HEALTH FACILITIES &  
SERVICES REVIEW BOARD

To Board Members:

We urge you to reject the closure permit and keep Jacksonville Developmental Center open.

This facility is needed in our area to serve the residents in our area to be close to their friends and family. There is no alternative in our area to meet the needs of so many and be able to remain in proximity to their loved ones.

Without your approval of this closure permit, the state must keep JDC open. Your rejection of the closure permit will be in
