RE: Fresenius Medical Care Waterloo (No. 12-095)

Dear Mr. Constantino:

I would like to offer my support for the proposed Fresenius Medical Care Dialysis facility, at 515-535 Hamacher St in Waterloo, IL.

I myself am a kidney cancer survivor with both of my kidneys. Due to the DaVinci machine and a remarkable Dr. I have so far survived without having to use dialysis but have toured many dialysis treatment centers and medical care centers. With the new surgical facility in Waterloo, we need this healthcare facility desperately. As Waterloo is one of Illinois fastest growing communities this would be a vital part to this area. Right now residents have to travel to the state of Missouri for care. It would be so convenient and helpful for not just Waterloo but surrounding areas. I am hopeful that this project goes through for all with kidney disease and cancers. March happens to be kidney disease month.

Thank you,

Dennis K. Pyeatt
