

## SAFETY NET IMPACT STATEMENT

The proposed project addresses improvements in the manner in which Crossroads Community Hospital provides basic hospital services, including medical/surgical beds, which are being reduced in number from 50 to 40.

It is not anticipated that there will be any cross-subsidizing of safety net services. In addition, it is not known whether the proposed project will result in any impact on other providers.

Consistent with direction provided by IHFSRB staff, the table addressing Medicaid and charity care services is not being provided, as the information is already available to staff.
