**To:** Constantino, Mike  
**Cc:** 'Penny Davis'; Kelly Ladd; 'Timothy Tincknell'; Joseph Van Leer; Charles Sheets  
**Subject:** West Side Dialysis Proj. No. 12-102  
**Attachments:** D. Hollandsworth Referral Letter (03-20-2013).pdf

Mike,

Attached please find a revised copy of Dr. Hollandsworth's referral letter for the West Side Dialysis CON application. We have included the requisite certification language from the CON Board rules, a list of new patients by initials and zip code that were referred to existing facilities within the most recent year, and updated historical data to include 2012 utilization. If you have any questions or comments regarding the referral letter or the West Side application, please feel free to contact me.

Thanks.

Anne

Dale Galassie  
Chair  
Illinois Health Facilities and Services Review Board  
525 West Jefferson Street, 2<sup>nd</sup> floor  
Springfield, Illinois 62761

Dear Chairman Galassie:

I am pleased to support DaVita's establishment of West Side Dialysis. The proposed 12-station chronic renal dialysis facility, to be located at 1600 West 13<sup>th</sup> Street, Chicago, Illinois 60608 will directly benefit my patients.

I have been a practicing nephrologist in the area since completing my renal fellowship at Michael Reese Hospital back in 1973, the year U.S. congress mandated Medicare to financially cover end stage renal disease (ESRD) costs. Since that time, the growth of ESRD patients has exploded in part due to financial coverage and the epidemic of obesity, diabetes, and hypertension. Although the incidence is still very high among Caucasians, the incidence rate among African Americans and Hispanics has climbed to epidemic proportion. The proposed clinic is ideally suited to my practice's patients and the patients of other nephrologists in the area. My associates, Edwin Cook, D.O., Edward Cohen M.D., and I run a busy pre-ESRD clinic at Provident Hospital, which is a Division of Cook County Health Services, on a weekly basis for years. My patients come from all demographic areas.

While the best and financially prudent solution is renal transplant before ever seeing an outpatient dialysis unit, this is an extremely rare occurrence, mostly when family or friends are compatible donors. The other treatment option boils down to hemodialysis or peritoneal dialysis. West Side Dialysis will cater to the in-center hemodialysis, but will also work to implement home modalities for appropriate patients. Many patients can benefit from home hemodialysis as long as they are committed to monitoring their care and have a sufficient support network. Despite DaVita's commitment to home modalities/self care as the largest home dialysis provider in the country, the need to expand the number of dialysis chairs in the area exists.

Although the 30 minute rule for time to get to a dialysis unit in rural/suburban areas makes some sense, in communities like Chicago with very high density population, traffic congestion

forces many patients to utilize some form of public transportation rather than driving themselves. This is particularly troublesome for patients, many of whom rely on assistive devices, such as canes and walkers, are faced with additional safety hazards when arriving and departing the facility in the dark and are concerned about getting home late in their neighborhoods. As such, a facility in their neighborhood is essential.

This is particularly true for my large patient-base. I have identified 87 patients suffering from Stage 3, 4, or 5 CKD. Conservatively, I predict at least 58 of these patients will progress to dialysis in the next 12 – 24 months. My large patient-base and the 51-station need identified in your own inventory demonstrate substantial demand for this facility. Further, this facility will directly benefit an already underserved Hispanic and African American population.

A list of patients who have received care at existing facilities in the area over the past three years is provided at Attachment – 1. A list of new patients I have referred for in-center hemodialysis in the most recent year is provided at Attachment – 2. A list of my pre-ESRD patients is provided at Attachment – 3.

I attest to the best of my knowledge that all of the information in this letter is true and correct and these patient referrals have not been used to support another pending or approved CON application.

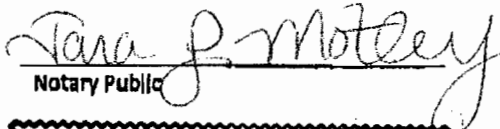

My patients need this facility, and, as such, I fully support the proposed establishment of West Side Dialysis.

Sincerely,

Don L. Hollandsworth, D.O.  
Nephrologist

Subscribed and sworn to me  
This 20<sup>th</sup> day of March, 2013

Notary Public
