RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I support the proposed Centegra Hospital to be located in Huntley. There are other hospitals in the area but they are too far in the case of an emergency. From where I live it takes a minimum of 30 minutes to get to any of these hospital and that is with normal traffic. I currently go the Advocate Good Shepard which is a fine hospital but it takes 40 minutes to get there. As for the proposed location. The area is also home to a very large Del Webb community and multiple families that live near the proposed site. This is also a growing community. Right now the economy is down but that will pick up again. This is strictly a letter of support. I nor my family would benefit from the jobs or construction. The benefit I would have is peace of mind knowing that I have a first class facility minutes away when time is of the essence.

Sincerely,

Timothy A Bueschel

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I feel for myself and the community that it is imperative to have Centegra build a hospital in Huntley. Living in Sun City one can often hear an ambulance or speak to someone knowing a family member or friend who is hospitalized. I've thought of moving as I get older so I could be near a hospital. I had a kidney stone and sepsis a couple years ago and having a hospital nearby would have definitely helped me. I don't want to be far from one anymore! PLEASE build one here and it would be the best thing in the long run. Thanks and praying for this to happen, Deena Perlstein

Sincerely,

Deena

Perlstein

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

Hi With Sun City in Huntley this hospital would be a great asset having close by. It would for all people but living in Sun City I think of all the calls that the paramedics get and they have to transport to St. Joe's or Sherman and I wonder how many lives could have changed had they had a hospital closer by. The job situation is awful and this would help jobs and help people financially also. Not only the jobs after the hospital is built but jobs while building the hospital. Please think about this long and hard. This is a perfect community and it's growing and we don't have anything like this close by. This would help our tax base also I'm assuming and the taxes are getting so high many of us won't be able to afford to live here. We work hard all our lives to feel peace and this would give us peace. On a personal level our granddaughter has epilepsy. We cannot keep her overnite because the hospitals in the area are too far away and if she goes into a serious seizure ambulance or not we need a hospital. The doctor told them not to let her stay anywhere that hasn't got a hospital within like 5 minutes. That's a personal plea cause we'd love to have our granddaughter to stay overnite and our daughter would sleep more peaceful. Thank you for listening

Sincerely,

Karen Farinella

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

Centegra Hospital - Huntley will provide the very western and in many way southern tip of suburban growth at the present time. It will allow quick access to state-of-the-art medical care to many smaller communities to the west and south. It is an area that will experience the first growth recovery of our economy. It is close to Del Webb Sun City Retirement community whose residents will require more and more health care for senior citizens. It's location on Algonquin Road and near to Rt. 47, Randall Road, and Interstate 90 makes it a highly accessible from all directions.

Sincerely,

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I believe Huntley is the best location for a new hospital in McHenry County, as it is one of the fastest growing areas we have. The Del Webb Sun City development is in Huntley, and it will be much easier for the residents there to get top-notch health care so close to them. The location in Crystal Lake, being proposed by Mercy, is in a congested area and is VERY close to both the McHenry & Woodstock Centegra hospitals, and to Good Shepherd also.

Sincerely,

Holly Swanson

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

Dear Illinois Health Facilities Services and Review Board-- I am writing to express my support for a hospital at the Centegra campus in Huntley, IL. Me and my family have lived in the Algonquin/Huntley/LITH area for eleven years. In this time, we have watched these communities grow from quaint bedroom neighborhoods to thriving small towns. Despite this growth, the area still lacks an anchoring health facility -- i.e. a major hospital. We and our neighbors still find ourselves traveling long distances for hospital services, which would be unnecessary if there were a local hospital. Not only would this be a great convenience, but it would bring greater healthcare spending to the community that today is being spent in Elgin, Hoffman Estates, and elsewhere. Having a local hospital would be a significant boon to our communities and I encourage you to vote for its approval. Sincerely, Scott Campbell

