Re: U.S. Renal Care Streamwood Dialysis, Project Number # 11-026

Dear Ms. Avery:

This firm represents USRC Streamwood, LLC (the "Applicant") in the above referenced matter. The U.S. Renal Care Streamwood Dialysis certificate of need ("CON") permit is set to expire on August 1, 2012.

Modernization of the U.S. Renal Care Streamwood Dialysis facility is complete. Currently, the Applicant has also installed a majority of the equipment, furniture and fixtures in the facility. The project components yet to be completed include installation of the remaining furniture, fixtures and equipment. To date, the Applicant has expended approximately \$606,550 on the project.

The Applicant has confirmed that the project's costs and scope comply with what Illinois Health Facilities and Services Review Board has approved and that sufficient financial resources are available to complete the project.

Therefore, the Applicant hereby requests that the Illinois Health Facilities Services and Review Board renew its CON permit until October 1, 2012.

I enclose with this request a check for the application fee of \$500.

Respectfully,

Shawn Moon

Enclosure
