Re: Approval of Good Shepherd Hospital CON Project: 13 - 016

Dear Mr. Galassie,

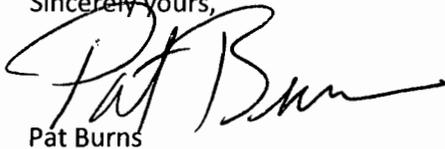

I urge the Board to approve the Good Shepherd Hospital CON project 13-016.

The facility construction project will greatly benefit patients. This project will enhance patient privacy and safety.

The hospital was built many decades ago. The facility is out of date and needs to be modernized to accommodate new equipment and technology and to provide all private patient rooms. Good Shepherd is one of the few hospitals in the area with semi private rooms.

Please approve the Good Shepherd Hospital Certificate of Need application to update facilities.

Sincerely yours,

Re: Support for Good Shepherd Project #13 - 016

Dear Ms. Avery:

I am writing this letter to show my support of Good Shepherd Project # 13-016. Good Shepherd is recognized in the community as an asset and an excellent provider of high-quality care.

I am also concerned about the spread of infection when sharing a room with another patient. I am excited about this project, especially that it will provide all private rooms.

I am also thrilled that the project includes increased ICU beds. The additional ICU beds are needed to meet the needs of the community. The hospital was built several decades ago and is due for an updating. There have been many changes in health care and the facilities at Good Shepherd need to be updated to continue to provide excellent care to my family and to the community.

Mr. Galassie:

I'm taking the time to write to express my support of Good Shepherd's campus construction plans (project #13-016). Due to the age of the campus, many of the hospital's rooms contain two beds. This isn't very patient friendly and increases the chance of spreading infection among patients. Moving to 100% private rooms will be a big patient satisfier. Thank you in advance for your support of this project and helping to keep patients safe while in the hospital.

Sincerely,
