

The DoIT Digest

*Volume 1 Number 21
October 7, 2016*

This Week:

- **Strategic Planning Summit a BIG Success!**
- **Illinois Digital Government Summit**
- **Cyber Security Awareness Month Kicks Off**

Inaugural Strategic Planning Summit a BIG Success!

Collaboration was abundant during DoIT's Strategic Planning Summit on Tuesday, October 4. Over 140 leaders from across the state converged for the day long session. Agency CIOs and Directors gathered to discuss key business objectives and Cluster CIOs met with their teams to discuss how DoIT can help to align priorities and leverage best practices to deliver improved services and solutions for citizens and business constituents alike.

Illinois Digital Government Summit

The [Illinois Digital Government Summit](#) was held this week on October 6-7 in Springfield. DoIT staff has been involved in the planning of this annual event and several from our staff provided presentations at the Summit. See the team in action on our DoIT [Twitter](#) page.

Cyber Security Awareness Month Kicks Off

[National Cyber Security Awareness Month](#) kicked off this week and DoIT's Security Team is busy with several new initiatives, designed to help agencies better understand the cyber threats we face online and simple steps to minimize those risks. Cyber Security toolkits are being distributed to agencies and a new Security page will be live on the DoIT website this month!

DoIT FYIs & Reminders

There's a new addition to the DoIT website under the Media/News section called "[DoIT In the News](#)". This page keeps a current list of DoIT's media coverage and news stories.

Getting the word out on best practices for cyber security is important for all of us at DoIT. Cyber security toolkits were distributed to agencies at the DoIT booth during the Illinois Digital Government Summit this week. If you weren't able to pick one up, please read [here](#) for more information.
