HEALTH FACILITIES &
SERVICES REVIEW BOARD

To whom it may concern,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings. 11-006
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities...

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

Name Colleen Hughes

Address 1343 N. Wells

Chicago IL 60614

To whom it may concern,

Transitional Care Management (TCM) proposes a highly innovative model of care that combines the best clinical, rehabilitative and hospitality services in a spa-like setting. TCM will offer a new path to wellness for patients who are bridging the distance between hospital and home.

Redefining the Healthcare Continuum

Operating sub acute care in a hospital setting is a costly proposition that is also typically a less desirable setting for patients who are recovering from illness or injury. In fact, in Arlington Heights, the local hospital does not offer these services. As a result, the only local option for sub acute care is a traditional nursing home, which, with its inherent institutional nature and primarily long-term patient population, is not necessarily the ideal setting for many patients who are on the road to recovery.

Lowering Costs

Transitional Care provides the opportunity to care for patients in a non-institutional setting earlier in the rehabilitation process thereby reducing length of stay in the hospital where costs are higher. Additionally, due to the specialized nature of the services provided, Transitional Care affords patients the opportunity to regain maximum capacity more quickly adding more long-term cost savings.

Specialized Care

With stand-alone transitional care, practitioners focus exclusively on restoring function lost through injury, surgery or disease with the goal of helping patients reduce pain, hasten recovery and increase performance. This specialized focus is not as predominant in generalist settings that offer a variety of care levels and support multiple care goals.

Higher Staffing Ratios

Transitional Care of Arlington Heights intends to run a nurse-to-resident ratio that is double the industry average, and with a substantially greater proportion of RNs to LPNs than is typically seen.

Evidenced-based Design

Evidence shows that environment plays a significant role in patient experience and outcomes. Healing design, like that which TCM proposes, can improve a patient's outlook on care, increase patient satisfaction and ultimately help support a client's journey toward recovery.

By providing an alternative to institutional care, TCM is redefining the healthcare continuum and offering cost effective, specialized care in a manner that is more appealing to today's consumer. This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. That is why I support Transitional Care Management's Arlington Heights project.

To whom it may concern,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities...

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

To whom it may concern,

Transitional Care Management (TCM) proposes a highly innovative model of care that combines the best clinical, rehabilitative and hospitality services in a spa-like setting. TCM will offer a new path to wellness for patients who are bridging the distance between hospital and home.

Redefining the Healthcare Continuum

Operating sub acute care in a hospital setting is a costly proposition that is also typically a less desirable setting for patients who are recovering from illness or injury. In fact, in Arlington Heights, the local hospital does not offer these services. As a result, the only local option for sub acute care is a traditional nursing home, which, with its inherent institutional nature and primarily long-term patient population, is not necessarily the ideal setting for many patients who are on the road to recovery.

Lowering Costs

Transitional Care provides the opportunity to care for patients in a non-institutional setting earlier in the rehabilitation process thereby reducing length of stay in the hospital where costs are higher. Additionally, due to the specialized nature of the services provided, Transitional Care affords patients the opportunity to regain maximum capacity more quickly adding more long-term cost savings.

Specialized Care

With stand-alone transitional care, practitioners focus exclusively on restoring function lost through injury, surgery or disease with the goal of helping patients reduce pain, hasten recovery and increase performance. This specialized focus is not as predominant in generalist settings that offer a variety of care levels and support multiple care goals.

Higher Staffing Ratios

Transitional Care of Arlington Heights intends to run a nurse-to-resident ratio that is double the industry average, and with a substantially greater proportion of RNs to LPNs than is typically seen.

Evidenced-based Design

Evidence shows that environment plays a significant role in patient experience and outcomes. Healing design, like that which TCM proposes, can improve a patient's outlook on care, increase patient satisfaction and ultimately help support a client's journey toward recovery.

By providing an alternative to institutional care, TCM is redefining the healthcare continuum and offering cost effective, specialized care in a manner that is more appealing to today's consumer. This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. That is why I support Transitional Care Management's Arlington Heights project.

To whom it may concern,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities...

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities...

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

To whom it may concern,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

Name Lesley Bell

Address 509 N. Wells

Chicago IL 60654

To whom it may concern,

Transitional Care Management (TCM) proposes a highly innovative model of care that combines the best clinical, rehabilitative and hospitality services in a spa-like setting. TCM will offer a new path to wellness for patients who are bridging the distance between hospital and home.

