## PREFACE

This report has been developed under the auspices of the Health Facilities Planning Act (20 ILCS 3960), which states in part:

*“ Sec. 5.3. Annual report of capital expenditures.*

*In addition to the State Board's authority to require reports, the State Board shall require each health care facility to submit an annual report of all capital expenditures in excess of \$200,000 (which shall be annually adjusted to reflect the increase in construction costs due to inflation) made by the health care facility during the most recent year.”*

The data were collected and compiled by the Illinois Department of Public Health, Office of Policy, Planning and Statistics, Division of Health Systems Development. For additional information or comments, contact the Division of Health Systems Development at 217-782-3516 or e-mail [IHFPB\\_data@idph.state.il.us](mailto:IHFPB_data@idph.state.il.us).

**HEALTH CARE FACILITIES IN ILLINOIS  
REPORT OF ANNUAL CAPITAL EXPENDITURES -- 2006**

**INTRODUCTION**

This report has been developed by the Illinois Department of Public Health under the auspices of the Health Facilities Planning Board (state board) and Health Facilities Planning Act [20 ILCS 3960/5.3]. The act requires the state board to collect information on the capital expenditures of health care facilities throughout the state. Specifically, the information requested consists of the following:

- All capital projects for which \$240,000 or more was expended or obligated within the reporting period<sup>1</sup>;
- A brief description of the project;
- The amount and method of financing;
- If a Certificate of Need permit has been issued, the number of that permit; and
- Anticipated capital projects for the following year.

This report is for calendar year 2006. The facilities surveyed include:

- Hospitals licensed under the Hospital Licensing Act - excludes federal facilities;
- Long term care facilities (LTCs), licensed under the Nursing Home Care Act - skilled nursing, and facilities for the developmentally disabled (DD facilities); and
- Ambulatory surgical treatment centers (ASTCs) licensed the Ambulatory Surgical Treatment Center Act- except facilities only providing pregnancy termination.

It should be noted that this report does not include the following:

- Facilities not listed above (e.g., sheltered care, assisted living, state-owned facilities);
- Capital projects/expenditures below the reporting threshold (except as noted); and
- End stage renal dialysis facilities (ESRDs)

---

<sup>1</sup> \$240,000 is the reporting threshold specified in the Health Facilities Planning Act. Some facilities have reported capital projects below that threshold. Where this has occurred, those data are included in this report.

**HEALTH CARE FACILITIES IN ILLINOIS  
REPORT OF ANNUAL CAPITAL EXPENDITURES – 2006**

The methodology used to collect the data is a questionnaire administered during calendar year 2006. The accuracy of the submittals is attested to by the administrator of the facility as being “true and accurate.”

**SUMMARY OF FINDINGS**

The following is a summary of findings from the information provided:

- \$2.3 billion in capital expenditures was reported by all facilities:
  - \$2.0 billion or 89.3 percent of all expenditures was reported by hospitals;
  - \$215 million or 9.5 percent reported by long term care facilities; and
  - \$23 million or one percent was reported by ambulatory surgical treatment centers.
  
- \$13.2 billion of long-term debt was reported by Illinois health care facilities.
  - \$11.1 billion or 84.3 percent of this amount was reported by hospitals;
  - \$2.0 billion or 15.4 percent was reported by long-term care facilities; and
  - \$41 million or 0.3 percent attributable to ambulatory surgical treatment centers.

Table I provides information concerning calendar year 2006 capital expenditures and related information for those Illinois health care facilities that reported data.

**SURVEY FINDINGS -- HOSPITALS**

There were 214 existing hospitals in Illinois at the end of 2006. Total hospital capital expenditures were over \$2.0 billion in 2006. Table II provides a summary of capital expenditures.

Hospitals reported in excess of \$11.1 billion of long-term debt. Table III presents the amount of long-term debt reported by Illinois hospitals.

<sup>2</sup> Several facilities provided services that were subject to different licensing requirements. For instance, some hospitals provided nursing services. To avoid double counting capital expenditures, facilities were counted only once and assigned to the facility type based upon the primary service that was provided.

<sup>3</sup> Long-term debt numbers do not include any long-term obligations associated with capital leases for physical plant and equipment for many facilities. In addition, debt incurred on behalf of health care facilities that is carried by related entities or governmental bodies often was not reported or was not available. Consequently, the amount of long-term debt may be understated.