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I am in complete support of Centegra Healthcare's position at opening a Huntley campus. The Village of Huntley is growing by leaps and bounds with population and we need a quality hospital in our town. In the event of an emergency, the fire departments of Huntley, and Algonquin and Lake in the Hills have to transport patients a great distance to treat emergency care victims. With the transport time being cut in half or less, this would greatly help the citizens that they transport. This will also help keep the fuel cost down for these two fire departments by transporting to a local facility, but the most important aspect to the communities is that it will help the fire departments get back in service at a faster rate to provide that much needed protection that we have become accustomed too. Centegra has provided all of our family medical care and has done a great job. We have been extremely pleased with the courteous staff and professional demeanor that has become accustomed to the community. Bring a Hospital to Huntley!

Sincerely,

Michael

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I absolutely support a huntley Hospital over one in Crystal lake. Not because I live in Huntley but because Geographically, it make the most sense and is logical. Now normally I would assume that logic would prevail but not in this case So please just look at the geography of the hospitals in the area and if you do you will see how much sense it makes. We need something closer to the expressway, closer to Dell Webb and in the Heart of a growing community. There is no more growth available in Crystal Lake or Cary and their needs are being met just fine right now. Huntley has plans for much more growth and expansion and the area needs to be ready with healthcare support and Ccentegra will provide that!
Respectfully, Jim Ambrose

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

The addition of the Centegra Hospital to the southern McHenry County area makes sense in a number of ways. Number one, it provides needed services to an area which is growing in population now and will be for years to come. Secondly, the Campus is already there and supported by a Health Bridge facility which would fit in nicely with the hospital and requirements for physical therapy and wellness. Lastly, additional jobs are critical at this time and would positively impact our economy and unemployment. Thank you, Tad Walters

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

Centegra is a great Hospital and Health Care facility, we need this Hospital in Huntley. The population of Sun City alone (9000) warrants this being built here, not to mention the fantastic reputation and service that Centegra provides, our Dr. is there (Dr. Purdy) and is great, we think by reputation alone Centegra Hospital Huntley needs to be approved by the State Board. Here is their chance to prove they really care about health care by approving this great Hospital! Thank you.

Sincerely,

Mr. and Mrs. Jeffrey L. Neis

13857 Burham St.

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

With the fast-growing population in Huntley and the surrounding area, a hospital here is a necessity. Living in Del Webb, I have found that Centegra is the answer to all of my medical needs. I have changed to ALL Centegra doctors, and I have several - Internist, Rheumatologist, Endocrinologist, Surgeon, Podiatrist and Orthopaedic doctor. Right now if I had an emergency, and had to go by ambulance, I would be taken to Sherman Hospital. If there was a hospital in Huntley, I would be taken to that hospital and be in the care of the doctors with whom I am familiar. I have had experiences with Sherman, Provena St. Joseph, and Centegra- Woodstock Hospitals, and I would choose Centegra over the others in a heartbeat. A Centegra hospital in Huntley would be a dream come true for this senior citizen.

Sincerely,

Mary Gail Patterson

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

The hospital would be good for Huntley but also for the surrounding communities. All the hospitals are far from the area especially in the event of an emergency. I was taken to St Joe's by ambulance and it was a scary experience due to the fact that we took the tollway to the hospital. Not sure where we got off. That was a few years ago before Sherman came to Randall road. The point is the ride seemed forever. Thankfully I was not having a heart attack. It will also bring much needed jobs to the area.

Sincerely,

Bonnie Meccia

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I think that the new hospital will be great for the community and will help many citizens of McHenry County. I know that the hospital will be very successful and help anyone suffering any types of disease/injury minor or major. My father is a heart patient himself and the nearest hospital is about 20 minutes away and if this new hospital is built then it will be easy to get him to the hospital quickly if God forbid there where something to happen. Also I am onl 14 but in the future i plan to be a doctor and before i become a doctor i could probably do some volunteer work at the new hospital and maybe even work there someday. I think that this hospital will be a great resource in our community and i am all for it.