Redefining the Healthcare Continuum

Operating sub acute care in a hospital setting is a costly proposition that is also typically a less desirable setting for patients who are recovering from illness or injury. In fact, in Arlington Heights, the local hospital does not offer these services. As a result, the only local option for sub acute care is a traditional nursing home, which, with its inherent institutional nature and primarily long-term patient population, is not necessarily the ideal setting for many patients who are on the road to recovery.

Lowering Costs

Transitional Care provides the opportunity to care for patients in a non-institutional setting earlier in the rehabilitation process thereby reducing length of stay in the hospital where costs are higher. Additionally, due to the specialized nature of the services provided, Transitional Care affords patients the opportunity to regain maximum capacity more quickly adding more long-term cost savings.

Specialized Care

With stand-alone transitional care, practitioners focus exclusively on restoring function lost through injury, surgery or disease with the goal of helping patients reduce pain, hasten recovery and increase performance. This specialized focus is not as predominant in generalist settings that offer a variety of care levels and support multiple care goals.

Higher Staffing Ratios

Transitional Care of Arlington Heights intends to run a nurse-to-resident ratio that is double the industry average, and with a substantially greater proportion of RNs to LPNs than is typically seen.

Evidenced-based Design

Evidence shows that environment plays a significant role in patient experience and outcomes. Healing design, like that which TCM proposes, can improve a patient's outlook on care, increase patient satisfaction and ultimately help support a client's journey toward recovery.

By providing an alternative to institutional care, TCM is redefining the healthcare continuum and offering cost effective, specialized care in a manner that is more appealing to today's consumer. This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. That is why I support Transitional Care Management's Arlington Heights project.

Dear Sir or Madam,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- new source of tax revenue to further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options including cafes and a dining room
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious, hospitable staff
- Signature, spa-like amenities

all of which help promote comfort, speed healing and enhance overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

Address 1802 Krowka Dr.

Des Plaines IL 60018

Dear Sir or Madam,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times; higher patient satisfaction and better overall care.
- new source of tax revenue to further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options including cafes and a dining room
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious, hospitable staff
- Signature, spa-like amenities

all of which help promote comfort, speed healing and enhance overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- new source of tax revenue to further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options including cafes and a dining room
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious, hospitable staff
- Signature, spa-like amenities

all of which help promote comfort, speed healing and enhance overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

- Optional patios
- Comfortable accommodations for guests
- Dining options including cafes and a dining room
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious, hospitable staff
- Signature, spa-like amenities

all of which help promote comfort, speed healing and enhance overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

Name: Uinad Daniel 

Address 8652 Gregory Ln. #12
Des Plaines 60016

Dear Sir or Madam,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- new source of tax revenue to further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options including cafes and a dining room
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious, hospitable staff
- Signature, spa-like amenities

all of which help promote comfort, speed healing and enhance overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

Des Plaines IL 60016

Dear Sir or Madam,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- new source of tax revenue to further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options including cafes and a dining room
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious, hospitable staff
- Signature, spa-like amenities

all of which help promote comfort, speed healing and enhance overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

- new source of tax revenue to further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options including cafes and a dining room
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious, hospitable staff
- Signature, spa-like amenities

all of which help promote comfort, speed healing and enhance overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

Dear Sir or Madam,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- new source of tax revenue to further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings

- Optional patios
- Comfortable accommodations for guests
- Dining options including cafes and a dining room
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious, hospitable staff
- Signature, spa-like amenities

all of which help promote comfort, speed healing and enhance overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

Dear Sir or Madam,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- new source of tax revenue to further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options including cafes and a dining room
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious, hospitable staff
- Signature, spa-like amenities

all of which help promote comfort, speed healing and enhance overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

Abraham

Illinois Health Facilities and Services Review Board
525 West Jefferson Street, Second Floor
Springfield, Illinois 62761

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

Top Quality Care and Expertise

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

Holistic Approach in a Wellness Center Setting

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

Healing our Residents and Helping our Economy

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

Patricia Musabella

To whom it may concern,

Transitional Care Management (TCM) proposes a highly innovative model of care that combines the best clinical, rehabilitative and hospitality services in a hotel/spa-like setting. TCM offers a new path to wellness for patients who are bridging the distance between hospital and home. I support the Transitional Care of Arlington Heights project for these reasons:

A Defined Need

According to the most recent Long-term Care Bed Inventory Report, there is a defined need for 891 beds of this kind in the 7A planning area. This report is further supported by documented occupancy reports from the area's quality provider that shows occupancy in excess of 95%.

