Dear Ms. Avery:

I'm a resident of Palatine and I'm writing to oppose Centegra's application to build a new hospital in Huntley. This project represents a duplication of healthcare services already in the area. There are already three hospitals in McHenry County and additional hospitals such as Advocate Good Shepherd Hospital, Sherman, St. Alexius and Provena St. Joseph that serve the health needs of McHenry County. Any McHenry County resident can get at least one of these hospitals in a reasonable time so if McHenry county residents are leaving the county to seek healthcare it's by their own choice, not for lack of options. We already have enough hospitals nearby.

I urge the Illinois Health Facilities and Review Board to deny the Centegra proposed new hospital.

Hospitals around the area already offer great services & specialized care & emergency rooms are able to handle problems that these proposed hospitals won't be equipped to.

Sincerely, - create shortage of healthcare providers in all hospitals

Dear Ms. Avery,

I oppose the CON application for Centegra to build a new hospital in Huntley.

There are already good hospitals that serve the area. Building another hospital will just drive up hospital costs. I do not think there is any need for another hospital. I am concerned that the construction of another hospital will negatively impact existing hospitals in my community.

Sincerely,

Kimberly Mescha

Ms. Avery:

I am a resident of McHenry County and a registered nurse. Please deny the certificate of need application by Centegra Hospital to locate a new hospital in Huntley. I urge you to disapprove this application.

Another hospital is not needed. There are already several hospitals in the area which fulfill the need of area residents. The money to build a new hospital could be better spent on other health care services.

Yours,

Virginia Menzimer, RN
