HEALTH FACILITIES &
SERVICES REVIEW BOARD

12-074

Dear Review Board!\

Many Jacksonville residents are being forced to send children to Chicago, and will not do so. I suggest that residents who are not shifted to other institutions be worked with personally and some mechanism be set up to help them, if JDC is fated to be closed—which I am against!

Yes, it is an old and expensive building, but another smaller building could be constructed or used nearby to accommodate the last, neediest residents—perhaps at an existing facility like Barton Stone Christian Home, at 873 W. Grove St. in Jacksonville, could be expanded to care for the last disabled children?

Help! Help! Have mercy! Be fair and just to the poor and disadvantaged. Set something up for each resident! Please!

Prayerfully,

Dr. Richard E. Palmer, Ph.D.
Retired MacMurray Professor ,,