The following is a summary of the findings relating to hospitals:

- The facilities reported \$2,018,260,272 in capital expenditures for 2006.
- There were 23 hospitals that had no expenditures in excess of \$240,000 during 2006. Of these 23, 10 reported “zero” or no capital expenditures for 2006.
- Over 61.1 percent of the capital expenditures (\$1.2 billion) were incurred by 33 facilities that each had capital expenditures in excess of \$20 million.
- Hospitals reported over \$11.1 billion of long-term debt. There were 65 hospitals that reported no debt. At least 62.2 percent (\$6.9 billion) of the total reported debt was attributable to 7.5 percent (16) of the reporting hospitals.

**SURVEY FINDINGS -- ASTCs**

There were 122 ASTCs that were licensed and reported data at the end of 2006. Survey instruments were sent to all licensed ASTCs. Any ASTC whose capital expenditure questionnaire could be associated with a hospital was not included to prevent double counting of hospital expenditures. Sixty-one (61) facilities reported “zero” or no capital expenditures for 2006.

**HEALTH CARE FACILITIES IN ILLINOIS  
REPORT OF ANNUAL CAPITAL EXPENDITURES – 2006**

The following is a summary of findings for ASTCs:

- Total reported capital expenditures were \$21,712,431 based upon data for 61 facilities that reported expenditures for 2006.
- Of the 61 facilities reporting capital expenditures for 2006, there were only four facilities with capital expenditures in excess of \$1 million.
- Approximately 13 percent (16) of the facilities had capital expenditures exceeding \$240,000. Their expenditures exceeded \$17.3 million or 80.1 percent of all capital expenditures for ASTCs.
- The remaining 45 facilities reported capital expenditures of more than \$4.3 million.
- Long-term debt was reported by 32 facilities, totaling \$41,652,405. There were 90 ASTCs that reported no debt.

**HEALTH CARE FACILITIES IN ILLINOIS  
REPORT OF ANNUAL CAPITAL EXPENDITURES – 2006**

**SURVEY FINDINGS -- LTCs**

Long-term care (LTC) facilities include all facilities that are licensed by the Department of Public Health under the Nursing Home Act. These facilities provide skilled or intermediate nursing and sheltered care services. The August 2000 amendments to the Planning Act exempted sheltered care facilities from certificate of need requirement. All facilities with either stand alone shelter care beds or that provide shelter care with other nursing services received the capital expenditure questionnaire. Any LTC facility whose capital expenditure questionnaire could be associated with a hospital was not included to prevent double counting of hospital expenditures. In addition, all state-owned facilities were excluded from the report leaving a total of 1,119 long-term care facilities reporting. Total calendar year 2006 capital expenditures reported by 762 LTC facilities were approximately \$215 million.

Table V  
**LONG-TERM CARE EXPENDITURES**

<b>Capital Expenditures:</b>	<b>More than \$1 Million</b>	<b>\$240,000 up to \$1 Million</b>	<b>Less than \$240,000</b>	<b>No. Expenditures Reported</b>
<b>No. of LTCs</b>	41	108	613	307
<b>Total Expenditures</b>	\$126,352,421	\$50,339,639	\$38,757,885	\$0
<b>% of LTC Expenditures</b>	58.7%	23.4%	18%	0%

The following is a summary of findings for LTC facilities:

- Total capital expenditures for LTC facilities were \$215,366,062 based upon data for 762 facilities that reported expenditures for 2006. There were 307 facilities that reported no expenditures.
- Approximately 58.7 percent of the capital expenditures (about \$126 million) were incurred by 41 facilities that each reported total capital expenditures for 2006 in excess of \$1 million.
- Long-term debt was reported by 488 LTC facilities and was \$2,044,433,321. There were 581 facilities that reported no long-term debt.

**HEALTH CARE FACILITIES IN ILLINOIS  
REPORT OF ANNUAL CAPITAL EXPENDITURES – 2006**

- There were 51 facilities that reported long-term debt in excess of \$10 million. An additional 242 facilities reported their long-term debt exceeded \$1 million. The largest reported facility debt was \$146 million.

**FACILITY INFORMATION**

This section of the report contains data tables pertaining to individual facilities. The tables include a list of facilities for which a capital expenditure response greater than zero (0) was received. Data concerning individual facilities consists of the total reported amount of capital expenditures for 2006 and the amount of long-term debt reported for the facility.

The data are organized by facility type (e.g., hospital, ASTC, LTC) and arranged according to health service area (HSA) boundaries. A map of the HSAs is provided. Within each HSA, the information is sorted alphabetically first by county, then by city, and then by facility name.

The following is a list of the data tables that are contained in the remainder of this report:
