The survey has launched!

As of the morning of Thursday, May 26th, **over 250 people** have completed the “**What We Know About IT**” skills survey. Thank you to those of you who have shared your perspective. We are looking forward to hearing from the rest of you! If you have any issues accessing your survey, please send a message to IT.Transformation@Illinois.gov.

Reminder: Data is due on Friday, June 3rd

Information regarding each agency’s IT applications, projects, and contracts is due on **Friday, June 3rd**. If you have not already done so, please accept meeting invitations from or send additional questions to the IT Project Managers listed in this table. As a reminder, accurate information is critical to transition planning. If you have any general questions regarding data gathering, please send a message to IT.TransformationDataGathering@Illinois.gov.

IT Transformation Team Presents at the CIO Council

The IT Transformation Team shared the successful outcomes of Sprint 1 of the program at the CIO Council held on Wednesday, May 11th. As previously communicated in this Digest, Sprint 2 will continue to be focused on additional **data gathering** and **transition planning**. More information will be posted soon to the [IT Transformation website!](#)

Cluster CIO Positions Posted

To ensure effective coordination and the delivery of world-class IT services, the DoIT operating plan organizes State agencies into **seven customer-focused and business-centric clusters**. Each of these will be led by a **Cluster Chief Information Officer (CCIO)**, who will report to the State CIO. Their core responsibility will be to accelerate modernization efforts for agencies within their particular cluster of agencies. To see these position descriptions and the application, visit Work for Illinois [here](#) and click ‘Apply Search’.

Featured FAQ of the Week:

When will a new organizational chart be available?

A new organizational structure will be rolled out after July 1, 2016. For the short term, most employees will maintain their existing reporting relationships and structures. There will be some organizational changes necessary to accommodate situations where maintaining current supervisor/direct report relationships may not be possible as employees are transitioning into DoIT.
