

This Week:

- **Illinois Department of Agriculture Modernizes Egg Inspections**
- **DoIT Responds to International Cyber-Attack**
- **CIO Council Meeting Features “Wall of Work”**

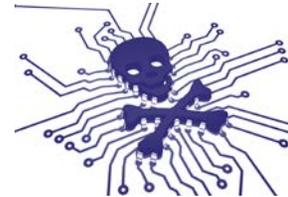

Illinois Department of Agriculture Modernizes Egg Inspections

The Illinois Department of Agriculture's Egg Inspection Program recently utilized technology to improve the inspection process for day to day regulatory functions. Prior to the fall of 2015, the program had been using an outdated system, largely built in a paper-based system. The program now uses a new mobile web-based system that allows for data to be updated and accessible in real time. More information can be found [here](#).

DoIT Responds to International Cyber-Attack

The news this week has been filled with reports on the Wannacry ransomware attack and DoIT's Information Security Team has been active with monitoring and investigating on behalf of the State of Illinois. In addition to these efforts, DoIT representatives served on a panel discussion for WTTW's [Chicago Tonight](#) to discuss the cyber-attack and also hosted a webinar for Illinois municipalities to discuss the incident and provide guidance and best practices for protecting data. Security for our state continues to be a top priority at DoIT.

CIO Council Meeting Features “Wall of Work”

The May CIO Council Meeting brought together more than fifty people representing thirty agencies who collaborated to produce a comprehensive Wall of Work. The Wall of Work captured the IT projects planned and in flight to align with the Governor's initiatives and current DoIT goals for the next two years. This exercise will serve as the catalyst for planning and discussion during the Annual Strategic Summit in August.

DoIT FYIs & Reminders

It's Back!

Potatoes, Tomatoes and Yoga...oh my! The Old Capitol Farmers Market is back. Kick off another summer season of locally produced fresh fruits, vegetables, and baked goods along with yoga demonstrations and family workouts on Saturday. Hours are 8:00 am to 12:30 pm, Wednesday and Saturday on Adams Street between Fifth Street and the Third Street rail line. For more information visit [Downtown Springfield Inc. site](#). Be sure to follow weekly posts on the [Capitol Farmers Market Facebook page](#).
