DoIT Gathers for Town Hall

DoIT staff gathered in person and via webcast this week for the quarterly Town Hall Meeting. Updates were provided on DoIT's strategic focus, progress with transformation, statewide competency centers and current cyber initiatives. The meeting closed with a Q&A session from staff. Data Discussions at April CIO Council

Data digitization and what it means to Illinois was the theme of this week's CIO Council meeting. As part of DoIT's commitment to better understand customers, the event was held at the Jacksonville Correctional Center with presentations and tour from their staff. Updates and presentations provided valuable information for CIOs to use in their respective agencies as we head to next weeks Statewide Data Practice launch. The event is scheduled for April 18th in the JRTC. [More info here.](#)

Progress Report for Q3

The latest [Key Performance Indicator \(KPI\) report](#) is in and the results are impressive, with upward trends in the areas of application rationalization, VoIP, cloud workload, mobile applications and data analytics. Other areas remain steady as DoIT continues to transition from strategy to execution. While we still have a lot of hard work in front of us, Digital transformation is taking shape, with much more to come – great job to everyone on the DoIT team!
