

The DoIT Digest

Volume 5 Number 30
November 6, 2020

This Week:

- **Diversity, Equity and Inclusion (DEI) at DoIT**
- **Get Covered Illinois (GCI) Site is Revamped**
- **ELP User Enhancements Now Available**

Diversity, Equity and Inclusion (DEI) at DoIT

Check out DoIT's recently created Diversity, Equity and Inclusion page on the Employee Portal. DoIT established a committee to improve upon the ways in which we can incorporate a culture of diversity and inclusion with our employees, customers, and partners. Workplace diversity, inclusion and racial equality are cornerstone components to building a healthy environment in which all employees can thrive and deliver the best possible customer service to the residents and agency customers we support. DoIT wants to become an even stronger, more accepting and positive work environment that reflects the diversity of our state. Link to [DoIT's Diversity, Equity and Inclusion Plan](#) posted on the Employee Portal.

Get Covered Illinois (GCI) Site is Revamped

The DoIT Web Services Team recently redesigned and enhanced the public website for [Get Covered Illinois \(GCI\)](#), a division of the Department of Insurance. The DoIT team worked under an aggressive project schedule to deliver a site that appeals to Illinoisans from across our state. The new site is modern, mobile-friendly and incorporates data analytics to better serve the public. The website was launched prior to the Affordable Care Act (ACA) Marketplace Open Enrollment Period, which began Sunday, November 1 and runs through December 15. GCI is the official "exchange" for Illinois consumers to choose from among 179 insurance plans offered by eight carriers and obtain enrollment assistance. [Link](#) here to the announcement on GCI Open Enrollment.

ELP User Enhancements Now Available

The Enterprise License and Permits (ELP) Platform marks phase one of the expansion with features available for use in early November. User Acceptance Testing was an unusual challenge for this rollout, accomplished remotely beneath the Restore Illinois plan. Representatives from multiple agencies participated in testing activities via Webex. Users will soon be able to renew licenses online with the benefit of enhanced support. Some of the enhanced functions include license status management, username recovery, workflow checklists, and ability to view constituent accounts. A big shout out to the collaborative effort between DoIT, the Racing Board, State Police, EPA, and Departments of Labor, Natural Resources and Agriculture. Link to the [ELP Communications site](#) and the [full story on the platform expansion](#) to learn more about the new features.

DoIT FYIs and Reminders

DoIT thanks our many veterans who have served in the U.S. Armed Services. State offices will be closed in observance of Veterans Day on Wednesday, November 11. Please take a moment to thank DoIT colleagues who have served and be sure to join the #DoITogether Tech Talk on Tuesday, November 10 to share in a tribute to DoIT veterans (more details will be sent soon).