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

We are very excited about the possibility of having the new Centegra Hospital in Huntley. The hospital will provide a much-needed resource to all of the growing communities of Southern McHenry County. In the past three years, we have had both a family emergency and the delivery of a baby, both of which could have been handled locally with the addition of the new hospital in Huntley. Furthermore, with the large population of seniors in Sun City, the new hospital would be a great addition to the Centegra Health Bridge Campus, and would continue to promote preventative healthcare. As a resident of Huntley, I urge you to approve Centegra's bid for a new hospital in our community.

Sincerely,

Matt Hilton

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

To whom it may concern, As a resident of McHenry county I strongly urge you to allow Centegra Health System to build a hospital in Huntley, Illinois. While living in McHenry county I have given birth to two children. I had complications with both pregnancies and had to use Emergency Room services approximately 10 times between the two pregnancies. I had to drive over 30 minutes to the nearest ER to receive care. Since my problems were heart related, time was of the essence and the 30 minute trip seemed like 3 hours. Having a hospital less than 5 minutes a way would have helped to ease the burden on both my family and myself. Additionally, hospitals generate hundreds of jobs and millions of dollars in revenue for the community that it serves. In these difficult times having additional jobs in our community would help to boost our local economy and help to improve our housing market. I strongly urge you to approve Centegra Health System to build a hospital in our community. The physical and economic health of our area would benefit greatly. Best Wishes, Holly Jarovsky

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I would love for the new hospital to be built here in Huntley. I have an elderly mother and in-laws that live nearby and having a hospital close by would help make it easier to get the medical care they need as well as for my own family. There have been plenty of times while raising my kids that I felt like "where should I take them?" when we've had small emergencies. The population in this area has grown so much and the traffic has increased so much, trying to get to emergency medical care has become much more difficult when you have to travel all the way to Barrington, McHenry, Woodstock or Elgin. Having a new hospital here in Huntley would be beneficial to my family as well as the entire surrounding community.

Sincerely,

Karen Dowell

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

This facility is sorely needed in our community the closest hospital is at least 20 minutes from our community. Being home to one of the largest Dell Web communities and having a parent living there, it is all that much more important to have a hospital facility close by.

Sincerely,

Jeff Buczkiewicz

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I am fully supportive of the hospital in Huntley being built. We are too far from Sherman hospital in Elgin for an emergency. I have lived in the area for 7 years and it is the one drawback that has bothered me since moving in... a lack of a hospital close enough to feel comfortable. Thanks.

Sincerely,

John Hendrickson

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I fully support the new hospital proposed for Huntley by Centegra. The area is growing rapidly and the population would truly benefit from this new facility. The hospital would further enhance the health services available on the Huntley Centegra campus and create easy access for this area's growing population. I am very impressed with Centegra--it's quality of service, it's dedication to the communities it serves, and it's commitment to bring services to the areas where it is most needed. I give my full support to the proposed Huntley hospital.

Sincerely,

Joanne Gustafson

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

Hello, We along with about 9,000 other Seniors live in Sun City. We need a hospital that is close to us - not only for emergencies BUT also for those of us that require a variety of medical procedures that seem to increase yearly as we grow older. The Haligus/Algonquin Road location is ideal - not only for us in Sun City but it appears to be centralized with all the booming communities in that area. We need a hospital that is close to us so we are able to visit friends and or relatives that are in need of hospital care whether it be out patient or extended stays. That is in addition to having a hospital close to us for emergency reasons. Thank you, Jim and Lois Bartunek

Sincerely,

James

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I would be delighted to see a hospital become a reality in Huntley. I am very proud to be an active citizen, a registered nurse, and a mother in the town of Huntley. This would be a valuable resource for a booming area, with an substantial population growth. We already have excellent district 158 schools, so this would entice more professionals to consider the area home. We do not have a hospital in close proximity. With the baby boomers entering the picture, and the addition of Del Webb's community, we will need to have adequate provisions for healthcare in the area. I am very excited to see the possibilities this hospital would provide for our community.

