Re: Project # 12-011

Dear Courtney:

Part of the above-reference modernization project included modernization of the Rush University Medical Center Kellogg Building to include a pediatric unit totaling 22 beds in 22 rooms. RUMC has decided to reduce the number of pediatric rooms/beds to 18. The total GSF for the unit will not change, although four of the 18 rooms will be larger than the other 14. The cost will not change. However, since this reduces the number of beds from 22 to 18, we wanted to notify you. We are hopeful this would not require an alteration, since the action could be taken after project approval with only notice to the Board.

We thank you for your consideration, and should you have any questions, concerns, please contact me, or Clare Ranalli at 312-984-3365.

Very truly yours,

Anne M. Murphy
