

This Week:

- **DoIT Recognized in State of the State**
- **Strong Response to Blockchain RFI**
- **IT Transformation Makes Impressive Progress in Sprint 4**

DoIT Recognized in State of the State

Governor Rauner delivered his third State of the State this week and DoIT was featured in his address. He gave a special mention to Kirk Lonbom for the progress he and his security team are making in the area of cybersecurity. A full video of the speech can be [found here](#).

Strong Response to Blockchain RFI

This week marked the deadline for the Illinois Blockchain Initiative's RFI and a strong response was received, with 20 submissions. The multi-agency Blockchain group is currently reviewing the information and will soon provide summaries and next steps. More information on the Blockchain initiative can be [found here](#).

IT Transformation Makes Impressive Progress in Sprint 4

The IT Transformation initiative continues to demonstrate progress. As we transition to a new operational sprint, we would like to highlight accomplishments from the just completed Sprint 4, including:

- 9 of 10 IT Transformation Key Performance Indicators (KPIs) trending or stable
- Enterprise communications plan completed
- FY17 service rates published
- DoIT employee recognition program established
- ITSM process implementation plan established and training completed for Incident management process

DoIT FYIs & Reminders

DoIT Ethics Officer Named

Mike Delcomyn, DoIT Deputy General Council was recently selected to serve in the role of Ethics Officer for our new agency. This position provides guidance, legal interpretations and serves as DoIT's liaison with various state oversight agencies.