Redefining the Healthcare Continuum

Operating sub acute care in a hospital setting is a costly proposition that is also typically a less desirable setting for patients who are recovering from illness or injury. In fact, in Arlington Heights, the local hospital does not offer these services.

Lowering Costs

Transitional Care provides the opportunity to care for patients in a non-institutional setting earlier in the rehabilitation process thereby reducing length of stay in the hospital where costs are higher. Additionally, due to the specialized nature of the services provided, Transitional Care affords patients the opportunity to regain maximum capacity more quickly adding more long-term cost savings.

Higher Staffing Ratios

Transitional Care of Arlington Heights intends to run a nurse-to-resident ratio that is double the industry average, which translates to better response times, enhanced communication and better overall patient experiences.

Evidenced-based Design

Evidence shows that environment plays a significant role in patient experience and outcomes. Healing design, like that which TCM proposes, can improve a patient's outlook on care, increase patient satisfaction and ultimately help support a client's journey toward recovery.

By providing this new alternative, TCM is redefining the healthcare continuum and offering cost effective, specialized care in a manner that is more appealing to today's consumer. This is a trend that is happening across the country and one whose time has come here in Illinois.

Sincerely,

CARL TURCUK

TCM offers a new path to wellness for patients who are bridging the distance between hospital and home. I support the Transitional Care of Arlington Heights project for these reasons:

A Defined Need

According to the most recent Long-term Care Bed Inventory Report, there is a defined need for 891 beds of this kind in the 7A planning area. This report is further supported by documented occupancy reports from the area's quality provider that shows occupancy in excess of 95%.

Redefining the Healthcare Continuum

Operating sub acute care in a hospital setting is a costly proposition that is also typically a less desirable setting for patients who are recovering from illness or injury. In fact, in Arlington Heights, the local hospital does not offer these services.

Lowering Costs

Transitional Care provides the opportunity to care for patients in a non-institutional setting earlier in the rehabilitation process thereby reducing length of stay in the hospital where costs are higher. Additionally, due to the specialized nature of the services provided, Transitional Care affords patients the opportunity to regain maximum capacity more quickly adding more long-term cost savings.

Higher Staffing Ratios

Transitional Care of Arlington Heights intends to run a nurse-to-resident ratio that is double the industry average, which translates to better response times, enhanced communication and better overall patient experiences.

Evidenced-based Design

Evidence shows that environment plays a significant role in patient experience and outcomes. Healing design, like that which TCM proposes, can improve a patient's outlook on care, increase patient satisfaction and ultimately help support a client's journey toward recovery.

By providing this new alternative, TCM is redefining the healthcare continuum and offering cost effective, specialized care in a manner that is more appealing to today's consumer. This is a trend that is happening across the country and one whose time has come here in Illinois.

Sincerely,

*Mary Lou Starnell
Arl. Hts., Ill.*

Transitional Care of Arlington Heights will offer:

- **innovation** and consumer **choice**
- an **alternative** to institutional, rehabilitative care
- a quality, **non-denominational** post-hospitalization care alternative
- a **specialized focus** on post-hospitalization rehabilitation
- **higher nurse staffing ratios** than traditional nursing home care that translate to better response times, higher patient satisfaction and better overall care.
- **taxes** that further support our community.
- **care for all** residents including Medicaid recipients.
- coordination with area **physicians/hospitals** to offer top quality rehabilitative care.
- primarily **private rooms** with **private baths**
- **comfortable accommodations** for patients, family and guests
- thoughtful conveniences to minimize disruption and offer **patients privacy**
- a **hotel/spa-like feel**, amenities and other features that help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

To whom it may concern,

I am concerned about the availability of quality options as they relate to the availability of health care in the Northwest suburbs. Ensuring that we have adequate and top notch access to short-term rehabilitative services is important to me.

Top Quality Care and Expertise

I understand that Transitional Care Management will bring quality post-acute care to our community. In particular, Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity-patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

Holistic Approach in a Wellness Center Setting

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

Healing our Residents and Helping our Economy

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

A handwritten signature in cursive script that reads "Chris Ferguson". The signature is written in black ink and is positioned below the word "Sincerely,".

