HEALTH FACILITIES &
SERVICES REVIEW BOARD

Mike/George,

I submitted an application for a clinic in North Pekin. Page 92 of the application is in error. I am attaching a replacement page to be inserted in the application in its place. Thank you and I apologize for the inconvenience.

*Thank you,
Lori Wright
Senior CON Specialist*

HEALTH FACILITIES &
SERVICES REVIEW BOARD

2) A. Medical Director

Dr. Dreyer is currently the Medical Director for Fresenius Medical Care Macomb. Attached is his curriculum vitae.

B. All Other Personnel

Upon opening the facility will hire a Clinic Manager who is a Registered Nurse (RN) from within the company and will hire one part time Registered Nurse and one part time Patient Care Technician (PCT). After we have more than one patient, we will hire another RN and another PCT and increase staff as patient census goes up.

Upon opening we will also employ:

- Part-time Registered Dietitian
- Part-time Licensed Master level Social Worker
- Part-time Equipment Technician

When the clinic reaches 80% utilization total staff will include:

- Full-time Clinic Manager
- 2 Full-time Registered Nurses
- 6 Full-time Patient Care Technicians
- Part-time Registered Dietitian
- Part-time Social Worker.
- Part-time Equipment Technician
- Part-time Secretary

- 3) All patient care staff and licensed/registered professionals will meet the State of Illinois requirements. Any additional staff hired must also meet these requirements along with completing a 9 week orientation training program through the Fresenius Medical Care staff education department.

Annually all clinical staff must complete OSHA training, Compliance training, CPR Certification, Skills Competency, CVC Competency, Water Quality training and pass the Competency Exam.

- 4) The above staffing model is required to maintain a 4 to 1 patient-staff ratio at all times on the treatment floor. A RN will be on duty at all times when the facility is in operation.
