Subject: U.S. Renal Care Oak Brook Dialysis - Support Letters
Attachments: Oak Brook Patient Support Letters 6.pdf; Oak Brook Patient Support Letters 7.pdf

Good Afternoon Mike,

Please find the attached PDF copies of letters written in support of the U.S. Renal Care Oak Brook Dialysis certificate of need application, project number 11-024.

Please feel free to contact me with any questions or comments.

Thanks,

Shawn

Re: US Renal Care-Oak Brook Dialysis

Dear Mr. Galassie:

I am a patient with chronic kidney disease writing in support of US Renal Care dialysis facility planned to be built in Downers Grove, IL. DuPage County in Illinois has only one provider for in-center hemodialysis. This monopoly allows patients no choice of dialysis provider unless they choose to travel 16-20 miles round trip three times a week.

I believe that health care for dialysis patients needs to be of high quality and patient choice of a dialysis facility as well as doctors who treat them is very important in achieving and maintaining such quality. With patient satisfaction driving practices in health care, competition is a vital motivator to providing good quality care. Data shows that US Renal Care is a provider with quality scores that rank among the best.

I support the approval of a US Renal Care location in the Downers Grove / Oak Brook area.

Sincerely,

William Shulbi
543 Burlington #112
Downers Grove, IL 60515

With patient satisfaction driving practices in health care, competition can be a precursor to better quality of care.

I support the approval of a US Renal Care location in the Downers Grove/Oak Brook area.

Sincerely,

Debra Deena

Re: U.S. Renal Care Oak Brook Dialysis

Dear Mr. Galassie:

I am a patient with chronic kidney disease writing in support of the US Renal Care dialysis facility to be built in Downers Grove, Illinois. DuPage County of Illinois currently has only one provider for in-center hemodialysis. This monopoly allows patients no choice of dialysis provider unless they choose to travel 16-20 miles round trip three times weekly.

I believe that health care for dialysis patients needs to be of high quality and patient choice of a dialysis facility as well as the doctors who treat them is very important to achieving and maintaining such quality. With patient satisfaction driving practices in health care, competition can be a precursor to better quality of care.

I support the approval of a US Renal Care location in the Downers Grove/Oak Brook area.

Sincerely,
