

Phishing Scam Affecting Verizon Wireless Accounts

CMS has received notice that some Verizon Wireless account contacts are receiving an automated call that states they will receive a credit or discount if they log onto www.vzw665.com. It has been confirmed that this is a phishing scam. Please make sure you do not click on this link or any of the hyperlinks associated with it. **These calls are not from Verizon Wireless.** The Verizon Corporate Security Team has been made aware of these calls. I have included a screen shot of this site below. It looks VERY similar to Verizon's legitimate website.

If you have any questions, please contact the CMS Business Services CRF Help Desk at cms.crfhelpdesk@illinois.gov or by phone at 217-524-9369.
