Dear Ms. Avery,

I am writing to you today to respectfully state my strong support for the Certificate of Need Application with the Illinois Health Facilities and Services Review Board. This certificate is needed in order for a 94-bed satellite hospital to be built in Shiloh, Illinois.

I urge the granting of this certificate based on Memorial's strong dedication and commitment to their community, and I believe that this addition to Memorial, would allow them to provide their patients with even better care, making private rooms available in both hospitals. These improvements are likely to increase patient satisfaction and help with such issues as infection prevention.

Memorial deserves the approval of the above stated certificate. They continually reinvest in programs, services and facilities in our community. I believe that it's only right that we also reinvest in their institution, and I am proud to serve in such a district where such a hospital exists. Please feel free to contact me with any further questions or concerns.

Sincerely,

James F. Clayborne, Jr.
