12-050

Monday, July 30, 2012

**RECEIVED**

Courtney Avery, Administrator  
Board Members  
Public Health Facilities & Review Board  
525 W. Jefferson  
Springfield, Illinois 62761

AUG 03 2012

HEALTH FACILITIES &  
SERVICES REVIEW BOARD

Dear Ms. Avery and Board Members,

On Behalf of the residents, families and local community, enclosed you may find a petition protesting the transfer of the Certificate of Need from the Jackson County Rehab Care Center to RFMS.

There are several good reasons not to approve the transfer:

1. There will be a surplus of beds in Carbondale, Illinois and none in Murphysboro, Illinois; the applicant for permit dated 5/25/2012 (page 14) states there is available capacity in other existing facilities in the planning area. The application contains no written correspondence of the other long term care facilities within the immediate Carbondale area.
2. The application is not consistent with the Illinois State Health Plan or with the Illinois Certificate of Need law and regulations. An example of this is the normal traveling time to the new facility is not within the 30 minute rule according to Section 1125.580. Also, it may be noted that the cost of improvements to the present Jackson County Rehab Care Center is grossly overstated per independent consultants. The present administration of the Jackson County Rehab Care Center has greatly misled the Review Board as to the condition of the building, the normal routine repairs and the operation of the facility.
3. Many of the employees of the Jackson County Rehab Care Center understand that the new employer ( page 15 of 5/25/2012 application ) will accept all staff members who desire employment at the new facility. However, the present employees understand that the new employer will not provide the wages & benefits which they

---

# COMMUNITY OUTCRY

---

presently have. Many of the present employees feel they are being manipulated and threatened to support this move by the present administration.

4. The application for permit states on page 15 that UDI is committed to absorb all residents without condition, limitations or discrimination; however, the hardship, anxiety and stress of the transfer on the residents is too much strain on the well-being of the residents. It may also be noted that UDI has a reputation of catering to private-pay residents.
5. With the over-bedding capacity in Carbondale, Ill, and a major community hospital, staffing a new facility will be difficult.
6. The RFMS plans are "inappropriate, inefficient, and ineffective alternatives" to replacing management or selling Jackson Rehab Care Center outright.
7. Alternatives to new construction have not been seriously considered by Jackson County Board to the maximum extent practicable. The Jackson County Board has not nationally advertised or solicited proposals to keep the present facility in Murphysboro, IL under new ownership. This procedure should have produced a FMV of several million dollars.

Thank you for your time and consideration in reviewing this petition and letter. Enclosed are signed petitions representing a public outcry against the transfer from a cross section of residents, families, Rehab staff, Murphysboro City Council Members, businesses and churches. There will be additional petitions to follow.

Respectfully yours,

Concerned Citizens
