Re: CON 12-047

Dear Mr. Galassie,

I appreciate the chance to convey my support of a new dialysis center in the Plainfield area. I presently attend dialysis treatments at the FMC dialysis center in Plainfield, IL. I am happy with the assistance I receive at my current facility. The only problem I have is it becoming crowded. End Stage Renal Disease is an immensely growing diagnoses and I fear the facility will not have room. It is almost full.

I believe that you and the other board members will find it in your heart to grant approval on the application for this new center. It would mean a lot to me and other dialysis patients who currently dialyze at FMC-Plainfield. FMC's staff always gives the utmost care to their patients and I would like that to continue at another FMC location.

Sincerely,

Joann Young

Re: 12-047

Dear Dale Galassie

I'm a dialysis patient that receives treatment at FMC Plainfield. My treatments are for 4 hrs at a time. Getting a chair time that works for me and the person who takes me is important. I know with the new Fresenius facility opening, it will help me and many others who need dialysis a lot.

My wife has to leave her work during her lunch break three times a week to take me to dialysis. She sometimes gets back to work late from lunch and has "gotten in trouble" with her boss a few times. The new Fresenius clinic is very close to me and I can just get a \$5 cab to take me there.

Please show your mercy on me and my family by approving this Fresenius Clinic.

Thanks,

Maurice Frazier

Re: CON Project 12-047

Dear Mr. Dale Galassie

I am a dialysis Patient and I am currently receiving treatment at Fresenius Medical Care Plainfield. The dialysis center is almost filled to capacity and I am unable to change my shift there. If another facility could be built in the Plainfield area, that would help tremendously. My family member that takes me to dialysis now works nights at his job. My shift starts at 4:30 am and he is unable to take me. I have to rely on him to get to treatment. When he is unable to take me I get admitted to the hospital. If I were able to change my shift I would make it to all my treatments. I am very happy with the Fresenius staff and nurses and would like to stay at a Fresenius Dialysis Center. I understand that Fresenius has applied to build another clinic in Plainfield to accommodate the growing need in the area. If you would approve this project I would be greatly indebted to you and the other board members.

Sincerely,

  
Dialysis Patient at FMC-Plainfield

Carl S. Henry

Re: Project #12-047

Mr. Galassie,

I am a patient of Dr. Tunji Alausa and I dialyze at FMC-Plainfield three times a week. The facility I currently go to is vastly growing and I fear I will be unable to stay there. It is close to capacity. I know that Fresenius has applied to open another center in the area. If you and the other board members are kind enough to approve the clinic, I would have better access and more options. I would really like if the Illinois Health Facilities & Services Review Board approved the application for the new Fresenius facility in Plainfield. I enjoy the Fresenius facility. They are kind and encourage me to come to treatments every Monday, Wednesday, and Friday. I dialyze at 5:00 am and it gets hard for me to go to treatments. Their warm spirits keep me going.

Thank you to the opportunity to voice my strong support of this project. It will be beneficial to all End Stage Renal Disease patients in Plainfield, such as me.

Thank you again,

Phattana Vongsaoudum