Sincerely,

Jean Llamas

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

There is an ad running lately by Alexian Hospital. It depicts a man being diagnosed with a brain aneurism with state of the art equipment at Alexian. The one thing that stands out in that commercial is the man stating "I am glad that I live so close to Alexian, it saved my life." Well that's how I feel about the prospect of Centegra having a hospital so close to my house. I had surgery a few years back at Centegra-McHenry. I was thrilled with the staff and hospital. The only drawback was that it's a 45 minute drive - one way - and alot can happen in 45 minutes. When I moved to Huntley, I was thrilled at the idea of Centegra building an immediate care center, health bridge fitness center, and the hospital. The immediate care center is here and the health bridge is here - and I am hoping the hospital will be next. I am not one to go see a doctor for something like a minor cold. I'll see one for something as serious like high blood pressure, diabetes, etc. The prospect of having a hospital nearby with state-of-the-art equipment and a staff that is knowledgable and caring as I know Centegra is, I would probably see a doctor more often than I do now. Please vote favorably for Centegra, if not for me who rarely sees a physician now, but for those that live near me that would need immediate care when the hospital is completed. Thank you.

Sincerely,

Mary Lou Florence

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

All of our doctors are part of the Centegra System, yet in an emergency situation, as residents of Sun City, we would most likely be taken to Sherman Hospital. We know no doctors there and none of our medical records are available electronically to them. The delay that could result from trying to get records and medical information could be life-threatening in an emergency situation. We are sincerely hoping a hospital within the Centegra System will be built in close proximity to Sun City to address this potentially life-threatening issue.

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

My husband is 5th generation in Huntley. I'm a relative newcomer, only 15 years. We're both in our 60's. We've seen the population in Huntley, and all of southern McHenry County, grow at a staggering rate the past 15 years. We know that the growth will continue, a fact backed up by recent demographic information gleaned from the 2010 census. We absolutely support the idea of a hospital in Huntley for the benefit of the area's residents as well as the local economy. Please do not allow this worthy, even life-saving, endeavor to fail.

Sincerely,

Barbara Conley

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I have used the Centegra organization since their inception in the 1950s in McHenry. The comfort and knowledge of having this great organization at our disposal has been invaluable. I was treated there as a teen-ager and our three children were born there. I was recently treated there two weeks ago. Their quality and professionalism is unsurpassed. I totally agree with the folks in the Huntley area and Southeastern portion of McHenry County. The reduced travel time to treatment and the convenience of having a hospital in their community is overwhelming. We are lucky in McHenry to have had some very forward thinking doctors who founded McHenry Hospital. The rewards to the community have been many. Please approve the Centegra facility in Huntley, it will be good for that area and for the entire county.

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

My husband and I have lived in the Del Webb Sun City Community in Huntley since 2004 and believe that the location of a hospital in Huntley would be in the best interest of/for the communities in Southern McHenry County and Northern Kane County. The location is perfect and will establish a neighborhood Centegra Community along with the Immediate Care Center with Doctor's Offices and Healthbridge Center already located in Huntley. We know first hand that there are many ambulance calls in the Sun City Community and having a hospital located in the Village would greatly alleviate many concerns, especially travel times and distance, of these residents. Huntley and the surrounding communities are growing considerably and the hospital would bring in more people and more jobs to stimulate the economy in this time of need. With the completion of the widening of Route 47 and the anticipated full interchange at I-90/Rt 47 access to the hospital would be opened to many more communities. We totally support the Centegra Hospital in Huntley. Sincerely,
Richard & Maureen Brinkman

