Volume 5 Number 32

December 4, 2020

This Week:

- DoIT's Employee Portal has a New Look
- Human Capital Management (HCM) Approaches Year End Milestones
- Building STEAM in Illinois

DoIT's Employee Portal has a New Look

Have you had an opportunity to check out the updated [Employee Portal](#)? Link to frequently accessed websites and portals, including CMS and the

State of Illinois, and all the News from DoIT. From [DoIT Human Resources](#), quick links to ePass, eTime and Webex, up to the minute [Coronavirus information from Public Health](#) and our agency's [Diversity, Equity and Inclusion plan](#), the Portal should be your first stop when looking for any type of guidance or resource. Don't forget to [post a kudo](#) for a colleague or mention an event or mark a milestone. Shop [DoIT Apparel](#) and rep your agency around town while working from home. Stay tuned for an upcoming TechTalk built around Portal navigation. For questions in the meantime, please contact DoIT.Communications@illinois.gov.

Human Capital Management (HCM) Approaches Year End Milestones

The ERP HCM team will ring in 2021 with the Recruitment module "Go Live" on January 1. The new recruitment solution will replace NeoGov – the State's current online job postings website. Using the new recruitment website candidates can apply online, providing State staff with the ability to manage applications in a more timely and efficient manner. Recruitment training is scheduled to begin mid-December and will continue through January. Watch for more information on training in preparation for go-live in upcoming editions and link [here](#) to the project's recent newsletter.

Building STEAM in Illinois

Computer Science Education (CSE) Week Kicks Off on Monday, December 7 and is an annual call to inspire K-12 students to explore an education in computer science and celebrate the contributions to the field made by students, teachers and collaborators. This week recognizes Grace Murray Hopper, who coined the term computer "bug". Learn more about the week [here](#). To coincide with CSE Week, the One Hour of Code activity for our nation's schools also kicks off. Did you know that fewer than 50% of our schools teach computer science? If you know an educator who would be interested in leading an Hour of Code, direct them to this [link](#).

DoIT FYIs and Reminders

We hope you can spend some virtual time with DoIT colleagues as we "Mingle & Jingle, DoIT Style". We have planned some engaging activities and look forward to a fun break in the workday. [Link](#) to the Portal and complete the survey to share how you celebrate the upcoming holidays.
