

This Week:

- **IWCC Goes Paperless**
- **Benefit Choice Open through June 1st**
- **HCM to Launch Testing Phase**

IWCC Goes Paperless

The Illinois Workers' Compensation Commission has taken a digital leap forward by transitioning their filings and case management to paperless processes. The collaborative effort was introduced in phased releases through a cloud-based application and was implemented with user training and feedback. Electronic filing and case management is quickly increasing efficiencies at IWCC through expedited processing times and reductions in storage needs and mailing costs. The new functionality has been especially beneficial during the need for contactless processing throughout the pandemic. More information on the project can be found in [IWCC's recent press release](#).

Benefit Choice Open Enrollment through June 1st

Benefit Choice annual enrollment is now open for the coverage period that begins on July 1, 2021. This period provides an opportunity for employees to make changes and updates to their benefits. The recently distributed [Benefit Choice booklet](#) provides full details about benefits available or you can also visit MyBenefits.Illinois.gov to register, review benefit options, see what has changed for FY22 and compare health plans. For detailed instructions on how to register, users can [watch this video](#) or review the [registration guide](#).

HCM to Launch Testing Phase

The ERP Human Capital Management (HCM) project team completed the design phase and is now shifting to testing activities. This month, testing will begin to ensure that system design and build meets business requirements, followed by testing of workforce software in June. The HCM team is working with agency leaders to identify appropriate testers for each phase and participation in testing will allow agencies to get comfortable with system functionality and build subject matter experts in advance of training and go-live later this year. More information is available on the [ERP Program site](#).

DoIT FYIs and Reminders

With origins dating back to the early 1900's, Mother's Day was first recognized in honor of "Mama Jarvis" from West Virginia who was known to have not only raised her own children, but also cared for injured Civil War soldiers on both sides of the battleground. Today, we continue to celebrate and honor mothers for their selfless compassion and care. Wishing all a Happy Mother's Day!

HAPPY MOTHER'S DAY