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

To whom it may concern.... We moved here in 2005 and we were not even 24 hours when we needed help from the fire department...my mom had fallen....2 weeks our furnace electric pannel blew out and had the fire department out again. The reason I am telling you this is because after this happened my mother was put in the hospital at Centegra and that is where we got the most fantastic ER care. The nurses helped me in picking out a Doctor for my mom since our doctors were in Arlington Heights.....Dr. Monica Gavran is our doctor now. She is a delight and very caring and really have trust in her. Shortly after I had to have carpal tunnel done on both of my hands and a gaul bladder removed. I was in outpatient and the care could have not been better. I cannot say enough good about Centegra....my mom was in this past summer for almost a month and not once in all that time was she treated badly or uncared for. You nurses a tops in my book they went out of there way to help and I realize they have many patients to look after. I felt like every time I went to see my mom that they treated me like family. What more can you ask for. I realize that there are days things probably don't go as smoothly as you would like....that is any place....but you handle it so well. I would be very disappointed if any other hospital would build on that ground. I think being in Del Webb that many people I talk to feel the same maybe not as passionate as me but they seem to all be in favor of this hospital I heard that Mercy wants to buildI have never heard of Mercy Hospital.....I would rather have a place that is familiar to me. I have used the imediat care center and the same goes there the people are the best of the crop. Thank you and I do hope you succeed with this project. Again thank you from the bottom of my heart Terri Novak gmatnovak@ameritech.net PS forgive me I am not the greatest speller

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

Members of the Illinois Review board, As a daughter of elderly parents who live in Sun City, I feel a local hospital is sorely needed in Huntley. There are no hospitals within a reasonable driving distance for the Senior Citizens living there. My parents have been forced to go to hospitals in Elgin and Woodstock for both emergencies and daily medical treatments. The distance to other hospitals could be a matter of life and death in the event of an emergency (which always happen outside of normal business hours) - especially in the event of a snow storm. It has also been difficult for their local Centegra physician to coordinate care for them when are forced to go to hospitals outside their system for tests or treatment which are not locally available. I fear medical mistakes will be made (and money wasted) because appropriate information is not shared among different hospitals. A hospital in the growing community of Huntley would not a luxury. It is a necessity. This hospital cannot be built soon enough in my opinion. Thank you for taking the time to consider my thoughts on this matter. Sincerely, Susan Klaus

Dear Ms. Avery,

I am in full support of Centegra building a hospital in Huntley. I was upset when I saw that Mercy was planning to build in Crystal Lake, right after Centegra/Huntley announced that they were proposing to build a hospital. We (Huntley and Southern Mchenry county) have grown so much in the last 10 - 15 years, many families and Dell Webb/Sun City would benefit greatly to have a hospital close by. Please select Centegra to build in Huntley, Thank You.

Sincerely,

Ellen Bakke

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I think a new hospital in Huntley would bring such peace of mind to the seniors in DeWebb and also all of the new young families. When one is sick or has an accident, knowing that you'll be somewhere for help in minutes is the best security for all of us in this area.

Sincerely,

Joan Becker

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

It would be nice to have a facility like Centegra in our community. We have a long ride to the emergency room when an ambulance is called. I know because I used our Fire Dept Services and had to go to St Joe's in Elgin. Thankfully my experience was not life threatening. Our Fire Dept is very good and very capable but I am sure they would rather not have to drive down Rt 47 or Randall Road or the Tollway during an extreme emergency. The facility would be good for the community in other ways also. Jobs!!!!!!

Sincerely,

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

As a parent of a critically ill child and a local member of the business community I am providing my complete endorsement of a full service hospital in Huntley. This should have been here 10+ years ago. There is without any doubt in my mind this is needed, especially with extended drive times to bring a patient to another hospital, 10 or more minutes can make a difference in an trauma situation. Huntley needs these hospital services and the highly skilled jobs that this development will create! Well done to all those who put in the effort to bring this to opportunity to fruition.

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

Centegra has demonstrated a commitment to McHenry County by bring quality health care to rural, agricultural based communities. The people of McHenry County, as well as, the governing authorities should embrace and support the commitment and investment Centegra is willing to make in our community, contributing to our quality of life. Centegra's long term plan offers our community a quality cohesive health care system, committed to our community. I suspect Centegra's level of quality is not found in similar areas with similar demographics. On the other hand, Mercy's proposed Crystal Lake Hospital should be dismissed as a transparent, poorly conceived and executed knee jerk response to a superior health care providers long term plan and commitment to McHenry County. How can the State Board and citizens of McHenry County not remember Mercy's ill-fated attempt to construct a hospital in Crystal Lake and gain a CON illegally through bribes and whatever other means necessary? Mercy's history of unethical business practices will prohibit me from trusting my family's health care needs to such an organization. Mercy has demonstrated contempt for the people of McHenry County and the State Board's governing authority, embarrassed themselves and, insulting the citizens of McHenry County.

