

This Week:

- **Success with the State Fair App!**
- **Connecting the Dots – A Note from the Legal Team**
- **DoIT Business Card Process**

Success with the State Fair App!

We are excited to announce the success of the Illinois State Fair app. Over 10,000 users downloaded the app, which helps attendees navigate the Fair's many attractions and view the schedule of events each day. DoIT announced the launch of the initial apps for the State of Illinois at the Fair Opening. You can access the apps [here](#). DoIT is excited to consider developing similar apps for future state-wide events of this scale.

Connecting the Dots – A Note from the Legal Team

As previously mentioned, the *Digest* will periodically feature guest contributors. Click [here](#) for a short note from DoIT's legal team regarding the use of emoticons and emojis in professional communications.

DoIT Business Card Process

Keep an eye out for an updated process for ordering DoIT business cards through IOCI. Guidance will be provided in the coming weeks!

In the meantime, please continue to visit the [IT Transformation Wiki](#). As always, if you have any questions, please send a message to IT.Transformation@Illinois.gov.

Featured FAQ of the Week:

What will happen with agency-specific projects while the transition occurs?

For the most part, projects in progress will not be interrupted by the transition. In the future, DoIT will work to identify an increasing number of solutions that will work across agencies, with more reusable, interoperable functionality while also continuing to focus on agency-specific projects and programs.