Dear Sir or Madam,

I am in favor of Transitional Care of Arlington Heights because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-acute care rehabilitation that is missing in other settings.
- higher staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- new source of tax revenue to further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options including cafes and a dining room
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious, hospitable staff
- Signature, spa-like amenities

all of which help promote comfort, speed healing and enhance overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Arlington Heights. For these reasons I support the development of Transitional Care of Arlington Heights.

To whom it may concern,

Transitional Care Management (TCM) proposes to offer a highly innovative model of care that combines the best clinical, rehabilitative and hospitality services in a hotel/spa-like setting. TCM will offer a new path to wellness for patients who are bridging the distance between hospital and home.

A Proven, Innovative Concept and Team

This type of innovation is not new to the TCM team. A decade ago, TCM CEO Brian Cloch was one of the pioneers who helped develop the state's highly successful Supportive Living Program that redefined how quality, supportive care was delivered to Medicaid recipients.

Prior to that time, seniors who were dependent on Medicaid funds had no alternative for care other than a nursing home where costs are higher and quality of life factors tend to be less desirable for those with lower acuity needs. With the advent of Supportive Living, these seniors are now able to choose more appropriate housing options at a significant cost savings and higher satisfaction levels.

Today TCM is bringing exactly this type of innovation to the acute care setting with the advent of the stand-alone transitional care center, Transitional Care of Arlington Heights.

Redefining the Healthcare Continuum

In much the same manner as the inherent inefficiencies and lifestyle issues that once surrounded low-acuity care in a nursing home setting and the subsequent advent of Supportive Living, operating sub acute care in a hospital setting is also costly and less desirable for patients. In fact, the local hospital closed its transitional care program. As a result, the only local option for post-hospital subacute care is the traditional nursing home, which is not the ideal temporary setting for many rehabilitative (vs. long-term) patients who are on the road to recovery.

By providing an alternative to institutional care, TCM is redefining the healthcare continuum by offering cost effective care in a manner that is more appealing to today's consumer. This is an innovative trend that is happening across the country.

Money is scarce. Costs are soaring. Our Nation is Aging.

At a time when money is scarce, costs are soaring and our nation is aging, we need to explore cost-effective, customer-centric and innovative alternatives to healthcare's current status quo. Transitional Care is the model of the future. Hospitals know it. Doctors know it. Insurers know it. And Patients want it. That is why I support Transitional Care Management's Arlington Heights project.

Sincerely,

Severly Fetherling
EXECUTIVE DIRECTOR
VICTORY CENTRE OF PARK FOREST

To whom it may concern,

I am in favor of Transitional Care Management's Center because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-hospitalization rehabilitation that is missing in other settings.
- higher nurse staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support the community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, hotel/spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

Naomi Thomas,
3251 East 92 street,
Chicago Ill 60617

To whom it may concern,

I am in favor of Transitional Care Management's Center because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-hospitalization rehabilitation that is missing in other settings.
- higher nurse staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality-and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

Victory Centre S. Chicago
Senior Apartments
9233 S. Burley Avenue
Chicago, IL. 60617

To whom it may concern,

I am in favor of Transitional Care Management's Center because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-hospitalization rehabilitation that is missing in other settings.
- higher nurse staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios

- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

A handwritten signature in black ink, appearing to be 'D. Smith' or similar, with a large initial 'D' and a long, flowing tail.

To whom it may concern,

I am in favor of Transitional Care Management's Center because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-hospitalization rehabilitation that is missing in other settings.
- higher nurse staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

31 N. Broadway
Joliet, IL 60435

To whom it may concern,

I am in favor of Transitional Care Management's Center because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-hospitalization rehabilitation that is missing in other settings.
- higher nurse staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

Signature Myrtis W. Boyd

To whom it may concern,

I am in favor of Transitional Care Management's Center because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-hospitalization rehabilitation that is missing in other settings.
- higher nurse staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

To whom it may concern,

Transitional Care Management (TCM) proposes to offer a highly innovative model of care that combines the best clinical, rehabilitative and hospitality services in a hotel/spa-like setting. TCM will offer a new path to wellness for patients who are bridging the distance between hospital and home.