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I support the prospect of a new Hospital in Huntley for several reasons: McHenry County continues to demonstrate population growth as well as growth in business/industry, the Centegra Woodstock and McHenry hospital sites face census exceeding capacity at intervals forcing our neighbors to leave their community to receive care. Centegra has repeatedly demonstrated their commitment to the health and welfare of the community they serve. examples of this commitment include National Patient satisfaction measures as well as quality outcome standards which are consistently exceeded by this Health system's professionals.

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

Wednesday Jan. 19th I took my daughter to Good Shepherd at 6:00pm. After seeing a triage nurse we proceeded to wait 2 hours along with approx. 25 other people in the waiting area. Finally at 8:00 pm we got a room in the ER. Supposedly another hospital was on "by pass" so Good Shepherd had to take all the ambulances first and walk in patients second. Waited another 2 1/2 hours for labs, come to find out she had the flu. Because of her underlying health problems they wanted to admit her for 24 hours. The only problem the hospital was "packed soild". So they want to keep her, but have no where to put her. NICE!! She ended up in the overflow er department. I couldn't wait to get her out of there! All nurses and doctors were nice and helpfull but they clearly were just as stressed as I was. I told them all that I thought it was a good idea that centegra and mecry want to build hospitals in the area. After that awfull night you definitely have my support to build away.

Sincerely,

Julie

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

As a retired RN, I can see a real need for a hospital in Huntley and this area. There is a lot of growth west and south of here and no hospital in these areas is closely available. This hospital would serve a tremendous amount of population. Thank you for your time... Blanche Freund,RN

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

Huntley is the perfect location for a new Centegra Hospital. Not only is Huntley growing in leaps and bounds, but the location is a good distance from the Woodstock & McHenry locations. The proposed hospital for Mercy is far too close to the Centegra Hospitals - there is no need for another hospital at that location.

Sincerely,

Holly E. Swanson

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I am 100% in support of this hospital! Right now, we have to travel at least 20 miles to get to our hospital. Having a hospital in our "own back yard" would be an enormous asset to Huntley. Huntley is a growing community. As such, this hospital is very needed. Putting a hospital in Huntley would just be the right thing to do. :o)

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

To Whom it may concern, My wife and I are both 65 years old now. We have both used the Immediate & Primary Care Center on Haligus Rd. on several occasions. We were pleased to hear that Centegra wants to build a hospital complex in the same area. That would be a two minute ride from our residence. In any emergency that we might have. The hospital being that close would be a true blessing for us and other people in the area. There are a great many people in our general area, that are 65 and older. That might require immediate care for serious conditions ,where time is important. Please allow Centegra Health Systems to build the hospital on Haligus Rd. in Huntley IL. Thank You.....

Sincerely,

Dennis F. Veneigh Sr.

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

As a former employee in the Huntley area, who served patients from the local community, I can see nothing but benefit from the building of a Centegra hospital in Huntley. The growth in population in Huntley, Lake in the Hills and Algonquin, justifies the addition of a hospital to meet the health needs of the community. As a parent, if I were to live in the Huntley area, I can see the extreme value of having a hospital facility close to my home and the services that would be associated with it.

Sincerely,

Valerie Williams

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

This hospital will be a great addition to our Community; Centegra offers state of the art medical services, varied employment opportunities, total health and wellbeing education, and a neighborhood partnership of caring. With our current 25,000 in Huntley alone, soon to be up to 45,000, we need great medical care close to home. Our total area population will be more than 100,000 at some point, and with traffic jams being what they will, we need medical care close by.

