Re: #12-101-Permit Renewal

Dear Mr. Seider:

We are returning your request for a Permit Renewal for Permit #12-101. When I discussed this project's completion with Ms. Scheuerman, I did not realize at the time that your permit was good until July 2016. Even though our project completion rules state that the final cost report must be filed within 90 days of the notice of completion we do not require a permit renewal if your permit completion date is greater than the 90 days. If the final cost report takes longer than 90 days to file with us there will be no penalty.

Once again I do apologize.

Mike Constantino
