

The DoIT Digest

Volume 3 Number 44

November 2, 2018

This Week:

- Calling All Taxpayers!
- Enterprise Information Security Policies Published
- Cyber Responsibility is Year-Round

Calling All Taxpayers!

It is never too early to become familiar with the functionality of the Department of Revenue's [redesigned website](#). Created by a DoIT- Revenue team utilizing the standard SharePoint model, site navigation is now just as easy from a mobile device as it is from a desktop. From businesses to the public, users will experience enhanced navigation and accessibility all under the protection of the latest in encrypted security. You will experience real-time traffic-driven links to questions, forms, and tax types currently garnering wide interest. If you are accustomed to visiting the former website, you will be directed to the new site, but might want to bookmark and update your favorites.

Enterprise Information Security Policies Published

Several enterprise Information Security Policies have been developed, approved, and published to the DoIT Website under [Policies](#). These policies define baseline controls for DoIT and all State of Illinois agencies, boards, and commissions that have been identified as client agencies of DoIT through executive order, legislation, or inter-governmental agreement. A glossary of terms has been provided to ensure that nomenclatures are consistently used in all Enterprise Policies. Keep watching as we finalize the rest of the enterprise policies based on the NIST framework over the next few weeks. Thank you to everyone who has participated in the policy advisory group to assist with the development of these policies.

Cyber Responsibility is Year-Round

Cybersecurity Awareness Month may have ended, but our responsibility remains. Continue to do everything you can to protect both your personal data and data entrusted to you by the State of Illinois. MS-ISAC National Cybersecurity calendars for 2019 are available in the lobby of 120 W. Jefferson, Springfield while supplies last! They are the colorful product of an annual K-12 poster contest. Get them while they're hot! As always, we have resources available to you at any time via the [DoIT website](#).

DoIT FYIs and Reminders

Important Correction: Department of Insurance employees joined the DoIT family on October 1st, not Department of Labor as stated in the October 26th Digest. Please accept our apologies.

DoIT Employees need to complete Mandatory Sexual Harassment Prevention Training by end of day on Friday, November 21, 2018. [Link to the Announcements](#) on the Employee Portal for instructions.