Sincerely,

Pam Fender

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

Earl and I passed by the planned site for the hospital in Huntley and were struck by the housing around the area. My husband thought it would be a good idea when presenting your case to the State of Illinois to include a visual image taken from above that highlights the amount of people this hospital would impact. The planned site for Mercy's hospital in contrast is situated in an industrial area. Just a thought. Gail

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

Centegra Health System has a proven history of providing high quality health care to the families in McHenry County. It has grown steadily and carefully over the last century to meet the needs of our community whether that was bringing Flight for life, Level 2 Neonatology Services, Open Heart Surgery, and a state of the art Cancer Center to name a few. Their staff and leaders are involved in our community on all levels and do so with genuine respect, passionate care and a joyful spirit. The proposed new Hospital in Huntley will provide better access to care in this growing area. Huntley remains undeserved as no additional beds have been added to meet the needs of the population growth which has occurred over the last decade in that area. Mercy Health System's previous attempt to build in Crystal Lake raised ethical issues regarding their organization. Again they are trying to duplicate beds in an area of the county is already being served. Whereas Centegra has carefully assessed where the need exists. The Centegra project needs the support of the thousands of people who have been the recipient of care within their System.

Sincerely,

Angela McAuley

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

As residents of Sun City, Huntley, Illinois, for over six years, we most definitely support Centegra's expansion and application for a new hospital in Huntley, adjoining their already active Immediate Care Center (which we have been visiting frequently) and the Healthbridge Fitness Center. Expansion of the site on Haligus Road to include a 128 bed new hospital and medical offices is a perfect fit on a most desirable location serving a growing Huntley community and environs. Consider the nearby, re-zoned land parcels for residential development ready to kick off as the economy improves. Also nearby infrastructure improvements such as the widening of Illinois Route 47 and complete interchange at Route 47 and I-90. The very pro-active Village of Huntley Board and leaders support Centegra's expansion plans. Right now the nearest hospitals to Sun City are Centegra Woodstock and Sherman Hospital in Elgin. Consideration should be given especially to the population base of nearly 9,000 at age-restricted Sun City with most residents over the age of 60 requiring more frequent and often immediate medical care. We urge a vote by the Illinois Review Board for a favorable recommendation to build. Melvin H. Long Lois L. Long 13781 Chestnut Lane Huntley, IL 60142

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

It appears that the rear of the hospital faces north, toward Reed Road? I would hope that an abundance of trees would be planted to screen the view for the residents of the Southwind Housing development, who are on the north side of Reed. (A screening of trees and a berm were put in place for residents on the west end of Reed, just east of Rt 47, when the commercial development by the new Walgreens was proposed.)

Sincerely,

Susan Banjavcic

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I would love a Centegra Hospital in Huntley. Besides being close to my home, my mother who lives in Del Webb will find it much easier to get health care without going too far. As she gets older, she is needing more and more tests and needs to be monitored often. Having a facility close by would make it so much easier for her to get the care she needs without having to drive so far.

Sincerely,

Karen Dowell

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

With all due respect to Mercy Health Systems, Centegra has true quality and proven patient oriented care system that would enrich any community especially Huntley. Having been both a patient and advocate it is without reservation that I feel Centegra is the better choice. The manner in which they deliver services and embrace the patient's care by involving them every facet of their care is unprecedented. In today's economy where everyone is moaning about their expenses, Centegra continues to move forward with no interruption in care or overtones of financial concerns. Support Centegra, its' that simple. Thank you.

Sincerely,

Jane Hummel

RE: Project No. 10-090, Centegra Hospital-Huntley

Dear Ms. Avery,

I am a provider of skilled home health care in Lake, Cook, Dupage, McHenry counties. The need for a hospital in that part of McHenry County is important to serve the community with availability, specialty, close to home for support of loved ones, just a few needs that are not being met at this time. Centegra is wise to commit to the community a outstanding health care facility. Coodoes to the forward thinking of the board of directors and investors.
