in your email.

Download applications from trusted sources or marketplaces.

Scan attachments before opening and keep anti-virus software up to date.

BEWARE OF OBSCURED URLs

Pay close attention to web addresses.

Malicious persons fool unsuspecting users by changing the spelling of URLs.

PROTECT PERSONAL INFO

Call companies & individuals who seek sensitive information to verify that the request is legitimate.

REPORT SECURITY BREACHES

Report suspicious data or security breaches to your supervisor or incident response team immediately.

DYLAN
1985 - 2016
Clicked on a suspicious email. He will be missed dearly by all his co-workers...

KELLY
Refused to pay attention to her privacy settings.
