# Cyber Resources

---

## Cyber-safety Resources

### National Cybersecurity Alliance (NCSA)

<https://staysafeonline.org/>

Head to NCSA's StaySafeOnline pages to learn about how to keep yourself, your devices, and your information more secure online!

### StopThinkConnect

<https://www.stopthinkconnect.org/>

The National Cybersecurity Alliance, the U.S. Department of Homeland Security, and the Anti-Phishing Working Group came together to provide resources for the public on better and safer online practices.

### Lock Down Your Login

<https://www.lockdownyourlogin.org/>

Head to this StopThinkConnect resource site that focuses completely on providing tips for securing your online accounts and credentials.

## Cybersecurity Career Resources

### SANS CyberStart

<https://www.sans.org/CyberStartUS>

This program is a fun approach to learning cybersecurity skills and principles and is generally run by state or local governments or schools. Students who play CyberStart will get a basic understanding of some aspects of cybersecurity, which may develop interest in entering this career path.

### CyberCorps: Scholarship for Service

<https://www.sfs.opm.gov/>

Scholarship for Service (SFS) is a scholarship program that provides up to 3 years of support for cybersecurity undergraduate and graduate education. This is a great way to assist in funding education toward a rewarding, cutting edge career in cybersecurity!

**MS-ISAC**<sup>®</sup>

Multi-State Information  
Sharing & Analysis Center<sup>®</sup>

This calendar's artwork was developed by grade K-12 students who participated in the 2019/2020 MS-ISAC National Cybersecurity Awareness Poster Contest.

The next Poster Contest will be kicking off September 24, 2021! These winners will be featured in the 2023 MS-ISAC calendar!

Please visit <https://www.cisecurity.org/ms-isac/ms-isac-toolkit/> for more information on the 2021-2022 MS-ISAC National Cybersecurity Awareness Poster Contest guidelines. For questions, please email us at [contest@cisecurity.org](mailto:contest@cisecurity.org).

**Disclaimer:** The 2021 MS-ISAC Cybersecurity Calendar has been developed and distributed for educational and non-commercial purposes only. Copies and reproductions of this content, in whole or in part, may only be distributed, reproduced or transmitted for educational and non-commercial purposes. Copyright language and distribution restrictions must be included on all reproductions whether electronic or hard copy.

**TAX SEASON IS HERE:** Avoid IRS Impersonators. The IRS will not call you with threats of jail or lawsuits, they will not send you an unsolicited email suggesting you have a refund or need to update your account, nor will they request any sensitive information online. These are all scams, and they are persistent. Don't fall for them. Check out the IRS website, [www.IRS.gov](http://www.IRS.gov), for more cyber scams and how to stay safe.

**MYTH:** "I don't have anything a hacker would want." Yes, you do. Hackers want to control your device to send spam or distribute malware. Hackers want your information to use for identity theft and fraud. Most attacks are automated. Hackers simply seek out and compromise vulnerable systems.

# June 2021

**REMINDER:** When you post that you're on vacation or when you "check in" to your favorite meeting place, that tells others not only where you are, but also that you're not home. Your friends aren't the only ones who'd like to know where you are. Thieves and stalkers do, too. Resist the urge to tell all!

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY

**PROTECT YOUR CHILDREN ONLINE:** Keep your computer in a central and open location in your home and be aware of other computers your child may be using. Discuss and set guidelines and rules for computer use. Familiarize yourself with your child's online activities and maintain a dialogue with them about what applications they are using. Consider using software that allows you to monitor their email and web traffic.

**WATCH OUT FOR MONSTERS:** Cyberbullying refers to the growing practice of using technology to harass or bully someone else. Cyberbullying can range in severity from cruel or embarrassing rumors, to threats, harassment, or stalking. It can affect any age group; however, teenagers and young adults are common victims.

**ONLINE SHOPPING SAFETY:** Know whom you're dealing with. Beware of pop-up windows and unsolicited emails. Use only one credit card online and not a debit card. Keep a paper trail. Don't email your financial information. And be aware of emails that ask you to click a link or open an attachment to see the package's tracking information—that's a common spam technique.

