To Whom It May Concern:

I am writing on behalf of DaVita HealthCare Partners, Inc. and Total Renal Care, Inc. to inform you of the proposed relocation of TRC Children's Dialysis Center, a 6-station pediatric dialysis facility located at 2611 North Halsted Street, Chicago, IL 60614 (the "Existing Facility"). DaVita plans to relocate the Existing Facility to a nearby location. Your facility is within 45 minutes travel time of the Existing Facility.

The estimated date of discontinuation and relocation is approximately March 31, 2015.

Over the past two years, the facility has served between 15 and 22 pediatric end-stage renal disease patients at any given time and the census at the end of May 2013 was 19. We expect all existing patients of the Existing Facility will be transferred to the replacement facility.

While we do not anticipate the project will impact access to care for residents of the area or area health care facilities because we will accommodate the TRC Children's Dialysis Center patient base at another nearby location, the Illinois Health Facilities and Services Review Board requires us to inform you of these plans to provide you an option to provide an impact statement from your facility.

If you choose to provide such a response, please detail whether your facility's admissions policies place any restrictions or limitations on providing service to residents of the market area and your capacity by shift. Please send any such response within fifteen days of receipt of this letter to Tim Tincknell, DaVita Inc., 2611 North Halsted Street, Chicago, Illinois 60614. If we do not receive a response from you within fifteen days, it will be assumed that you agree that the relocation of the Existing Facility will not affect your facility.

If you have any questions about DaVita's plans to relocate the facility, please feel free to contact me at timothy.tincknell@davita.com or 773-549-9412.

Sincerely,

Tim Tincknell

On behalf of

DaVita HealthCare Partners, Inc.
