

Re: Project No. 12-105, Metroeast Endoscopic Surgery Center

Dear Mr. Mills:

This letter serves to notify you that the above-referenced project is complete. It received its license on March 10, 2014. We are in the process of compiling the costs of the project so that we may submit a report of the final realized costs. This notice is being filed instead of an annual progress report as we understand from reviewing this matter with Mr. Michael Constantino that such progress report is not required since the facility has now been licensed.

Sincerely,

A handwritten signature in black ink, appearing to read 'Tina Lippert', written over a horizontal line.

Tina Lippert RN  
Endoscopy Manager  
Metroeast Endoscopic Surgery Center