**REMINDER:** This is the season for receiving unexpected packages in the mail. Scammers know this and can send realistic-looking delivery failure notifications via email for deliveries that never even took place. These notification emails often ask you to reveal personal identification information that is then used for malicious purposes. Head to your local post office or call the parcel delivery service to verify the delivery before you hand over information on the Internet.

# Kids Safe Online

## POSTER CONTEST GUIDELINES

### Getting Started

Public, Private, and home schooled students in Grades K-12 are invited to participate for a chance to have their artwork displayed on the 2023 MS-ISAC Posters and Calendar! Entries should feature original artwork illustrating the safe use of the Internet and/or mobile devices.

### Suggested Topics

#### Grades K-8

- How should you treat others online?
- What information is safe to put on social media and what should you keep private?
- How should you handle unwanted attention or strangers online?
- How can you select a strong password and keep it secure?
- How can you handle cyberbullying?

#### Grades 9-12

- How can you preserve your online reputation or "digital footprint" on both social media and elsewhere on the Internet?
- How should you handle unwanted attention or strangers online?
- How can you select a strong password and keep it secure?
- Why is it important to keep your devices and software up to date?
- When is it safe to text and what information is safe to text?

### Content

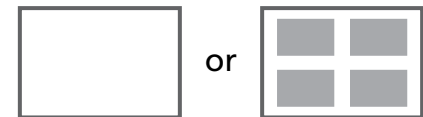

- Do Not send any artwork that contains trademarked images or brands such as Disney Characters, Dell, Google, Twitter, etc. For additional information on copyright visit: <http://www.copyrightkids.org/>
- Do Not put any identifying information (such as student's full name or age) on the front of the poster.
- Adults may offer minimum technical support but cannot aid in the creative process.
- No professional (paid) assistance is allowed
- Inappropriate or offensive language and images will cause a submission to be automatically disqualified.

#### Please Note:

- Students may use a variety of media, such as watercolor, pen and ink, crayon, chalk, or markers.
- Brighter colors reproduce better for the calendar.
- Light pencil marks will not show up.
- Keep in mind most posters will likely be on public display, and should be easy to see or read.

### Format

Original hand-drawn or electronically created submissions will be accepted. Text should be dark and large enough to read. Submissions may be in the format of either a full-page drawing or a 4-panel comic.

### Layout & Dimensions

Only landscape layout submissions will be accepted! Calendars are in landscape format.

**Minimum:** 11"x 8.5"

**Maximum:** 14"x 11"

# Kids Safe Online

## POSTER CONTEST GUIDELINES CONTINUED

Mark your  
calendars!  
The deadline  
to submit is  
January 21st!

### If Your State is Holding a Contest

Submit all posters to your state contest (contact [contest@msisac.org](mailto:contest@msisac.org) for your state's submission email address). The state will then submit the winning entries to the Multi-State Information Sharing & Analysis Center.

### If Your State is Not Holding a Contest

Each participating school/youth group is permitted to submit up to fifteen (15) posters (5 entries per grade group). How your school/youth group decides on the fifteen (15) posters is up to you! Some schools/youth groups may wish to have a contest and choose the entries; others may just have the art teacher, principal or group leader choose.

### Entry Form

Each poster must be accompanied by a completed Entry Form, available at [www.cisecurity.org/ms-isac/ms-isac-toolkit/](http://www.cisecurity.org/ms-isac/ms-isac-toolkit/).

### Due Date

The posters with the Entry Form, must be submitted by January 21, 2022. (Limited to one entry per student).

### Entries and forms should be emailed to: [contest@msisac.org](mailto:contest@msisac.org)

We will only accept digital copies of your students' artwork, so please provide us with a scan or high resolution image of the submissions.

### Winners

Winners from each grade group (K-5, 6-8, 9-12) will be selected.

A total of 13 winners will have their artwork displayed in our calendar which will be used in campaigns to raise awareness among children of all ages about Internet and computer safety. The top four submissions will also be made into posters promoting cybersecurity practices.

If their student wins, the MS-ISAC will notify the primary school contact, as listed on the entry form, or the State contact.

### Notice!

*All entries submitted become the property of the Multi-State Information Sharing and Analysis Center and may be used in future publications. Poster entries will not be returned.*