A Proven, Innovative Concept and Team

This type of innovation is not new to the TCM team. A decade ago, TCM CEO Brian Cloch was one of the pioneers who helped develop the state's highly successful Supportive Living Program that redefined how quality, supportive care was delivered to Medicaid recipients.

Prior to that time, seniors who were dependent on Medicaid funds had no alternative for care other than a nursing home where costs are higher and quality of life factors tend to be less desirable for those with lower acuity needs. With the advent of Supportive Living, these seniors are now able to choose more appropriate housing options at a significant cost savings and higher satisfaction levels.

Today TCM is bringing exactly this type of innovation to the acute care setting with the advent of the stand-alone transitional care center, Transitional Care of Arlington Heights.

Redefining the Healthcare Continuum

In much the same manner as the inherent inefficiencies and lifestyle issues that once surrounded low-acuity care in a nursing home setting and the subsequent advent of Supportive Living, operating sub acute care in a hospital setting is also costly and less desirable for patients. In fact, the local hospital closed its transitional care program. As a result, the only local option for post-hospital subacute care is the traditional nursing home, which is not the ideal temporary setting for many rehabilitative (vs. long-term) patients who are on the road to recovery.

By providing an alternative to institutional care, TCM is redefining the healthcare continuum by offering cost effective care in a manner that is more appealing to today's consumer. This is an innovative trend that is happening across the country.

Money is scarce. Costs are soaring. Our Nation is Aging.

At a time when money is scarce, costs are soaring and our nation is aging, we need to explore cost-effective, customer-centric and innovative alternatives to healthcare's current status quo. Transitional Care is the model of the future. Hospitals know it. Doctors know it. Insurers know it. And Patients want it. That is why I support Transitional Care Management's Arlington Heights project.

Sincerely,

Patricia Bayle
7606 Bayfield Drive

Springfield, Illinois 62761

To whom it may concern,

I support the Transitional Care of Arlington Heights project.

Top Quality Care and Expertise

Transitional Care Center of Arlington Heights will provide post-hospital care to high acuity patients who are increasingly forced to leave hospitals "sicker and quicker" these days. Some go home with limited home care and have no family members available to provide the additional support they need. Others who need this important level of care may need to go outside the area for services.

Holistic Approach in a Wellness Center Setting

While there are other excellent acute rehabilitation facilities in the area, many are either fully occupied, only serve acute needs, are outdated or are restricted to serving special populations. Furthermore, not all are capable of handling the high acuity patient that will be served by Transitional Care Center of Arlington Heights or the patient who prefers to recover in a non-institutional/nursing home setting.

Healing our Residents and Helping our Economy

The development of Transitional Care Center of Arlington Heights will bring innovation and address a specific and under-served need in the Arlington Heights and surrounding communities while rounding out a complement of fine medical services.

I appeal to you and members of the Health Facilities and Services Review Board to lend your support to this new project.

Sincerely,

Squavette Wilson, RN

- higher nurse staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

Michael Dayle
373 Cass
Crest, Illinois
60417

To whom it may concern,

I am in favor of Transitional Care Management's Center because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-hospitalization rehabilitation that is missing in other settings.
- higher nurse staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

Debbie Coleman CNA

To whom it may concern,

I am in favor of Transitional Care Management's Center because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-hospitalization rehabilitation that is missing in other settings.
- higher nurse staffing ratios that translate to better response times, higher patient satisfaction and better overall care.
- taxes that further support our community.
- care for all residents including Medicaid recipients.
- coordination with area physicians and hospitals to offer top quality rehabilitative care.

In addition, although there are other fine facilities in the market, none are specifically built for a short-term stay population. Transitional Care will offer:

- Primarily private rooms with private baths
- Home-like furnishings
- Optional patios
- Comfortable accommodations for guests
- Dining options
- Thoughtful conveniences to minimize disruption and offer privacy
- Gracious hospitality and
- Signature, spa-like amenities

all of which help promote comfort, healing and overall wellbeing.

This is a trend that is happening across the country, and I believe it is an innovation whose time has come for Illinois. For these reasons I support the development of Transitional Care of Arlington Heights.

A handwritten signature in black ink, consisting of a stylized 'E' followed by a large, sweeping 'A'.

To whom it may concern,

I am in favor of Transitional Care Management's Center because it will offer:

- a welcome, innovative alternative to institutional, rehabilitative care.
- a non-denominational care alternative.
- a dedicated focus on post-hospitalization rehabilitation that is missing in other settings.
